REQUEST FOR PROPOSALS

ILLINOIS POWER AGENCY
PROFESSIONAL SERVICES – PROGRAM EVALUATION (ILLINOIS SOLAR FOR ALL)
Reference Number 25-RFP-01

The Illinois Power Agency (“Agency” or “State”) issues this Request for Proposals (“RFP”) seeking qualified and responsible experts or expert firms (“Offerors”) **to serve as the independent Evaluator for the Illinois Solar for All Program**. A brief background and description are set forth below.

The Agency welcomes responses from Qualified Offerors able and willing to meet the requirements of this RFP. A Qualified Offeror is an Offeror on the list of respondents to the Request for Qualifications 25-RFQ-01 issued by the Agency on January 24, 2025 who has been determined by the Agency to be qualified to respond to this RFP. Only Qualified Offerors to 25-RFQ-01 may submit a response to this RFP. Evaluation of responses to this RFP and responses to the prior related RFQ will form the basis for determining the selected Offeror for a contract award.

BACKGROUND:

Public Act 99-0906 (colloquially known as the Future Energy Jobs Act), which took effect June 1, 2017, amended and expanded the Illinois Renewable Portfolio Standard (“RPS”) by requiring the development of programs for the procurement of renewable energy credits from new photovoltaic systems in addition to the competitive procurement processes traditionally conducted by the Agency. Public Act 102-0662 (colloquially known as the Climate and Equitable Jobs Act), which took effect September 15, 2021, provided further updates to those provisions. The implementation of these programs is included in the Agency’s Long-Term Renewable Resources Procurement Plan (“Long-Term Plan”).¹

One of the programs detailed in the Long-Term Plan is the Illinois Solar for All Program, “which provides incentives for low-income distributed generation and community solar projects, and other associated approved expenditures.”² Furthermore, “[t]he objectives of the Illinois Solar for All Program are to bring photovoltaics to low-income communities in this State in a manner that maximizes the development of new photovoltaic generating facilities, to create a long-term, low-income solar marketplace throughout this State, to integrate, through interaction with stakeholders, with existing energy efficiency initiatives, and to minimize administrative costs.”³

Illinois Solar for All consists of four sub-programs:

- Low-income Single-Family and Small Multifamily Solar (Residential Small)
- Low-income Community Solar
- Incentives for Non-profits and Public Facilities
- Low-income large multifamily solar (Residential Large)

Solar projects are financially supported by contracts to purchase the 15-year output of Renewable Energy Credits (“RECs”) from the participating projects. Illinois Solar for All requires that: 1) residential system hosts or community solar subscribers have an income of no more than 80% of Area Median Income (“AMI”), 2) contracts produce “tangible economic benefits” for participants, 3) 25% of program funds are allocated to projects in Environmental Justice Communities, 4) 25% of program funds are allocated to

projects that promote energy sovereignty, and 5) up to 5% of the annual program budget is set aside for grassroots education funding. The current annual incentive budget for the program is approximately \$66.5 million per year. The program also has requirements related to the employment of graduates of job training programs.

The program is currently administered by a third-party program administrator, Elevate Energy (“Program Administrator”). The program launched in 2019 and is in its seventh program year, spanning June 2024 through May 2025. Details can be found on the program website, www.illinoissfa.com, in Section 1-56(b)(2) of the Illinois Power Agency Act (20 ILCS 3855), and in Chapter 8 of the Long-Term Plan. The Agency is also running a separate program for non-income-qualified distributed generation and community solar, the Adjustable Block Program (also referred to as Illinois Shines).⁴ Evaluation of the Illinois Shines program is not part of this Solicitation.

