MASTER RENEWABLE ENERGY CREDIT PURCHASE AND SALE AGREEMENT

Contract Number: _____

THIS MASTER RENEWABLE ENERGY CREDIT PURCHASE AND SALE AGREEMENT (the “Agreement”) is entered into as of this ___ day of _____, 20__ (the “Effective Date”), by and between _____ (“Seller” or “Party A”) and [Ameren Illinois Company d/b/a Ameren Illinois / Commonwealth Edison Company / MidAmerican Energy Company] (“Buyer” or “Party B”). Each of Seller and Buyer is sometimes referred to herein as a “Party” or collectively as the “Parties.”

RECITALS

WHEREAS, the Illinois Power Agency (“IPA”) has established the Illinois Solar for All Program (“SFA”) for the purchase of Renewable Energy Credits (“RECs”) by Illinois electric utilities for which Transaction(s) under this Agreement have been awarded pursuant to the SFA and have been approved by the Illinois Commerce Commission (“ICC”);

WHEREAS, pursuant to the SFA, Buyer and Seller agreed to enter into this Agreement to set forth the terms and conditions of the Transaction(s) entered into by the Parties; and

WHEREAS, each of Buyer and Seller believes it is in its best interest to enter into this Agreement including all Product Order(s) hereunder;

NOW, THEREFORE, FOR AND IN CONSIDERATION of the mutual agreements contained in this Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

ARTICLE 1: DEFINITIONS

1.1 “Abandoned Project” is a Distributed Renewable Energy Generation Device, as approved by the IPA, that is Energized (i) which is no longer Delivering RECs; (ii) which is sited on real property that has undergone a change in ownership; and (iii) for which the Seller has exercised reasonable effort to restore the Designated System’s Delivery of RECs.

1.2 “ABP” means the Illinois Adjustable Block Program established under 20 Ill. Comp. Stat. 3855/1-75 or successor.

1.3 “Actual Capacity Factor” means, with respect to a Designated System, the capacity factor of such Designated System indicated by Seller in its SFA Part II Application and as recorded in Schedule B to the Product Order.

1.4 “Actual Nameplate Capacity” means, with respect to a Designated System, the actual Nameplate Capacity of such Designated System recorded immediately prior to Energization, as indicated by Seller in its SFA Part II Application and as recorded in Schedule B to the Product Order.

1.5 “Advance of Capital” means, with respect to a Designated System that is under the Low-Income Single-Family and Small Multifamily Solar sub-program, an amount specified in Schedule A (and Schedule B, if applicable) to the Product Order that is applicable to such Designated System. For avoidance of doubt, an Advance of Capital payment in respect of a Designated System shall be treated as an advance payment in respect of Product from that Designated System and any event that leads to a removal of such Designated System shall require Seller to return the portion of such Advance of Capital amount to Buyer associated with compliant RECs that are paid for, but not Delivered by Seller to Buyer.

1.6 “Affiliate” means, with respect to any person, any other person (other than an individual) that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such person, with “control” meaning the possession, directly or indirectly, of the power to direct or cause the direction of the management, policies, or activities of a person, whether through ownership or voting securities, by contract or otherwise.

1.7 “Aggregate Drawdown Payment” means, with respect to a Delivery Year, the amount equal to the sum of the Drawdown Payments due from Seller to Buyer across all Designated Systems under this Agreement for such Delivery Year pursuant to Section 4.2(c)(v)(A).

1.8 “Agreement” means this Master Renewable Energy Credit Purchase and Sale Agreement.

1.9 “Anchor Tenant” means, with respect to a Community Renewable Energy Generation Project, the non-End Use Customer Subscriber designated by Seller as such under its SFA Part I Application, unless changed pursuant to Section 2.6(e).

1.10 “Anchor Tenant Contract Price” means, with respect to a Community Renewable Energy Generation Project, the REC price applicable to RECs associated with the shares Subscribed by the Anchor Tenant. Unless otherwise specified, and regardless of whether or not the Anchor Tenant is a non-profit or public sector facility, the Anchor Tenant Contract Price shall be the Anchor Tenant Proposed Price, as may be adjusted pursuant to Section 2.5(a)(ii)(A). For avoidance of doubt, the Contract Price is dependent on the Anchor Tenant Contract Price, and the Anchor Tenant Contract Price affects the calculation of the Contract Price as defined in Section 1.27 below.

1.11 “Anchor Tenant Proposed Price” means, with respect to a Community Renewable Energy Generation Project, as applicable, either (a) the REC price applicable to RECs associated with the shares

Subscribed by the Anchor Tenant as established for the Community Driven Community Solar Category under the ABP,¹ or (b) if the Anchor Tenant is a Master-Meter Income-Eligible Residential Building Anchor Tenant, then the price shall be the average of (i) the applicable REC price for the Community Driven Community Solar Category under ABP² and (ii) the Non-Anchor Tenant Proposed Price, and indicated in Schedule A to the Product Order applicable to such Community Renewable Energy Generation Project at the time of the Trade Date of such Product Order. For avoidance of doubt, the Anchor Tenant Proposed Price shall be determined pursuant to the aforementioned regardless of whether or not an Anchor Tenant is a non-profit or public-sector facility. For avoidance of doubt, the Anchor Tenant Proposed Price is independent of and does not affect the calculation of the Proposed Price as defined in Section 1.95 below.

1.12 “Applicable Program” means the Solar for All Program contained within the Illinois Renewable Portfolio Standard, as established under 20 Ill. Comp. Stat. 3855/1-56, or successor.

1.13 “Approved Vendor” means the entity approved by the IPA under the SFA to be eligible for an award of an Agreement (as a Seller) under the SFA.

1.14 “Bankrupt” means an entity that has (i) filed a petition or otherwise commenced, authorized or acquiesced in the commencement of a proceeding or cause of action under any bankruptcy, insolvency, reorganization or similar law, (ii) had any such petition filed or commenced against it and not dismissed within 60 days, (iii) made an assignment or any general arrangement for the benefit of creditors, (iv) otherwise become bankrupt or insolvent, however evidenced, (v) had a liquidator, administrator, receiver, trustee, conservator or similar official appointed with respect to it or any substantial portion of its property or assets, or (vi) become generally unable to pay its debts as they fall due.

1.15 “Bi-Annual System Status Report” means a report that Seller must submit to Buyer and the IPA bi-annually starting six (6) months from the Trade Date of the applicable Product Order pursuant to Section 6.1, for each Designated System that is not yet Energized and where the Proposed Nameplate Capacity is greater than 25 kW.

1.16 “Business Day” means any day except a Saturday, Sunday, or a Federal Reserve Bank holiday. A Business Day opens at 8:00 a.m. and closes at 5:00 p.m. local time for the relevant Party’s principal place of business. The relevant Party, in each instance unless otherwise specified, is the Party from whom the notice, payment or delivery is sent and by whom the notice or payment or delivery is received.

1.17 “Buyer” means for any particular Transaction, the buyer of the Product.

1.18 “Claiming Party” is defined in Section 10.1.

1.19 “Class of Resource” means the type of generating unit associated with a Designated System as specified in Schedule A or Schedule B to the Product Order that is applicable to such Designated System; namely either a Distributed Renewable Energy Generation Device or a Community Renewable Energy Generation Project.

1.20 “Collateral Requirement” means, (i) with respect to a Designated System that is not Energized, an amount equal to five percent (5%) of the multiplicative product of (a) the sum of the Proposed Price (less Stranded Customer REC Adder, if applicable), the ES Price Adder (if applicable as indicated in Schedule A to the Product Order) and the Home Repairs Pilot Proposed Adder (if applicable as indicated in Schedule A to the Product Order) and (b) the Designated System Expected Maximum REC Quantity; (ii)

¹ if such REC price is not available then the last prevailing REC price applicable to the Proposed Nameplate Capacity for the Community Driven Community Solar Category under the ABP shall be used.

² if such REC price is not available then the last prevailing REC price applicable to the Proposed Nameplate Capacity for the Community Driven Community Solar Category under the ABP shall be used.

with respect to a Designated System that is Energized but that has not Delivered at least one (1) REC, an amount equal to five percent (5%) of the multiplicative product of (a) the Contract Price (less Stranded Customer REC Adder, if applicable) and (b) the Designated System Contract Maximum REC Quantity; and means, (iii) with respect to a Designated System that is Energized and the Delivery of at least one (1) REC has occurred, an amount equal to five percent (5%) of the multiplicative product of (a) the Contract Price (less Stranded Customer REC Adder, if applicable), (b) the Designated System Contract Maximum REC Quantity and (c) the result obtained by dividing the number of Delivery Years remaining in the Delivery Term by the number of Delivery Years in the Delivery Term. Further, notwithstanding the foregoing, the Collateral Requirement for a Designated System shall be reduced to zero (i) if the Designated System is removed from this Agreement and Seller has paid Buyer for outstanding amounts, if any, including amounts that may be associated with the removal of such Designated System; or (ii) upon the conclusion of the annual review process pursuant to Section 4.2(c) following the final Delivery Year that falls (fully or partially) within the Designated System's Delivery Term if the Designated System is a Distributed Renewable Energy Generation Device; or (iii) upon the conclusion of the annual review process pursuant to Section 4.2(c) following the tenth (10th) Delivery Year that falls (fully or partially) within the Designated System's Delivery Term if the Designated System is a Community Renewable Energy Generation Project.

1.21 "Community Renewable Energy Generation Project" means a generating unit that (a) is powered by photovoltaic cells and panels; (b) is interconnected at the distribution system level in Illinois of Ameren Illinois Company, Commonwealth Edison Company, MidAmerican Energy Company, Mt. Carmel Public Utility Co., or a "public utility" as defined in Section 3-105 of the Illinois Public Utilities Act, or a "municipal utility" as defined in Section 1-10 of the IPA Act, or a "rural electric cooperative" as defined in Section 3-119 of the Illinois Public Utilities Act; (c) credits the value of electricity generated by the facility to the Subscribers of the facility; and (d) is limited in Actual Nameplate Capacity to no more than ten thousand (10,000) kW.

