**Subject:** [External] Proliance - Feedback on REC Price Cost Collection  
**Date:** Wednesday, November 20, 2024 9:38:32 AM

---

Hello Illinois Power Agency,

Good Day!

Thank you for the opportunity to provide feedback on the proposed two-phase approach for REC cost data collection.

To help minimize the administrative burden on participants, I suggest providing user-friendly tools or templates for reporting. This could include:

- **Standardized Templates:** Pre-formatted Excel sheets or online forms with clear categories to simplify data entry.
- **Interactive Guidance:** Tooltips or examples within the templates to clarify data requirements.
- **Automation Options:** Allowing bulk data uploads (e.g., CSV files or API integration) for larger participants.
- **Training and Support:** Hosting brief workshops or providing tutorials to guide participants through the reporting process (which the agency is currently doing)

Thank you for considering this input, and I look forward to the continued development of this initiative.

Best regards,

**Caitleen Anne Dagatan**