Section 1-56(b)(6) of the Act specifically requires evaluation of the Illinois Solar for All Program:

At least every 2 years, the Agency shall select an independent evaluator to review and report on the Illinois Solar for All Program and the performance of the third-party program administrator of the Illinois Solar for All Program. The evaluation shall be based on objective criteria developed through a public stakeholder process. The process shall include feedback and participation from Illinois Solar for All Program stakeholders, including participants and organizations in environmental justice and historically underserved communities. The report shall include a summary of the evaluation of the Illinois Solar for All Program based on the stakeholder developed objective criteria. The report shall include the number of projects installed; the total installed capacity in kilowatts; the average cost per kilowatt of installed capacity to the extent reasonably obtainable by the Agency; the number of jobs or job opportunities created; economic, social, and environmental benefits created; and the total administrative costs expended by the Agency and program administrator to implement and evaluate the program.

The Agency has previously conducted two solicitations to select an Evaluator. The first solicitation (19-RFQ-02/19-RFP-02) selected an independent evaluator who reported on the first three ILSFA program years (through May 2021). The second solicitation (23-RFQ-02/23-RFP-02) selected a new independent evaluator who has completed an annual report for the fourth program year (June 2021 through May 2022), two topic-specific mid-year evaluation reports, and will complete evaluations of two additional program years (through May 2024) and one more mid-year evaluation report during their contract term. **Each of the evaluation reports produced by the selected Evaluators can be found on the Program’s website at: www.illinoissfa.com/evaluation-reports.**

This Solicitation represents the second step in the Agency’s process of selecting the next independent evaluator.⁵ Qualified Offerors based on the responses received to 25-RFQ-01 have been invited to submit proposals in response to this more detailed Request for Proposals (25-RFP-01).

This Solicitation is exempt from the procedures in the Illinois Procurement Code (30 ILCS 500) pursuant to Sections 1-25(2) and 1-56(f) of the Illinois Power Agency Act (20 ILCS 3855) and contains alternative bidding procedures pursuant to Section 20-10(i) of the Procurement Code (30 ILCS 500/20-10).

⁴ See www.illinoisshines.com.

⁵ Prior to the issuing of this Solicitation, the Agency and Program Administrator held a stakeholder feedback session and solicited written comments on the evaluation process. See: <https://ipa.illinois.gov/renewable-resources/stakeholder-engagement.html> (Illinois Solar for All Evaluation Request for Stakeholder Comments (December 2, 2024)). This solicitation reflects the input received during that process.

BRIEF DESCRIPTION: The evaluation of the Illinois Solar for All Program sought by the Agency consists of two comprehensive annual reports, each covering a program year. The annual reports will include metrics, analysis, and program improvement recommendations, along with an accompanying summary report that condenses key metrics and recommendations, and a presentation of annual evaluation report findings and recommendations to program stakeholders. Additionally, the Agency seeks brief, focused mid-year reports on specific program topics to be released between the annual reports to provide targeted pertinent analysis to the Agency, stakeholders, and the public. For example: a focused report may focus on energy sovereignty in ILSFA, describing the legislative mandate for dedicating a portion of ILSFA funding towards projects offering participant ownership, an analysis of how to balance the participant benefits of ownership with the responsibilities and risks, and recommendations how ILSFA might better incentivize energy sovereignty projects across all sub-programs. The Agency envisions these reports to be around 20 pages long, although the appropriate length will depend on the topic and level of detail warranted to adequately address the topic. An executive summary PowerPoint presentation should also accompany the reports, to be distributed and presented to Agency leadership. The Agency also desires that the evaluator analyze the Program in comparison to other state income-eligible solar programs nationwide. Additional information on the anticipated scope is included in Section 2 of this RFP.

The purpose of this RFP is to describe in detail the proposed approaches to the services and deliverables listed in Sections 2.2 and 2.3, specific resources available to execute those services and deliverables, and proposed price. Those Offerors invited to respond to this RFP should describe in detail their qualifications and proposed approaches to the services and deliverables listed in Section 2 (Technical Proposal), specific resources available to execute those services and deliverables, and detail the proposed price in Section 3. The Agency will score responses to the RFP to determine the Offeror best suited to serve as the Agency's Illinois Solar for All Program Evaluator. That selection is subject to approval by the Illinois Commerce Commission.⁶

If selected through this RFP process, the selected Offeror will be expected to enter into a binding contract with the Agency. This resulting contract with the awarded Offeror shall have an initial term of approximately May 16, 2025 through June 30, 2027 and will include evaluation of Illinois Solar for All for the program years 2024-2025, 2025-2026, and a portion of 2026-2027.