1.22 "Community Solar Anchor Payment" means, solely for purposes of determining the calculations under Section 4.2(d), with respect to a Delivery Year, the indicative payment associated with RECs for the portion of the Designated System Subscribed by the Anchor Tenant and shall be equal to the multiplicative product of (a) the Anchor Tenant Contract Price, (b) the lesser of (i) the multiplicative product of the Proposed Nameplate Capacity and the Proposed Capacity Factor and (ii) the multiplicative product of the Actual Nameplate Capacity and the Actual Capacity Factor, (c) 8,760 hours, (d) the result obtained by dividing the number of days in the Delivery Year contained in the Delivery Term by the number of days in such Delivery Year and (e) the percent of the Actual Nameplate Capacity that is being Subscribed by the Anchor Tenant as provided in the Community Solar First Year Report submitted pursuant to Section 6.2.

1.23 "Community Solar First Year Report" means a report that Seller must submit to Buyer and the IPA pursuant to Section 6.2, which shall be submitted on or after the first (1st) day of the month, but no later than the tenth (10th) day of the month immediately succeeding the fourth full Quarterly Period after Energization, indicating the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and End Use Customers. For avoidance of doubt, the Quarterly Periods shall correspond to the Quarterly Periods applicable to the Quarterly Payment Cycle associated with the Designated System for which the Community Solar First Year Report is provided.

1.24 "Community Solar Non-Anchor Payment" means, solely for purposes of determining the calculations under Section 4.2(d), with respect to a Delivery Year, the indicative payment associated with RECs for the portion of the Designated System Subscribed by End Use Customers and shall be equal to the multiplicative product of (a) the Non-Anchor Tenant Contract Price, (b) the lesser of (i) the multiplicative product of the Proposed Nameplate Capacity and the Proposed Capacity Factor and (ii) the multiplicative product of the Actual Nameplate Capacity and the Actual Capacity Factor, (c) 8,760 hours, (d) the result obtained by dividing the number of days in the Delivery Year contained in the Delivery Term by the number of days in such Delivery Year and (e) the percent of the Actual Nameplate Capacity that is being Subscribed by End Use Customers as provided in the Community Solar First Year Report submitted pursuant to Section 6.2.

1.25 “Contract Capacity Factor” means, with respect to a Designated System, the capacity factor indicated by the IPA as such in Schedule B to the Product Order that is applicable to such Designated System. The Contract Capacity Factor shall be the Proposed Capacity Factor if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is less than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. The Contract Capacity Factor shall be the Actual Capacity Factor if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is equal to or greater than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. Notwithstanding the foregoing, the Contract Capacity Factor may be amended pursuant to Section 4.2(f).

1.26 “Contract Nameplate Capacity” means, with respect to a Designated System that has been Energized, the Nameplate Capacity as indicated by the IPA as such in Schedule B to the Product Order that is applicable to such Designated System, and as may be amended pursuant to Section 4.2(f). With respect to a Distributed Renewable Energy Generation Device, unless provided elsewhere in the Agreement, the Contract Nameplate Capacity shall be the Proposed Nameplate Capacity if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is less than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. The Contract Nameplate Capacity shall be the Actual Nameplate Capacity if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is equal to or greater than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. With respect to a Community Renewable Energy Generation Project, the Contract Nameplate Capacity at the time of Energization shall be the multiplicative product of (a) the Proposed Nameplate Capacity and (b) the percent of the Actual Nameplate Capacity that is being Subscribed by the Anchor Tenant and End Use Customers at the time of Energization, if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is less than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. With respect to a Community Renewable Energy Generation Project, the Contract Nameplate Capacity at the time of Energization shall be the multiplicative product of (a) the Actual Nameplate Capacity and (b) the percent of the Actual Nameplate Capacity that is being Subscribed by the Anchor Tenant and End Use Customers at the time of Energization, if the result obtained by multiplying the Proposed Nameplate Capacity by Proposed Capacity Factor is equal to or greater than the result obtained by multiplying the Actual Nameplate Capacity by the Actual Capacity Factor. Subsequent to Energization, unless provided elsewhere in the Agreement, with respect to a Community Renewable Energy Generation Project, the Contract Nameplate Capacity shall be subject to one (1) additional adjustment corresponding to changes in the percent of the Actual Nameplate Capacity that is being Subscribed by the Anchor Tenant and End Use Customers based on information contained in the Community Solar First Year Report submitted pursuant to Section 6.2 and the updated Contract Nameplate Capacity shall be indicated in a revised Schedule B to the Product Order applicable to such Designated System pursuant to Section 2.6(g). For purposes of accounting for Subscription at Energization or for the period covered in a Community Solar First Year Report, if the percent of the Actual Nameplate Capacity that is being Subscribed is at or above ninety percent (90%), then the percent of the Actual Nameplate Capacity that is being Subscribed shall be deemed to be one hundred percent (100%).

1.27 “Contract Price” means, with respect to a Designated System, the REC price specified in the Schedule B to the Product Order applicable to such Designated System that will be used for purposes of payment for RECs from such Designated System. Unless specified otherwise, the Contract Price, with respect to a Distributed Renewable Energy Generation Device, shall be the Proposed Price as may be adjusted pursuant to Section 2.5(a), and shall be inclusive of the Stranded Customer REC Adder, if applicable, as indicated in Schedule B to the Product Order. If the Designated System is a Distributed Renewable Energy Generation Device for which Energy Sovereignty and/or Home Repairs Pilot is applicable as indicated in Schedule A (and Schedule B) to the Product Order, the Contract Price shall be the weighted price obtained by dividing (1) the sum of (a) the multiplicative product of (j) the Proposed Price as may be adjusted pursuant to Section 2.5(a) and (k) the Designated System Contract Maximum REC Quantity, (b) the Energy Sovereignty Payment (if applicable) and (c) Home Repairs Pilot REC Payment (if applicable); by (2) the Designated System Contract Maximum REC Quantity, which result shall be rounded

to the nearest penny. For avoidance of doubt, any payment adjustment pursuant to Section 5.7(c) shall not affect the calculation of the Contract Price in this Section 1.27 and shall not change the Contract Price. Unless specified otherwise, the Contract Price, with respect to a Community Renewable Energy Generation Project, shall be a weighted price obtained by dividing (1) the sum of (a) the multiplicative product of (j) the Anchor Tenant Contract Price and (k) the share of the Actual Nameplate Capacity Subscribed by the Anchor Tenant and (b) the multiplicative product of (x) the Non-Anchor Tenant Contract Price and (y) the share of the Actual Nameplate Capacity Subscribed by End Use Customers by (2) the combined share of the Actual Nameplate Capacity Subscribed by the Anchor Tenant and End Use Customers, which shall be subject to any adjustments pursuant to Sections 2.6(a), 2.6(b), and 2.6(c).

1.28 “Date of Final Interconnection Approval” means, with respect to a Designated System, the date recorded in Schedule B to the Product Order that is applicable to such Designated System as determined by the IPA as the date such Designated System received its approval to interconnect by the applicable electric utility approving the interconnection request.

1.29 “Defaulting Party” is defined in Section 9.1 and Section 9.2.

1.30 “Default Rate” means a rate per annum equal to four percentage points (4%) over the per annum prime lending rate as may from time to time be published in The Wall Street Journal under “Money Rates.”

1.31 “Deliver” or “Delivered” or “Delivery” means the transfer from Seller to Buyer of the Product by Seller to Buyer’s PJM-EIS GATS or M-RETS account through the established Standing Order.

1.32 “Delivery Date” means, with respect to a Designated System, the scheduled date for the transfer of RECs each month pursuant to a Standing Order commencing from the day the Standing Order is established through the end of the Delivery Term.

1.33 “Delivery Term” of a Designated System means the period (a) starting on first day of the month following the date the first REC from such Designated System is Delivered to Buyer, and (b) ending on the last day of the one hundred eightieth (180th) month after the start of the Delivery Term where the first (1st) month is the month following the date the first REC from such Designated System is Delivered to Buyer; provided that such one hundred eighty (180) month period shall be automatically extended day for day for each day of any Suspension Period up to a maximum extension of seven hundred thirty (730) days.

1.34 “Delivery Year” means the twelve (12) calendar months beginning with June of one calendar year through and including May of the following calendar year.

1.35 “Delivery Year Expected REC Quantity” means, with respect to a Designated System and a Delivery Year, the expected number of RECs from such Designated System to be Delivered from Seller to Buyer in such Delivery Year as more fully described in Section 4.2(b), as may be adjusted pursuant to Section 2.6(a) or Section 2.6(c), and as may be amended pursuant to Section 4.2(f), and to be documented in the annual delivery schedule shown in Schedule B to the Product Order for such Designated System.

1.36 “Delivery Year REC Performance” means, with respect to a Designated System and a Delivery Year, the number of RECs that is associated with a historical 3-year rolling average of REC Deliveries from such Designated System that has occurred and that will be used to compare against the Delivery Year Expected REC Quantity for such Delivery Year. The Delivery Year REC Performance is calculated as a 3-year rolling average based on actual REC Deliveries that occurred in the preceding three (3) Delivery Years (subject to any adjustments of deemed REC Deliveries pursuant to Section 4.2(c)(v)(B)). For avoidance of doubt, the Delivery Year REC Performance will only be calculated after the occurrence of three (3) full Delivery Years after the start of the Delivery Term of such Designated System. Further, if the last Delivery Year contained in the Delivery Term is less than twelve (12) full months, then for purposes of calculating the Delivery Year REC Performance, only RECs Delivered during the last thirty-six (36)

months of the Delivery Term shall be used for calculating the 3-year rolling average for that last Delivery Year. For example, if the Delivery Term with respect to a Designated System terminates on February 28, 2035, then the Deliveries occurring from March 1, 2032 through February 28, 2035 will be used for purposes of calculating the 3-year rolling average for the 2034-2035 Delivery Year. Further, if such Designated System is a Community Renewable Energy Generation Project, then the initial Delivery Year REC Performance calculated after the occurrence of three (3) full Delivery Years after the start of the Delivery Term of such Designated System shall be equal to the greater of: (a) the 3-year rolling average based on actual REC Deliveries that occurred in the preceding three (3) Delivery Years and (b) the 2-year rolling average based on actual REC Deliveries that occurred in the preceding two (2) Delivery Years.

