ILLINOIS POWER AGENCY

**Illinois Power Agency to Seek Stakeholder Feedback
on Illinois Solar for All Evaluation**

November 25, 2024

The Illinois Power Agency (IPA) is preparing to conduct a process to solicit feedback from stakeholders on the independent evaluation of Illinois Solar for All (ILSFA). This is an opportunity for all interested stakeholders, including individuals and organizations in environmental justice and historically underserved communities, to offer feedback on evaluation elements and how evaluation reports can be utilized outside the Agency. This feedback will be used by the Agency as it prepares to issue a Request for Qualifications to select a program evaluator under the biennial process mandated by the Illinois Power Agency Act (IPA Act). The Agency also welcomes input from stakeholders beyond what is required in Section 1-56(b)(6) of the IPA Act.

This announcement is a proactive communication to stakeholders of the upcoming feedback period running from December 2, when the Agency plans to release a request for feedback document, through December 20, when written feedback will be due. Further, the IPA will hold a Stakeholder Feedback Session Workshop on Monday, December 16, from 12-1 p.m. CT.

Please stay tuned for additional materials and the commencement of stakeholder feedback period in December.