Please read the entire Solicitation package and submit a Proposal in accordance with the instructions. All forms and signature areas contained in the proposal package must be completed in full and submitted with the check list technical proposal, pricing proposal, disclosures, and various attachments, which combined will constitute the Proposal. Do not submit the instruction pages with Proposals. Offerors should retain the Instructions and a copy of the Proposal for future reference.

- I.7 GOVERNING LAW AND FORUM:** Illinois law and rule govern this Solicitation and any resulting contract. Offeror must bring any action relating to this Solicitation or any resulting contract in the appropriate court in Illinois. This document contains statutory references designated with "ILCS" (Illinois Compiled Statutes). Vendor may view the full text at www.ilga.gov/legislation/ilcs/ilcs.asp. Sections 1-56 and 1-75 of the Illinois Power Agency Act (20 ILCS 3855) are applicable to this Solicitation.
- I.8 PUBLIC RECORDS AND REQUESTS FOR CONFIDENTIAL TREATMENT:** Submittals of Qualifications become the property of the Agency. Submittals of Qualifications, including late submissions, will not be returned. **All Submittals of Qualifications will be open to the public under the Illinois Freedom of Information Act ("FOIA") (5 ILCS 140) and other applicable laws and rules, unless Offeror requests in its Submittal of Qualifications that the Agency treat certain information as confidential.** A request for confidential treatment will not supersede the State's legal obligations under FOIA. The Agency will not honor requests to keep entire Offers confidential. Offerors must show the specific grounds in FOIA or other law or rule that support confidential treatment. Regardless, the Agency will disclose the successful Offeror's name, the substance of the Offer, and the price upon final contract award. If Offeror requests confidential treatment, Offeror must submit one additional copy of the Submittal of Qualifications with proposed confidential information redacted. This redacted copy must describe the general nature of the material removed, and shall retain as much of the Submittal of Qualifications as possible. The Agency is not responsible for and will not pay any costs associated with the preparation and submission of any Submittal of Qualifications. Qualified Offeror(s) shall not commence, and will not be paid for any billable work prior to the date all parties execute the contract.

INSTRUCTIONS

Solicitation and any subsequent RFP issuance, selection, and award process will follow 20 ILCS 3855/1-56(b)(6). As a result of this Solicitation and any subsequent RFP, the Agency may select the winning Offeror to evaluate the Illinois Solar for All Program. The Agency's selection is subject to approval by the Illinois Commerce Commission. If the Agency issues an award, the award will be made to the Responsible Offeror whose offer best meets the specified requirements and evaluation criteria.

I.11 INCORPORATION OF 25-RFP-01 BY REFERENCE: This Solicitation (25-RFP-01) and Offeror's Proposal, and 25-RFQ-01 and the associated Offeror's Submittal of Qualifications, will be incorporated into and made part of any subsequent contract by reference.

I.12 PREQUALIFICATION TO RESPOND TO SUBSEQUENT RFP: Based on the evaluation of responses to 25-RFQ-01, only Qualified Offerors may respond to this RFP.

I.13 EVALUATION OF RESPONSIVENESS: The Agency determines whether proposals completely and satisfactorily meet the responsiveness requirements of this Solicitation. Submittals that fail to meet minimum Responsiveness and Responsibility requirements will not be considered for subsequent evaluation. The Agency shall assess the information provided and the quality of that information when evaluating proposals. If the Agency finds a failure or deficiency, the Agency may reject the proposal or reflect the failure or deficiency in the evaluation.