1.37 “Delivery Year Shortfall Amount” means, with respect to a Designated System and a Delivery Year, the positive difference between the Delivery Year Expected REC Quantity and the Delivery Year REC Performance applicable to such Designated System in such Delivery Year.

1.38 “Delivery Year Surplus Amount” means, with respect to a Designated System and a Delivery Year, the positive difference between the Delivery Year REC Performance and the Delivery Year Expected REC Quantity applicable to such Designated System in such Delivery Year.

1.39 “Designated System” means an electric generation unit that produces electric energy using a Renewable Energy Source that is selected by the IPA through the SFA and approved by the ICC for inclusion in this Agreement as of the Trade Date of a Product Order. All Designated Systems under this Agreement shall either be a Distributed Renewable Energy Generation Device or a Community Renewable Energy Generation Project.

1.40 “Designated System Contract Maximum REC Quantity” means, with respect to a Designated System that is a Distributed Renewable Energy Generation Device, the number of RECs for which payment shall be based as of the date of Energization, which unless amended or adjusted subsequently thereto pursuant to Section 4.2(f), shall be equal to the multiplicative product of (a) Contract Nameplate Capacity (in MW), (b) Contract Capacity Factor, (c) 8,760 hours and (d) 15 years, which result shall be rounded down to the nearest whole REC. Unless provided elsewhere, with respect to a Designated System that is a Community Renewable Energy Generation Project, the Designated System Contract Maximum REC Quantity shall be (unless amended or adjusted pursuant to Section 4.2(f)): with respect to the period from Energization through the period covered in the Community Solar First Year Report, equal to the multiplicative product of (a) Contract Nameplate Capacity (in MW), (b) Contract Capacity Factor, (c) 8,760 hours and (d) 15 years, which result shall be rounded down to the nearest whole REC; and with respect to the period subsequent to the period covered in the Community Solar First Year Report, equal to the sum of (a) the multiplicative product of (i) Contract Nameplate Capacity (in MW) at Energization, (ii) Contract Capacity Factor, (iii) 8,760 hours, (iv) 1 year (or 13/12 as applicable), which result shall be rounded down to the nearest whole REC and (b) the multiplicative product of (i) Contract Nameplate Capacity (in MW) calculated based on information in the Community Solar First Year Report, (ii) Contract Capacity Factor, (iii) 8,760 hours, (iv) 14 years (or 167/12 as applicable), which result shall be rounded down to the nearest whole REC.³ Notwithstanding the calculation set forth in the preceding sentence for the period subsequent to the period covered in the Community Solar First Year Report, if there is no change between the values observed at Energization and the values calculated based on information in the Community Solar First Year Report for the Contract Nameplate Capacity and Contract Capacity Factor, then there shall be no update to the Designated System Contract Maximum REC Quantity.

1.41 “Designated System Expected Maximum REC Quantity” means, with respect to a Designated System, the number of RECs expected to be Delivered under this Agreement as of the Trade

³ For avoidance of doubt, the IPA endeavors to designate for the Designated System a Quarterly Payment Cycle that includes a Quarterly Period that concludes on the month of Energization; however, in the event that the IPA designates a Quarterly Payment Cycle that includes a Quarterly Period that concludes on the month following Energization, then the values for (a)(iv) and (b)(iv) shall be 13/12 and 167/12, respectively.

Date and shall be equal to the multiplicative product of (a) Proposed Nameplate Capacity (in MW), (b) Proposed Capacity Factor, (c) 8,760 hours and (d) 15 years, which result shall be rounded down to the nearest whole REC.

1.42 “Designated System Paid REC Quantity” means, with respect to a Designated System, a number of RECs equal to the result obtained by dividing the total payments, including any Advance of Capital, made by Buyer to Seller for RECs from such Designated System by the Contract Price, rounded down to the nearest whole REC.

1.43 “Dispute Notice” is defined in Section 15.2.

1.44 “Distributed Renewable Energy Generation Device” means a generating unit that (a) is powered by photovoltaic cells and panels; (b) is interconnected at the distribution system level in Illinois of Ameren Illinois Company, Commonwealth Edison Company, MidAmerican Energy Company, Mt. Carmel Public Utility Co., or a “municipal utility” as defined in Section 1-10 of the IPA Act, or a “rural electric cooperative” as defined in Section 3-119 of the Illinois Public Utilities Act; (c) is located on the customer side of the customer's electric meter and is primarily used to offset that customer's electricity load; and (d) is limited in Nameplate Capacity to no more than five thousand (5,000) kW.

1.45 “Drawdown Payment” means, for a Delivery Year, (a) with respect to a Designated System (either a Distributed Renewable Energy Generation Device or a Community Renewable Energy Generation Project) that has a Drawdown REC Quantity, the portion of the Aggregate Drawdown Payment attributed to such Designated System based on calculations described in Sections 4.2(c)(i) - 4.2(c)(iv), or (b) with respect to a Designated System that is a Community Renewable Energy Generation Project, the portion of the Aggregate Drawdown Payment attributed to such Designated System based on calculations described in Section 4.2(d).

1.46 “Drawdown REC Quantity” means, with respect to a Designated System that has a Delivery Year Shortfall Amount, the positive difference (if any) between the Delivery Year Shortfall Amount and the sum of Surplus RECs applied to meet such Delivery Year Shortfall Amount.

1.47 “Early Termination Date” is defined in Section 9.3.

1.48 “Effective Date” means the date this Agreement became effective as written above.

1.49 “End Use Customer” means, (i) with respect to a Designated System that is a Distributed Renewable Energy Generation Device, an eligible customer⁴ under the SFA for which the Designated System's output is primarily used to offset that customer's electricity load; and (ii) with respect to a Designated System that is a Community Renewable Energy Generation Project, an eligible low-income residential customer under the SFA with a Subscription to a Community Renewable Energy Generation Project. The specific utility customer classes under this definition shall be as determined by the IPA.

1.50 “Energization” or “Energize” or “Energized” means, with respect to a Designated System, the approval by the IPA that a Designated System has met all requirements for energization under the SFA, including the establishment of a Standing Order. If the Designated System is a Community Renewable Energy Generation Project, Energization shall also include the occurrence of at least fifty percent (50%) of

⁴ Under the Low-Income Single Family and Small Multifamily Solar and the Low-Income Large Multifamily Solar sub-programs, the End Use Customer shall be an eligible low-income residential customer as defined under the SFA. Under the Incentives for Non-Profits and Public Facilities sub-program, the End Use Customer shall be a non-profit or public-sector facility that is a critical service provider for the community and for which the Designated System's output is primarily used to offset the electricity load of the building that such End Use Customer occupies. Examples of a critical service provider may include, but are not limited to, youth centers, hospitals, homeless shelters, senior centers, community centers, places of worship.

the Non-Anchor Nameplate Capacity of the Designated System being Subscribed by End Use Customers (through a “subscription” as defined in Section 1-10 of the IPA Act).

1.51 “Energy Sovereignty” means, with respect to a Designated System, the majority or full ownership of such Designated System by low-income households, not-for-profit organizations providing services to low-income households, affordable housing owners, community cooperatives, or community-based limited liability companies providing services to low-income households as encouraged by Section 1-56(b)(2)(A)-(E) of the IPA Act and consistent with the definition provided in the IPA’s Long-Term Renewable Resources Procurement Plan as approved by the ICC in Docket No. 25-0945. The applicability of Energy Sovereignty to a Designated System is as indicated in Schedule A (and Schedule B, if applicable) to the Product Order for such Designated System.

1.52 “Energy Sovereignty Calculation Period” means, with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B) to the Product Order, the period (i) starting on the date of Energization, and (ii) ending on the day that is five thousand four hundred seventy-eight (5,478) days after the date of Energization.⁵

1.53 “Energy Sovereignty Payment” means, with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B) to the Product Order, an amount equal to the multiplicative product of (a) the ES Price Adder (b) the Designated System Contract Maximum REC Quantity and (c) the result obtained by dividing (x) the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date by (y) the number of days in the Energy Sovereignty Calculation Period. For avoidance of doubt, Energy Sovereignty Payment does not apply with respect to a Designated System that is a Community Renewable Energy Generation Project.

1.54 “Energy Sovereignty Price Adder” or “ES Price Adder” means, with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable) to the Product Order for such Designated System, a pricing component added to the Contract Price consistent with Section 1.27 and Section 5.7(a). For avoidance of doubt, there are no ES Price Adders applicable to a Designated System that is a Community Renewable Energy Generation Project.

1.55 “Energy Sovereignty Proposed Transfer Date” means, with respect to a Designated System for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B) to the Product Order, the date recorded in Schedule A (and Schedule B, if applicable) to the Product Order that is applicable to such Designated System as proposed by Seller in its SFA Part I Application as the date a transfer of ownership of the Designated System to eligible customers⁶ will occur that would allow such Designated System to achieve Energy Sovereignty.

1.56 “Environmental Attributes” excludes electric energy and capacity produced, but means any other emissions, air quality, or other environmental attribute, aspect, characteristic, claim, credit, benefit, reduction, offset or allowance, howsoever entitled or designated, resulting from, attributable to or associated with the generation of a renewable energy resource or low-carbon resource now or in the future eligible for procurement under Illinois law (see 20 ILCS 3855/1-56, 20 ILCS 3855/1-75, et seq.), whether existing as of the Effective Date or in the future, and whether as a result of any present or future local, state or federal laws or regulations or local, state, national or international voluntary program, as well as any and all generation attributes under any and all international, federal, regional, state or other law, rule, regulation,

⁵ For example, if the date of Energization is February 15, 2024, the end date of the Energy Sovereignty Calculation Period will be February 14, 2039 for purposes of calculating the Energy Sovereignty Payment.

⁶ Eligible customers are described in the IPA’s Long-Term Renewable Resources Procurement Plan as approved by the ICC in Docket No. 25-0945.

bylaw, treaty or other intergovernmental compact, decision, administrative decision, program (including any voluntary compliance or membership program), competitive market or business method (including all credits, certificates, benefits, and emission measurements, reductions, offsets and allowances related thereto) that are attributable, now or in the future; and further, means: (a) any such credits, certificates, benefits, offsets and allowances computed on the basis of the Designated System's generation using renewable technology or displacement of fossil-fuel derived or other conventional energy generation; (b) any certificates or credits issued pursuant to the PJM-EIS GATS or M-RETS in connection with energy generated by the Designated System; and (c) any voluntary emission reduction credits obtained or obtainable by Seller in connection with the generation of energy by the Designated System; provided, however, that Environmental Attributes shall not include: (i) any production tax credits; (ii) any investment tax credits or other tax credits associated with the construction or ownership of the Designated System; or (iii) any state, federal or private grants relating to the construction or ownership of the Designated System or the output thereof.

1.57 "Event of Default" is defined in Section 9.1 and Section 9.2.

1.58 "External Event" is defined in Section 10.1.

1.59 "Force Majeure" is defined in Section 10.1.

1.60 "General Contractor" means the entity or organization with main responsibility for the building of a construction project and who is the party signing the prime construction contract for the applicable Designated System.

1.61 "Government Action" means action by a Governmental Authority to change the eligibility of a Product for an Applicable Program or substantially change the requirements for compliance by persons obligated to comply with the Applicable Program which in either case has a material adverse effect on the value of a Product under this Agreement.

1.62 "Governmental Authority" means any international, national, federal, provincial, state, municipal, county, regional or local government, administrative, judicial or regulatory entity operating under any applicable laws and includes any department, commission, bureau, board, administrative agency or regulatory body of any government.

1.63 "Home Repairs Pilot" means a program to offer incentives that help address home repair costs to improve participation in the Low-Income Single-Family and Small Multifamily Solar Subprogram as described in the IPA's 2026 Long-Term Renewable Resources Procurement Plan as approved by the ICC in Docket No. 25-0945. The applicability of Home Repairs Pilot to a Designated System is as indicated in Schedule A (and Schedule B, if applicable) to the Product Order for such Designated System. For avoidance of doubt, the Home Repairs Pilot is not applicable to Designated Systems that are Community Renewable Energy Generation Projects.

1.64 "Home Repairs Pilot Adder" means with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Home Repairs Pilot is applicable as indicated in Schedule A (and Schedule B, if applicable) to the Product Order for such Designated System, a pricing component as indicated in Schedule B to the Product Order.

1.65 "Home Repairs Pilot Proposed Adder" means with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Home Repairs Pilot is applicable as indicated in Schedule A to the Product Order for such Designated System, a pricing component as indicated in Schedule A to the Product Order.

1.66 "Home Repairs Pilot REC Payment" means, with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Home Repairs Pilot is applicable as indicated

in Schedule A (and Schedule B) to the Product Order, an amount equal to the multiplicative product of (a) the Home Repairs Pilot Adder indicated in Schedule B to the Product Order and (b) the Designated System Contract Maximum REC Quantity.

1.67 “ICC” means the Illinois Commerce Commission.

1.68 “Invoice Due Date” means, with respect to a Quarterly Payment Cycle, the tenth (10th) day of the month immediately succeeding the conclusion of a Quarterly Period contained within such Quarterly Payment Cycle, consistent with Section 3.4.

1.69 “IPA” means the Illinois Power Agency. For purposes of any contract administration responsibilities assigned to the IPA under this Agreement, “IPA” also includes its designee(s), including the ABP Program Administrator and the SFA Program Administrator.

1.70 “IPA Act” means the Illinois Power Agency Act, 20 ILCS 3855.

1.71 “kW” means kilowatts AC unless noted otherwise.

1.72 “Letter of Credit” means an irrevocable, transferable standby letter of credit issued by a major U.S. commercial bank or the U.S. branch office or U.S. agency office of a foreign bank utilizing either of the forms attached as Exhibit E to the Agreement or utilizing such forms with minor modifications that are acceptable to Buyer in its sole discretion.

1.73 “Master-Meter Income-Eligible Residential Building Anchor Tenant” means, with respect to a Community Renewable Energy Generation Project, a master-metered income-eligible multifamily residential building serving as the Anchor Tenant. For avoidance of doubt, such Subscriber cannot be an End Use Customer.

1.74 “Maximum Allowable Payment” means the monetary payment amount calculated at a point in time and indicated in a Quarterly Netting Statement for a Quarterly Payment Cycle that cumulatively cannot be exceeded when Buyer is making payment to Seller for invoices under such Quarterly Payment Cycle. The Maximum Allowable Payment with respect to a Quarterly Payment Cycle will be the sum of payments that can be made at a point in time across payments associated with RECs from all Designated Systems under such Quarterly Payment Cycle that have been Energized and will reflect a one-time full payment of one hundred percent (100%) of the REC Purchase Payment Amount associated with a Designated System, which payment calculation shall also be subject to adjustments in accordance with the terms of this Agreement, including (without limitation) Section 2.6. Notwithstanding the foregoing, if a Designated System has been approved for an Advance of Capital, such Advance of Capital amount shall be included in the Maximum Allowable Payment associated with the applicable Quarterly Payment Cycle upon Energization of the Designated System in accordance with Section 5.6.

1.75 “M-RETS” means the Midwest Renewable Energy Tracking System d/b/a CleanCounts or successor.

1.76 “Nameplate Capacity” means the aggregate maximum continuous inverter nameplate capacity in kilowatts AC.

1.77 “Non-Anchor Nameplate Capacity” means, with respect to a Community Renewable Energy Generation Project, the portion of the Actual Nameplate Capacity in kilowatts AC that is not Subscribed by the Anchor Tenant, and which may change from time to time corresponding with changes in the percent of Actual Nameplate Capacity Subscribed by the Anchor Tenant. At least fifty percent (50%) of the Non-Anchor Nameplate Capacity of the Designated System must be Subscribed by End Use Customers on the date of Energization for the Designated System to be considered Energized consistent with Section 1.50; which requirement must be maintained for the period covered by the Community Solar

First Year Report for the Designated System to remain under this Agreement consistent with Section 2.6(c); and which requirement must be maintained following the period covered by the Community Solar First Year Report during the Delivery Term, for which failure to maintain is subject to a drawdown payment consistent with Section 4.2(d).

1.78 “Non-Anchor Tenant Contract Price” means, with respect to a Community Renewable Energy Generation Project, the REC price applicable to RECs associated with the shares Subscribed by End Use Customers. Unless otherwise specified, the Non-Anchor Tenant Contract Price shall be the Non-Anchor Tenant Proposed Price, as may be adjusted pursuant to Section 2.5(a)(ii)(B). For avoidance of doubt, the Contract Price is dependent on the Non-Anchor Tenant Contract Price, and the Non-Anchor Tenant Contract Price affects the calculation of the Contract Price as defined in Section 1.27 above.

1.79 “Non-Anchor Tenant Proposed Price” means, with respect to a Community Renewable Energy Generation Project, the REC price applicable to RECs associated with the shares Subscribed by End Use Customers as established under the SFA and indicated in Schedule A to the Product Order applicable to the Proposed Nameplate Capacity of such Community Renewable Energy Generation Project at the time of the Trade Date of such Product Order. For avoidance of doubt, the Non-Anchor Tenant Proposed Price is independent of and does not affect the calculation of the Proposed Price as defined in Section 1.95 below.

1.80 “Non-Defaulting Party” is defined in Section 9.3.

1.81 “Performance Assurance” means collateral in the form of cash or letters of credit, or other security acceptable to the requesting Party.

1.82 “Performance Assurance Amount” means the actual monetary amount posted by Seller as Seller’s Performance Assurance and held by Buyer, which is required to be at least equal to the Performance Assurance Requirement and which may only be reduced pursuant to Section 7.1(f).

1.83 “Performance Assurance Requirement” means the monetary amount to be posted by Seller as Seller’s Performance Assurance equal to the sum of the Collateral Requirement across all Designated Systems included in this Agreement.

1.84 “PJM-EIS GATS” means the PJM Environmental Information Services, Inc. Generation Attribute Tracking System or successor.

1.85 “Potential Event of Default” means an event which, with notice or passage of time or both, would constitute an Event of Default.

1.86 “Potentially Defaulting Party” means a Party that, but for a cure of a Potential Event of Default or failure of performance, would be a Defaulting Party.

1.87 “Potentially Non-Defaulting Party” means a Party that, but for a cure of a Potential Event of Default or failure of performance by the Potentially Defaulting Party, would be a Non-Defaulting Party.

1.88 “Prevailing Wage Act” means the Illinois Prevailing Wage Act, 820 ILCS 130.

1.89 “Product” means the RECs to be Delivered in a particular Transaction, which shall include all Environmental Attributes.

1.90 “Product Order” is the form used by the Parties to effect a Transaction substantially in the form of Exhibit A specifying the terms of such Transaction.

1.91 “Project Labor Agreement” means a pre-hire collective bargaining agreement that covers all terms and conditions of employment on a specific construction project and must include the following:

(a) provisions establishing the minimum hourly wage for each class of labor organization employee; (b) provisions establishing the benefits and other compensation for each class of labor organization employee; (c) provisions establishing that no strike or disputes will be engaged in by the labor organization employees; (d) provisions establishing that no lockout or disputes will be engaged in by the General Contractor building the Project; (e) provisions for minorities and women, as defined under the Business Enterprise for Minorities, Women, and Persons with Disabilities Act, setting forth goals for apprenticeship hours to be performed by minorities and women and setting forth goals for total hours to be performed by underrepresented minorities and women; and (f) the efforts that Seller will take or has taken to achieve such goals, including recruitment of minorities and women into apprenticeship roles. A labor organization and the General Contractor building the Designated System shall have the authority to include other terms and conditions as they deem necessary.

1.92 “Project Labor Agreements Act” means the Illinois Project Labor Agreements Act, 30 ILCS 571.