RESPONSIVENESS: A responsive Offeror is one whose proposal conforms in all material respects to this Solicitation, and includes all required information, forms, and disclosures. Information, forms and disclosures include and may not be limited to:

- Proposal Checklist (Section 1)
- Technical Proposal (Section 2)
- Pricing Proposal (Section 3)
- Attachments AA to NN

The Agency will determine whether the Proposal meets the stated requirements. Differences or deviations that have negligible impact on the suitability of the service to meet the Agency's needs may be accepted or corrections allowed. Except for late submissions, and other requirements that by law must be part of the submission, the Agency may require that an Offeror correct deficiencies as a condition of further evaluation. If no Offeror meets a particular requirement, the Agency may waive that requirement.

I.14 INTERVIEW/PRESENTATION. The Agency may invite Offerors to an in-person or video conference interview or presentation to answer questions the Agency may have after evaluating the Offeror's Proposal.

The Agency reserves the right to create a list of Offerors to be invited to an interview or presentation. Only those vendors invited to an interview will be considered for further evaluation and selection for contract award.

I.15 EVALUATION OF ELEMENTS OF RESPONSIBILITY. The table below shows elements of responsibility for which the Agency will evaluate proposals—including both the maximum points awarded (1,000) and the minimum points needed for each requirement. Proposals will be scored based on the strength of addressing these elements, with their relative weights in points. Failure to obtain the minimum number of points needed in any element of responsibility (following any curing of any deficiencies as described in Section I.13 above) will automatically disqualify the entire proposal.

I.16 PROTEST PROCESS: Any person may submit a protest relating to the notice of the RFP, the terms of the RFP, and any decision to reject a late offer. An Offeror (i.e., a person who submitted an offer to the IPA in response to this RFP) may protest the rejection of its offer or an award to another Offeror. Any protest must be received by close of business no later than ten (10) calendar days after the protesting party knows or should have known of the facts giving rise to the protest to ensure consideration. Any notice published to the IPA or ILSFA website establishes the “known or should have known” date for the subject matter of the notice. In addition, protests relating to the notice or terms of the RFP must be received within fourteen (14) calendar days after release of the RFP.

Protest submissions must be concise and logically arranged; provide a statement of reasons for the protest specifically identifying any allegedly material violation of the IPA Act, another relevant Illinois law, or the terms of the RFP; and include any supporting facts, arguments, evidence, and documents. Protests that do not establish legally sufficient grounds for protest— that is, a material violation of the IPA Act, other relevant Illinois law, or the terms of the RFP – or that do not include supporting evidence will be denied. Note that this RFP is not subject to the Illinois Procurement Code, and protests based solely on rules applicable under that Code will not be considered.

Within one (1) business day of receiving the protest submission, the RFP Solicitation Contact will assign a staff member from IPA that was not involved in drafting the RFP or evaluating offers to review the protest submission and the RFP. If the protest relates to a rejection of an offer, the staff member will also review all relevant offers submitted in response to the RFP and any other relevant information such as evaluation materials. That staff member will make a recommendation to the Agency’s Director within seven (7) calendar days of being assigned to review the protest. The Director will make the final decision as to the determination of the protest

INSTRUCTIONS

within three (3) calendar days. The IPA will resolve the protest by means of a written determination. In determining the appropriate determination, the Director shall consider whether the protestor established sufficient grounds for protest; the seriousness of the procurement deficiency, if any; the degree of prejudice to other parties or to the integrity of the competitive procurement system; the good faith of the parties; the urgency of the procurement; and the impact of the recommendation on the IPA's mission.

- I.17 MINORITY, FEMALE, AND PERSONS WITH DISABILITY PARTICIPATION AND UTILIZATION PLAN:** This Solicitation contains a goal to include businesses owned and controlled by minorities, females, and persons with disabilities in the procurement and contracting processes. **The utilization goal is 30% of the contract amount** and is based on the availability of certified vendors (under the Illinois Business Enterprise Program or "BEP") to perform the anticipated direct subcontracting opportunities of this contract. In addition to the other award criteria established for this contract, the Agency will award this contract to a Vendor that meets this goal or makes good faith efforts to meet this goal.