1.93 “Proposed Capacity Factor” means, with respect to a Designated System, the capacity factor proposed for such Designated System by Seller in its SFA Part I Application and as indicated in Schedule A to the Product Order.

1.94 “Proposed Nameplate Capacity” means, with respect to a Designated System, the Nameplate Capacity proposed for such Designated System by Seller in its SFA Part I Application and as indicated in Schedule A to the Product Order.

1.95 “Proposed Price” means, with respect to a Designated System, the REC price applicable to the Designated System as established under the SFA and indicated in Schedule A to the Product Order applicable to such Designated System at the time of the Trade Date of such Product Order, and shall be inclusive of the Stranded Customer REC Adder, if applicable, as indicated in Schedule A to the Product Order. For avoidance of doubt, with respect to a Community Renewable Energy Generation Project, the Proposed Price is unrelated to (and unaffected by the values of) the Anchor Tenant Proposed Price and the Non-Anchor Tenant Proposed Price. With respect to a Community Renewable Energy Generation Project, the Proposed Price shall be the SFA price regardless of whether an Anchor Tenant is proposed or not. For avoidance of doubt, with respect to a Distributed Renewable Energy Generation Device, the Proposed Price shall not include any ES Price Adder or any Home Repairs Pilot Proposed Adder.

1.96 “Public Utilities Act” means the Illinois Public Utilities Act, 220 ILCS 5.

1.97 “Purchase Price” means the price to be paid for a particular Delivery of Product in a Transaction.

1.98 “Quarterly Netting Statement” means a statement, with respect to a Quarterly Payment Cycle, prepared by the IPA that includes the Maximum Allowable Payment that can be made as of the issuance date of the Quarterly Netting Statement by Buyer to Seller under this Agreement associated with such Quarterly Payment Cycle.

1.99 “Quarterly Payment Cycle” means, with respect to a Designated System, either Payment Cycle A, Payment Cycle B or Payment Cycle C as specified by the IPA for such Designated System pursuant to Section 3.4.

1.100 “Quarterly Period” means, with respect to a Quarterly Payment Cycle, the following quarterly periods: (a) with respect to Payment Cycle A, the quarterly periods of January through March, April through June, July through September and October through December; (b) with respect to Payment Cycle B, the quarterly periods of February through April, May through July, August through October and November through January; and (c) with respect to Payment Cycle C, the quarterly periods of March through May, June through August, September through November and December through February.

1.101 “REC Annual Report” means a report substantially in the form provided in Exhibit C-3 that is submitted by Seller to Buyer and the IPA on an annual basis by August 1 following the end of a Delivery Year, which contains information related to the developmental progress and/or REC Deliveries of Designated Systems included in this Agreement.

1.102 “REC Purchase Payment Amount” means, with respect to a Designated System that has been Energized, the total monetary amount for payment of RECs from such Designated System as confirmed by the IPA and as indicated in Schedule B to the Product Order that is applicable to such Designated System. The REC Purchase Payment Amount at the time of Energization shall, with respect to a Designated System, equal the multiplicative product of the Contract Price and the Designated System Contract Maximum REC Quantity, as these amounts may be amended or adjusted in accordance with the terms of this Agreement, including (without limitation) Section 2.6 or Section 4.2(f). With respect to a Community Renewable Energy Generation Project, for the period following the Community Solar First Year Report, the REC Purchase Payment Amount shall be updated pursuant to Section 2.6(g) with the calculations made consistent with Section 2.6(a), Section 2.6(c) and Exhibit F-3. For purposes of Section 2.6(g), the REC Purchase Payment Amount shall equal **(a) x (b) + (c) x (d) where (a) equals** the multiplicative product of (i) Contract Nameplate Capacity (in MW) at Energization, (ii) Contract Capacity Factor, (iii) 8,760 hours, (iv) 1 year (or 13/12 as applicable), which result shall be rounded down to the nearest whole REC; **where (b) equals** the Contract Price at Energization; **where (c) equals** the multiplicative product of (i) Contract Nameplate Capacity (in MW) calculated based on information in the Community Solar First Year Report, (ii) Contract Capacity Factor, (iii) 8,760 hours, (iv) 14 years (or 167/12 as applicable), which result shall be rounded down to the nearest whole REC; **and where (d) equals** the Contract Price calculated using information in the Community Solar First Year Report and consistent with Section 2.6(a) or Section 2.6(c). Notwithstanding the calculation set forth in the preceding sentence for the period following the Community Solar First Year Report, if there is no change between the values observed at Energization and the values calculated based on information in the Community Solar First Year Report for the Contract Nameplate Capacity, Contract Capacity Factor and Contract Price, then there shall be no update to the REC Purchase Payment Amount.

1.103 “Regulatorily Continuing” means, with respect to a Transaction, the Product shall comply with the requirements of the Applicable Program, as of each Delivery Date, and Seller will do what is necessary to cause the Product that is Delivered to comply with such requirements; except as otherwise provided in Section 11.1.

1.104 “Renewable Energy Credit” or “REC” means a tradable credit that represents all Environmental Attributes of one (1) megawatt hour of energy produced from a Renewable Energy Source.

1.105 “Renewable Energy Source” means an energy source generated from solar photovoltaic cells and panels.

1.106 “Renewable Portfolio Standard” or “RPS” means the Illinois RPS as established under 20 Ill. Comp. Stat. 3855/1-75.

1.107 “Scheduled Energized Date” means, with respect to a Designated System, such date as indicated in Schedule A to the Product Order that is applicable to such Designated System; which shall be, unless extended pursuant to Section 2.4(b), the date that is eighteen (18) months from the Trade Date of such Product Order if the Designated System is a Distributed Renewable Energy Generation Device or thirty-six (36) months from the Trade Date of such Product Order if the Designated System is a Community Renewable Energy Generation Project.

1.108 “Seller” means for any particular Transaction, the seller of the Product.

1.109 “Settlement Amount” means an amount that the Non-Defaulting Party is entitled to and that is to be paid by the Defaulting Party calculated pursuant to Section 9.4.

1.110 “SFA” means the Illinois Solar for All Program established under 20 Ill. Comp. Stat. 3855/1-56(b).

1.111 “SFA Part I Application” means, with respect to a Designated System, the initial application under the SFA, which contains proposed information related to such Designated System.

1.112 “SFA Part II Application” means, with respect to a Designated System, the second part of the application under the SFA for Energization approval, which contains information demonstrating the completion of such Designated System and, for a Community Renewable Energy Generation Project, information on its Subscriptions.

1.113 “Small and Emerging Business” or “SEB” means, with respect to an Approved Vendor, a small and emerging business as defined under the IPA’s Long-Term Renewable Resources Procurement Plan. The applicability of such term shall be indicated in Schedule A (and Schedule B, if applicable) to the Product Order, if applicable.

1.114 “Small Subscriber” means an eligible low-income residential customer with a Subscription to a Community Renewable Energy Generation Project where such Subscription is below 25 kW. The specific utility customer classes under this definition shall be as determined by the IPA.

1.115 “Standing Order” means, with respect to a Designated System, an agreement registered with PJM-EIS GATS or M-RETS for the automatic transfer of RECs issued for the Designated System to Buyer’s account on a recurring basis commencing no earlier than the month of the Trade Date and with no end date, and which shall be revoked by Buyer pursuant to Section 2.3(b)(ii).

1.116 “Stranded Customer REC Adder” means, with respect to a Designated System, a pricing component included in the Proposed Price or Contract Price, and as indicated in Schedule A or Schedule B to the Product Order, respectively, as applicable.

1.117 "Stranded Customer REC Adder True-Up Adjustment" is defined in Section 5.8.

1.118 “Sub-program” means, with respect to a Designated System, a sub-program as set forth in Section 1-56(b)(2) of the IPA Act that is associated with such Designated System, and as indicated in Schedule A (and Schedule B, if applicable) to the Product Order.

1.119 “Subscriber” means a retail customer who (i) takes delivery service from the interconnecting electric utility of a Designated System that is a Community Renewable Energy Generation Project, (ii) has a Subscription of no less than 200 watts to such Designated System and where such Subscription constitutes no more than 40% of the Designated System’s Actual Nameplate Capacity, and (iii) completes the disclosure form as provided by the IPA under the Applicable Program. Entities that are affiliated by virtue of a common parent shall not represent multiple Subscriptions that total more than 40% of the Actual Nameplate Capacity of the Designated System. For avoidance of doubt, a Subscriber must be a customer in the service territory of the interconnecting electric utility of such Designated System and must receive net metering, and, if the Designated System is located in the service territory of a municipal electric utility or a rural electric cooperative, such municipal electric utility or rural electric cooperative must offer net metering for Community Renewable Energy Generation Projects comparable to what is required for investor-owned utilities.

1.120 “Subscribed” or “Subscription” or “Subscriptions” means having an interest in the Designated System, expressed in kW, which is sized to primarily offset part or all of the Subscriber’s electricity usage.

1.121 “Surplus REC” means, with respect to a Designated System, a REC included in the Delivery Year REC Performance of such Designated System that (i) is in excess of the corresponding

Delivery Year Expected REC Quantity of such Designated System in a given Delivery Year and (ii) is virtually tracked and recorded in the Surplus REC Account. A Surplus REC may be used to meet a Delivery Year Shortfall Amount of such Designated System or another Designated System in such Delivery Year or future Delivery Year and when so used, shall cease to be a Surplus REC.

1.122 “Surplus REC Account” means, with respect to this Agreement, a virtual account tracked by the IPA, that contains Surplus RECs from Designated Systems included in this Agreement across all Transactions.

1.123 “Suspension Period” means the period of time during which the obligations of the Parties under this Agreement are (a) suspended, with respect to the Agreement, in accordance with Section 5.4 of this Agreement or (b) suspended, with respect to a Designated System or Designated Systems, in accordance with Section 10.1.

1.124 “Term” means, unless terminated earlier, the period from the Effective Date until December 31 following the conclusion of the last annual review process pursuant to Section 4.2(c).

1.125 “Termination Payment” is defined in Section 9.4.

1.126 “Trade Date” means, with respect to a Product Order, the date such Product Order has been approved by the Illinois Commerce Commission to be included in this Agreement.

1.127 “Transaction” means a transaction as memorialized in a Product Order under this Agreement.

1.128 “WHO” means the World Health Organization or successor.

1.129 “Year-1 Contract Capacity Factor” means, with respect to a Designated System, the capacity factor of such Designated System recorded in Schedule B to the Product Order, which the first Delivery Year Expected REC Quantity in the delivery schedule is based on. Unless otherwise stated, the Year-1 Contract Capacity Factor shall be equal to the result obtained by dividing the Contract Capacity Factor by 0.9657.

Rules of Interpretation. Unless otherwise required by the context in which any term appears, (a) the singular includes the plural and vice versa; (b) references to “Articles,” “Sections,” “Schedules,” “Annexes,” or “Exhibits” are to articles, sections, schedules, annexes, or exhibits hereof; (c) all references to a particular entity or market price index include a reference to such entity’s or index’s successors and (if applicable) permitted assigns; (d) the words “herein,” “hereof” and “hereunder” refer to this Agreement as a whole and not to any particular Article, Section or subsection hereof; (e) all accounting terms not specifically defined herein will be construed in accordance with generally accepted accounting principles in the United States of America, consistently applied; (f) references to this Agreement include a reference to all appendices, annexes, schedules and exhibits hereto, as the same may be amended, modified, supplemented or replaced from time to time; (g) the masculine includes the feminine and neuter and vice versa; (h) “including” is construed in its broadest sense to mean “including without limitation” or “including, but not limited to”; (i) references to agreements and other legal instruments include all subsequent amendments thereto, and changes to, and restatements or replacements of, such agreements or instruments that are duly entered into and effective against the parties thereto or their permitted successors and assigns; (j) a reference to a statute or to a regulation issued by a Governmental Authority includes the statute or regulation in force as of the Effective Date or Trade Date, as applicable, or Delivery Date with respect to a Product that is Regulatorily Continuing, together with all amendments and supplements thereto and any statute or regulation substituted for such statute or regulations; and (k) the word “or” is not necessarily exclusive.

ARTICLE 2: PRODUCT AND FACILITY REQUIREMENTS

2.1 Product.

(a) Renewable Energy Credits. The Product to be Delivered by Seller and received by Buyer under this Agreement is RECs generated from a Designated System, for which summary information is specified in a Product Order. Seller may not substitute RECs to be generated from a given Designated System with RECs from another generator or with RECs from another Designated System. For avoidance of doubt, Buyer is not purchasing Seller's Designated System and where this Agreement provides for the removal of a Designated System from this Agreement, it is understood that what is being removed from this Agreement is Seller's right to Deliver RECs and to receive payment for RECs associated with such Designated System.

(b) Environmental Attributes. Seller acknowledges and agrees that any Environmental Attribute associated with or related to the Product will not be sold or otherwise made available to a third party but will be sold to Buyer pursuant to this Agreement. For avoidance of doubt, the Product sold hereunder must meet the definition of "renewable energy credit" under the IPA Act.

2.2 Designated System Information.

RECs Delivered under this Agreement must be from one (1) or more Designated Systems and Seller represents, with respect to a Designated System, as of the date of each Delivery hereunder by such Designated System that is Delivering REC(s) that:

- (a) such Designated System is not and will not be a generating unit whose costs are being recovered through rates regulated by Illinois or any other state or states.
- (b) such Designated System is a new generating unit such that the Date of Final Interconnection Approval did not occur before June 1, 2017.
- (c) such Designated System meets the definition of the Class of Resource indicated in the applicable Product Order and meets the requirements specified in the IPA Act or rules promulgated by the ICC for the designated Class of Resource.
- (d) as required by Section 1-56(b-15) of the IPA Act, construction activities related to such Designated System shall be subject to the prevailing wage requirements included in the Prevailing Wage Act, unless such Designated System is exempted from such requirements as indicated in Schedule A (and Schedule B, if applicable) to the Product Order. These requirements apply to the wages of laborers, mechanics, and other workers employed in construction activities related to such Designated System. Applicable construction activities related to the Designated System include not only construction, but also any maintenance, repair, assembly, or disassembly work performed on equipment whether owned, leased, or rented. All construction work performed by Seller, including its contractors and subcontractors, relating to construction, maintenance, repair, assembly, or disassembly work in relation to the Designated System has been or will be performed by employees receiving an amount equal to or greater than the "general prevailing rate of hourly wages" in the applicable trade classification, as defined in the Prevailing Wage Act. Seller, including its contractors and subcontractors, has provided express notice of these requirements to all laborers, mechanics and other workers employed to perform such work.
- (e) with respect to such Designated System, if such Designated System is a Community Renewable Energy Generation Project, and where the aggregate Nameplate Capacity, including where such Designated System is colocated with one or more other Community Renewable Energy

Generation Project(s), exceeds 3,000 kW, such Designated System is built by General Contractors that have entered into a Project Labor Agreement prior to construction.

- (f) with respect to such Designated System, if such Designated System is a Distributed Renewable Energy Generation Device, the Actual Nameplate Capacity of such Designated System shall not exceed 5,000 kW, and further, such Designated System shall not be colocated with one or more other Distributed Renewable Energy Generation Device(s) if the aggregate Nameplate Capacity of the Distributed Renewable Energy Generation Device(s) exceeds 5,000 kW. For purposes of this Section 2.2(f), colocation shall be determined by the IPA in accordance with Section 1-75(c)(1)(K)(ii) of the IPA Act.
- (g) with respect to such Designated System, if such Designated System is a Community Renewable Energy Generation Project, the Actual Nameplate Capacity of such Designated System shall not exceed 10,000 kW, and further, such Designated System shall not be colocated with one or more other Community Renewable Energy Generation Project(s) if the aggregate Nameplate Capacity of the Community Renewable Energy Generation Project(s) exceeds 10,000 kW. For purposes of this Section 2.2(g), colocation shall be determined by the IPA in accordance with Section 1-75(c)(1)(K)(iii)(3) of the IPA Act.

If a Designated System is determined by the IPA not to be in compliance with any of the applicable provisions of Sections 2.2(a) through 2.2(g) (inclusive), then upon the occurrence of such determination, the IPA shall provide written notice of such non-compliance to Buyer and Seller, and the Designated System shall be removed from this Agreement twenty (20) Business Days after such written notice by the IPA to Buyer and Seller unless Seller demonstrates, within such twenty (20) Business Day period and to the satisfaction of Buyer and the IPA in their reasonable discretion, that such event has not occurred. As soon as practicable after the conclusion of such twenty (20) Business Day period, if Seller fails to demonstrate to the satisfaction of Buyer and the IPA that such non-compliance has not occurred, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement.

In addition, for non-compliance with Section 2.2(a), Buyer shall be entitled to payment by Seller in the amount of the sum of (i) the Collateral Requirement calculated at the time of the Trade Date as specified in Schedule A to the Product Order with respect to such Designated System and (ii) one hundred ten percent (110%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System; and for non-compliance with any of the provisions of Sections 2.2(b) through 2.2(g) (inclusive), Buyer shall be entitled to payment by Seller in the amount of the sum of: (i) the Collateral Requirement calculated at the time of the Trade Date as specified in Schedule A to the Product Order with respect to such Designated System and (ii) one hundred percent (100%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System.

The Parties acknowledge that (A) Buyer shall be damaged by the failure of Seller to comply with one or more of Sections 2.2(a) through 2.2(g) (inclusive), (B) it would be impracticable or extremely difficult to determine the actual damages resulting therefrom, (C) the remedies specified herein are fair and reasonable and do not constitute a penalty, and (D) the remedies specified in this Section 2.2 shall be Buyer's sole and exclusive remedy in the event that Seller fails to comply with one or more of Sections 2.2(a) through 2.2(g) (inclusive).

2.3 REC Tracking Systems.

- (a) The Parties will use PJM-EIS GATS or M-RETS as selected by Seller as the tracking system for the Product.

(b) The Parties shall work together to establish a Standing Order for a Designated System for the automatic recurring transfer of RECs to Buyer's account in PJM-EIS GATS or M-RETS. With respect to a Distributed Renewable Energy Generation Device, the Standing Order shall be for the automatic recurring transfer of all RECs from such Designated System. With respect to a Community Renewable Energy Generation Project, the Standing Order shall be for the percent of RECs from such Designated System equal to the multiplicative product of (i) the percent of the Actual Nameplate Capacity being Subscribed by the Anchor Tenant and End Use Customers at time of Energization and (ii) the result obtained by dividing the Contract Nameplate Capacity by the Actual Nameplate Capacity,⁷ and as may be adjusted pursuant to Section 2.6, and any undelivered RECs that are not eligible for Delivery under the Standing Order shall be the exclusive property of Seller, to be utilized in Seller's sole discretion.

(i) Seller or a designee of Seller, as transferor of the RECs, shall confirm the Standing Order request within the PJM-EIS GATS or M-RETS within thirty (30) days of the later of: the Designated System's Date of Final Interconnection Approval or the Trade Date of the Product Order that includes the Designated System (or as soon as practicable in the case of a resumption of Delivery obligations under this Agreement following a Suspension Period, if applicable). Buyer, as transferee, shall accept the properly submitted Standing Order request within the PJM-EIS GATS or M-RETS within thirty (30) days of receipt of such properly submitted Standing Order request. When the Standing Order is initially established, the Standing Order shall indicate for REC transfers to recur indefinitely.

(ii) Seller shall provide written request to Buyer for the revocation of the Standing Order no earlier than thirty (30) days prior to the end of the Delivery Term of such Designated System (or as soon as practicable in the case of the removal of a Designated System from this Agreement or a suspension of Delivery obligations under this Agreement) and Buyer shall revoke the Standing Order within thirty (30) days of receipt of such request.

(iii) Buyer shall retire RECs Delivered from Designated Systems by the month after the receipt of such RECs in Buyer's PJM-EIS GATS or M-RETS account. Buyer is not responsible for, and is under no obligation to return, any inadvertent transfer of RECs from a Designated System, including but not limited to, the Delivery of RECs beyond the Delivery Term of such Designated System if a timely confirmation of a Standing Order amendment is not initiated or timely request for revocation is not submitted by Seller or Seller's designee.