The Agency takes this goal very seriously. Failure to submit a Utilization Plan (See Attachment MM) that meets this goal or the instructions provided in this solicitation may result in the offer being deemed non-responsive. Such a determination would result in the response being summarily rejected by the Agency.

- If the Offeror is a BEP certified vendor, the entire goal is met and no subcontracting with a BEP certified vendor is required; however, Offeror must submit a Utilization Plan indicating that the goal will be met by self-performance.
- An Offeror who elects to utilize BEP certified subcontractor(s) to meet the goal must provide executed Letter(s) of Intent for all such subcontractors in addition to the Utilization Plan.
- An Offeror who selects the Good Faith Efforts option for the Utilization Plan, must fully complete the "Demonstration of Good Faith Efforts to Achieve Goal and Request for Waiver" and the "Good Faith Efforts Contact Log" as part of their submittal.⁷

The [Illinois Commission on Equity and Inclusion](#) certifies minority-owned, women-owned, and persons with disabilities owned businesses for the State of Illinois Business Enterprise Program ("BEP").

For complete requirements for BEP certification please refer to: <https://cei.illinois.gov/vendor-resources/get-bep-certified.html>.

Scope of Evaluation

The Evaluator will produce comprehensive evaluation reports for two program years of Illinois Solar for All: 2024-2025 and 2025-2026.⁹ In addition, the Evaluator will produce up to four additional mid-year reports focused on specific topics determined through feedback from stakeholders.

The comprehensive reports will include both quantitative and qualitative evaluations. Evaluation materials and presentations should be designed for diverse audiences, including some with limited experience with the Program and/or solar production. The Agency has attempted to include a variety of evaluation materials and presentations within the scope of work to reach audiences with a range of existing knowledge.

STATUTORY EVALUATION REQUIREMENTS:

Per Section 1-56(b)(6) of the IPA Act, each annual evaluation report must include the following quantitative metrics:

- Number of projects installed

- Average cost per kilowatt of installed capacity
- Number of jobs or job opportunities created

⁹ Each program year runs from June 1 to May 31 of the following year.

- Economic, social, and environmental benefits created
- Total administrative costs

In addition, the IPA requests that each annual evaluation report further analyze the metrics above by the following factors:

- Sub-program (residential distributed generation, Non-profit/Public Facilities, Community Solar)
- For DG and Community Solar: owners versus renters
- Business model (e.g., purchase, lease, power purchase agreement)
- Geographic regions including, but not limited to Environmental Justice communities, Low-income communities, rural, suburban, and urban areas
- Energy sovereignty
- Other socioeconomic or demographic characteristics proposed by the Evaluator and/or stakeholders

ADDITIONAL ELEMENTS:

- Distribution of income verification methods used and impact on customer participation

 - Actual savings achieved compared to expected savings
 - Determining if there is a difference in savings between customer homes solely with solar through ILSFA versus those that electrified their home, utilized available weatherization and energy efficiency incentives, and include solar

B. Qualitative Analysis

Each evaluation reports should also consider items with a focus on substantial qualitative analysis of the program results:

- Evaluation of Program Administrator's performance

- Housing stock issues that prevented participation in the Distributed Generation Program
- Rate of projects that are not completed (and contributing factors)
- Effectiveness of coordination of job training providers and Approved Vendors/installers

C. Indirect Influences, Impacts, and Benefits

Economic, social, and environmental benefits should be considered by evaluating:

- Impact of the solar installation or community solar subscription on the energy costs of participants
- Impact of factors outside of Illinois on the program (e.g., supply chain disruptions, tariffs, reduction of federal tax credits)
- Correlation between locations of installations and where job trainees live
- Percent of domestically produced panels
- Non-energy benefits including impact on community awareness or other measures for well-being
- Impact on reliability of the electric distribution system

- Other environmental benefits proposed by the evaluator and/or stakeholders

Employment benefits:

- Construction/installation jobs created
- Jobs created in other parts of the solar workforce (e.g., sales, system design, general construction/trades)

- Permanent versus temporary jobs created