(c) Seller shall Deliver the RECs in an unretired state.

(d) The Parties shall abide by the applicable rules of PJM-EIS GATS or M-RETS. Seller shall take all actions necessary to ensure creation of RECs and REC Delivery through the irrevocable Standing Order. Each Party shall bear the costs associated with performing its respective obligations in connection with such tracking system.

(e) Seller shall upload meter readings to PJM-EIS GATS or M-RETS as necessary to allow for the issuance and Delivery of at least one (1) REC to meet the requirements set forth in Section

⁷ For avoidance of doubt, the information for purposes of making the calculation required for the Standing Order is submitted by Seller to the IPA as part of its SFA Part II Application requesting Energization. For example, suppose a Designated System is a Community Renewable Energy Generation Project that has the following characteristics: (1) the Contract Nameplate Capacity is 1,500 kW, (2) the Actual Nameplate Capacity is 2,000 kW and (3) the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and End Use Customers is 75%; then for purposes of establishing the Standing Order, the percent of RECs from such Designated System shall be the multiplicative product of (i) 75% and (ii) the result obtained by dividing (a) the Contract Nameplate Capacity of 1,500 kW by (b) the Actual Nameplate Capacity of 2,000 kW (i.e., the Standing Order shall be set at 56.25% of the Actual Nameplate Capacity).

4.1(a) and at least annually prior to the registry cutoff to produce RECs for generation occurring in May as well as all previous months for which generation has not been recorded.

(f) RECs may begin to transfer to Buyer's PJM-EIS GATS or M-RETS account, as applicable, after Buyer accepts the properly submitted Standing Order request pursuant to Section 2.3(b)(i) above. For avoidance of doubt, the Parties acknowledge the following:

- (i) pursuant to the Standing Order, RECs may begin to transfer to Buyer's PJM-EIS GATS or M-RETS account prior to the date of Energization. If a REC transfer occurs prior to the date of Energization, all such RECs that are transferred to Buyer's PJM-EIS GATS or M-RETS account may be retired by Buyer and shall not be returned to Seller even if the Designated System fails to eventually be approved for Energization; and
- (ii) unless the Designated System is Energized, the Delivery Term shall not be deemed to have commenced. Upon Energization, the Delivery Term shall be deemed to have commenced in the month after the first REC transfer has occurred, and as such, the Delivery Term may commence prior to the date of Energization.

2.4 Energization and Extensions

(a) A Designated System must be Energized by the Scheduled Energized Date indicated in Schedule A to the Product Order that is applicable to such Designated System. Unless extended pursuant to Section 2.4(b), the Scheduled Energized Date shall be the date that is eighteen (18) months from the Trade Date of such Product Order if the Designated System is a Distributed Renewable Energy Generation Device, or thirty-six (36) months from the Trade Date of such Product Order if the Designated System is a Community Renewable Energy Generation Project.

(b) With respect to a Designated System, provided that an extension request is made in writing by Seller to Buyer and the IPA prior to the prevailing Scheduled Energized Date for such Designated System, but no earlier than the date that is one hundred eighty (180) days prior to the prevailing Scheduled Energized Date for such Designated System, the Scheduled Energized Date of such Designated System may be extended one (1) or more times as follows:

- (i) with respect to a Designated System where the Date of Final Interconnection Approval has not occurred at time of the extension request, a one-time one hundred eighty (180) day extension to the prevailing Scheduled Energized Date shall be granted by the IPA upon payment of a refundable \$25/kW extension fee from Seller to Buyer based on the Proposed Nameplate Capacity of such Designated System, which payment shall be borne by Seller and shall not be passed through to End Use Customers or the Anchor Tenant, and which shall be refunded by Buyer to Seller concurrent with the first REC payment related to such Designated System from Buyer to Seller;
- (ii) if such Designated System is a Community Renewable Energy Generation Project, a one-time one hundred eighty (180) day extension to the prevailing Scheduled Energized Date shall be granted by the IPA upon payment of an additional refundable \$25/kW extension fee from Seller to Buyer based on the Proposed Nameplate Capacity of such Designated System, which payment shall be borne by the Seller and shall not be passed through to End Use Customers or the Anchor Tenant, and which shall be refunded by Buyer to Seller concurrent with the first REC payment related to such Designated System from Buyer to Seller, provided that (A) the purpose of such extension is to acquire Subscribers and (B) the Date of Final Interconnection Approval has occurred at time of the extension request;

(iii) other extensions to the Scheduled Energized Date (or revised Scheduled Energized Date) may be granted on a case by case basis upon a demonstration of good cause by Seller to the satisfaction of the IPA at its sole discretion, which shall be exercised reasonably, if the approval of such extension is communicated in writing by the IPA to Buyer and Seller. For avoidance of doubt, examples of good cause include, but are not limited to, Energization delays resulting from (A) documented delays associated with processing of permit requests or addressing regulatory requirements provided such delays are not primarily caused by Seller's actions, (B) delays in receiving interconnection approval provided that Seller's interconnection approval request was made to the interconnecting utility within thirty (30) days of such Designated System being electrically complete (ready to start generation), and (C) delays in receiving the interconnecting utility's estimate of costs to construct the interconnection facilities, and to complete required distribution upgrades, necessary for the interconnection of a Designated System. Multiple extensions may be granted pursuant to this Section 2.4(b)(iii) and each such extension shall be for a period specified by the IPA at its reasonable discretion, which shall be no longer than twelve (12) months at a time, provided that if the delay is resulting from (A) above, then the extension shall be for a period of one hundred eighty (180) days. In the event that either (i) extensions to the Scheduled Energized Date have been granted multiple times and the Designated System is not yet Energized by the date that is seven hundred thirty (730) days from the initial Scheduled Energized Date and the cause of such failure to Energize is resulting from (A), (B) or (C) above or (ii) regardless of whether the Scheduled Energized Date has been extended or not, the Designated System has been denied interconnection by the interconnecting utility and such decision is final and provided such denial is not primarily caused by Seller's actions, then Seller may request for the Designated System to be removed from this Agreement and request to receive a refund of any extension fees that have been paid pursuant to Section 2.4(b)(i) plus the portion of its Performance Assurance in the amount of the Collateral Requirement of such Designated System by providing written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA.⁸ As soon as practicable after the receipt of such Seller's written notice, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. If the request for a refund of a portion of the Performance Assurance in the amount of the Collateral Requirement is granted by the IPA, then the IPA shall include such determination in the notice to Buyer and Seller, and Buyer shall return to Seller its Performance Assurance in the amount of the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to such Designated System within ten (10) Business Days after such written notice from the IPA. Notwithstanding the foregoing, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

(c) If an extension is granted to the Scheduled Energized Date for a Designated System, the revised Scheduled Energized Date shall be specified in an amended Schedule A to the Product Order applicable to such Designated System issued by the IPA to Buyer and Seller; the IPA shall endeavor on a commercially reasonable basis to issue such amended Schedule A to the Product Order prior to the Scheduled Energized Date that prevailed prior to the amendment, but failure by the IPA to issue such amended Schedule A on a timely basis does not nullify the approval of the Scheduled Energized

⁸ For avoidance of doubt, while Seller may request for a refund of its Performance Assurance in the amount of the Collateral Requirement of a Designated System, the approval of such request is at the reasonable discretion of the IPA. For example, the IPA may approve an extension pursuant to Section 2.4(b)(iii)(B), but may reject such request for a refund if failure of Energization during such extension is due to Seller's inaction or failure to act in a timely manner.

Date extension. For avoidance of doubt, the extensions set forth in each of subsections (i), (ii) and (iii) of Section 2.4(b) are independent of any other extensions that may be granted pursuant to Section 2.4(b). Further, the Scheduled Energized Date of a Designated System may be extended one (1) or more times, but there shall only be one (1) Scheduled Energized Date that prevails at any point in time and if more than one (1) extension request seeking to extend the same Scheduled Energized Date have been approved, then the revised Scheduled Energized Date shall be the latest of the dates approved under all such extension requests.

(d) In the event that: (i) Seller, prior to the prevailing Scheduled Energized Date, has determined that a Designated System will not be constructed and provides a written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA of such determination or (ii) Seller fails to Energize such Designated System by the prevailing Scheduled Energized Date for such Designated System, the Designated System shall be removed from this Agreement except in the event of an interconnection denial, in which case the Designated System shall be removed pursuant to Section 2.4(b)(iii). As soon as practicable after the occurrence of written notice by Seller in (i) or such failure by Seller to Energize the Designated System by the Scheduled Energized Date in (ii), the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon such occurrence and removal, Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement associated with such Designated System as indicated in Schedule A to the Product Order that is applicable to such Designated System and any extension fees associated with such Designated System that have been paid by Seller to Buyer. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

(e) Upon Energization of a Designated System,⁹ the IPA shall prepare and complete Schedule B to the Product Order for such Designated System, which includes summary information related to such Designated System and indicates which Quarterly Payment Cycle the Designated System is associated with; such Schedule B to the Product Order shall be included with a Quarterly Netting Statement that the IPA issues to Buyer and Seller pursuant to Section 5.1. The information in Schedule B to the Product Order will be updated as necessary to include any updates to relevant parameters established pursuant to Section 2.5 if applicable. The Quarterly Payment Cycle associated with the Designated System shall be designated by the IPA in accordance with Section 3.4 below. The initial payment shall be made based on information in Schedule B to the Product Order and in accordance with Section 5.1 and Section 5.2.

(f) The IPA is the primary entity responsible for confirming whether each Designated System's characteristics meet the requirements of the SFA for inclusion in this Agreement and whether a subscription is deemed a valid Subscription, and the Parties acknowledge and agree that the IPA shall have the right to request more information from Seller on a Designated System and conduct on-site inspections and audits to verify the quality of the installation and conformance with information submitted to the IPA. If the IPA determines that Seller has failed to perform a material covenant or obligation set forth herein that is tied to a Designated System or that a Designated System as built (i) is in material non-conformance with the requirements of the SFA; or (ii) is materially non-conforming with the information previously submitted by Seller to the IPA about that Designated System as reasonably determined by the IPA, then the IPA shall provide notice of the material deficiency to Seller. Seller shall then have twenty (20) Business Days to cure the material deficiency, with extensions for good cause issued at the discretion of the IPA. If Seller fails to cure the material deficiency or the IPA determines in its reasonable discretion that the Designated System's material deficiency continues, the IPA shall have the right to remove the Designated

⁹ Unless provided otherwise, all information relevant to the Designated System recorded at Energization, including the Actual Nameplate Capacity, Actual Capacity Factor and any applicable Subscription information at Energization, are based on information in Seller's SFA Part II Application for such Designated System.

System from this Agreement after the twenty (20) Business Day cure period, or alternatively to impose other discipline on Seller under the SFA. If the IPA determines that the Designated System shall be removed from this Agreement, then the IPA shall notify Buyer and Seller of same and provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon the issuance of such written notice to Buyer and Seller, the Designated System shall be so removed, and Buyer shall be entitled to payment by Seller in the amount equal to the sum of: (i) the Collateral Requirement estimated at the time of such non-conformance associated with such Designated System and (ii) one hundred percent (100%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System.

(g) For a Designated System that would otherwise be Energized pending the establishment of the Standing Order, if Seller desires to have the Designated System change its Class of Resource, Seller shall with written notice to the IPA and Buyer substantially in the form of Schedule D to the Product Order, request for such Designated System to be removed from this Agreement and to be submitted under a new SFA application. As soon as practicable after the IPA's receipt of Seller's request, the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon the removal of the Designated System, Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to such Designated System. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6. For avoidance of doubt, the Designated System that is re-submitted by Seller in a new SFA application shall be treated like any other new system being submitted, and no portion of the Collateral Requirement forfeited shall be eligible to be applied to the new SFA application.

2.5 Size Change of Designated Systems.

(a) If the Actual Nameplate Capacity of a Designated System upon Energization is different from the Proposed Nameplate Capacity of such Designated System and such Actual Nameplate Capacity is within the greater of: +/-5kW or +/-25% of such Proposed Nameplate Capacity, then the following shall apply:

(i) if the Designated System is a Distributed Renewable Energy Generation Device and if the size category of the Actual Nameplate Capacity relevant to determining REC prices under the SFA is different from the size category of the Proposed Nameplate Capacity, then the following shall apply:

(A) the Contract Price for purposes of payment shall be lesser of: (1) Proposed Price indicated in Schedule A to the Product Order and (2) the REC price applicable to the Actual Nameplate Capacity under the SFA at the time of Energization of such Designated System, and if such REC price is not available then the last prevailing REC price applicable to the Actual Nameplate Capacity under the SFA. For avoidance of doubt, if the size category of the Actual Nameplate Capacity relevant to determining REC prices under the SFA is the same as the size category of the Proposed Nameplate Capacity, the Contract Price for purposes of payment shall remain unchanged from the Proposed Price indicated in Schedule A to the Product Order applicable to such Designated System; and

(B) the quantity of RECs used for purposes of initial and full payment shall be the Designated System Contract Maximum REC Quantity recorded at

Energization, which shall be equal to the multiplicative product of (1) Contract Nameplate Capacity (in MW), (2) Contract Capacity Factor, (3) 8,760 hours and (4) 15 years, which result shall be rounded down to the nearest whole REC.

(ii) if the Designated System is a Community Renewable Energy Generation Project and if the size category of the Actual Nameplate Capacity relevant to determining REC prices under the SFA is different from the size category of the Proposed Nameplate Capacity, then the following shall apply:

(A) the Anchor Tenant Contract Price for purposes of calculating the Contract Price shall be the lesser of (i) the Anchor Tenant Proposed Price indicated in Schedule A to the Product Order applicable to such Designated System and (ii) as applicable, either (a) the REC price applicable to the Actual Nameplate Capacity under the Community Driven Community Solar Category of the ABP at the time of Energization of such Designated System and if such REC price is not available then the last prevailing REC price applicable to the Actual Nameplate Capacity under the Community Driven Community Solar Category of the ABP or (b) if the Anchor Tenant is a Master-Meter Income-Eligible Residential Building Anchor Tenant, the average of (x) the applicable REC price for the Community Driven Community Solar Category under ABP at the time of Energization of such Designated System (and if such REC price is not available then the last prevailing REC price applicable to the Actual Nameplate Capacity under the Community Driven Community Solar Category of the ABP) and (y) the Non-Anchor Tenant Contract Price;

(B) the Non-Anchor Tenant Contract Price for purposes of calculating the Contract Price shall be the lesser of (i) the Non-Anchor Tenant Proposed Price indicated in Schedule A to the Product Order applicable to such Designated System and (ii) the REC price applicable to the Actual Nameplate Capacity under the SFA at the time of Energization of such Designated System, and if such REC price is not available then the last prevailing REC price applicable to the Actual Nameplate Capacity under the SFA¹⁰; and

(C) the quantity of RECs used for purposes of initial payment shall be the Designated System Contract Maximum REC Quantity recorded at Energization, which shall be equal to the multiplicative product of (1) Contract Nameplate Capacity (in MW), (2) Contract Capacity Factor, (3) 8,760 hours and (4) 15 years, which result shall be rounded down to the nearest whole REC.

(b) For a Designated System that would otherwise be Energized pending the establishment of the Standing Order, if the Actual Nameplate Capacity is larger than the Proposed Nameplate Capacity and where the difference between the Actual Nameplate Capacity and the Proposed Nameplate Capacity is within the greater of: +5kW or +25% of the Proposed Nameplate Capacity, then Seller shall have the option to request, by written notice to the IPA and Buyer substantially in the form of Schedule D to the Product Order, for such Designated System to be removed from this Agreement and to be submitted under a new SFA application. For all Designated Systems where the difference between the Actual Nameplate Capacity and the Proposed Nameplate Capacity is not within the greater of: +/-5kW or +/-25% of the Proposed Nameplate Capacity, as communicated by the IPA in writing to Buyer and Seller, then such Designated System shall be removed from this

¹⁰ For avoidance of doubt, the relevant REC price shall be the REC price associated with the same sub-program under the SFA.

Agreement, and Seller shall have the option for such Designated System to be submitted under a new SFA application. As soon as practicable after the receipt of such Seller's request to remove the Designated System from the Agreement or upon such determination by the IPA that the difference between the Actual Nameplate Capacity and the Proposed Nameplate Capacity is not within the greater of: +/-5kW or +/-25% of the Proposed Nameplate Capacity, the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. In all these cases, a portion of Seller's Performance Assurance Amount equal to the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to the Designated System shall be forfeited unless the new SFA application of such Designated System is approved by the ICC for inclusion in this Agreement or an agreement between Buyer and Seller under the SFA within three hundred sixty five (365) days of the date of the written notice from Seller or the IPA requesting for the removal of such Designated System from this Agreement, in which case the previously forfeited portion of such Seller's Performance Assurance Amount associated with the original Designated System's Proposed Nameplate Capacity shall be applied to meet the Collateral Requirement of such newly approved Designated System (or meet a portion of such Collateral Requirement if the previously forfeited amount is insufficient to fully meet such Collateral Requirement). If the previously forfeited amount is not entirely required to meet the Collateral Requirement of such newly approved Designated System as required by the previous sentence, the excess amount will be refunded to Seller. The IPA shall notify Buyer when either forfeiture of the applicable portion of Seller's Performance Assurance Amount or re-application of the applicable portion of the previously forfeited amount shall occur. Notwithstanding any of the foregoing, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

(c) During the Term of this Agreement, Seller may determine, with respect to a Designated System, that the number of RECs for which payment is or will be based is understated due to an error in the capacity factor reported by Seller in its SFA Part I Application and/or SFA Part II Application. In such case, Seller shall have the option to request, by written notice to the IPA and Buyer substantially in the form of Schedule D to the Product Order, for such Designated System to be removed from this Agreement and to be submitted under a new SFA application. As soon as practicable after the receipt of such Seller's request to remove the Designated System from the Agreement, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. In this case, a portion of Seller's Performance Assurance Amount equal to the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to the Designated System shall be forfeited unless the new SFA application of such Designated System is approved by the ICC for inclusion in this Agreement or an agreement between Buyer and Seller under the SFA within three hundred sixty five (365) days of the date of the written notice from Seller or the IPA requesting for the removal of such Designated System from this Agreement, in which case the previously forfeited portion of such Seller's Performance Assurance Amount associated with the original Designated System's Proposed Nameplate Capacity shall be applied to meet the Collateral Requirement of such newly approved Designated System (or meet a portion of such Collateral Requirement if the previously forfeited amount is insufficient to fully meet such Collateral Requirement). If the previously forfeited amount is not entirely required to meet the Collateral Requirement of such newly approved Designated System as required by the previous sentence, the excess amount will be refunded to Seller. The IPA shall notify Buyer when either forfeiture of the applicable portion of Seller's Performance Assurance Amount or re-application of the applicable portion of the previously forfeited amount shall occur. Notwithstanding any of the foregoing, Seller shall return one hundred percent (100%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System. For avoidance of doubt, any RECs Delivered by Seller to Buyer prior to removal of the Designated System under this Section 2.5(c) shall be deemed non-compliant RECs, ineligible for payment hereunder, shall not be returned to Seller, and shall not be

applied toward any REC Delivery obligation of the Designated System in any subsequent contract award pursuant to Seller's resubmission of such Designated System under a new SFA application.

2.6 Additional Provisions Related to Community Renewable Energy Generation Projects.

In addition to any adjustments pursuant to Section 2.5(a)(ii) above, if the Designated System is a Community Renewable Energy Generation Project, the following shall apply:

- (a) subsequent to Energization, the quantity of RECs as well as the Contract Price used for purposes of the REC payment shall be subject to one (1) additional payment adjustment based on the information in the Community Solar First Year Report submitted by Seller to the IPA pursuant to Section 6.2 for the first four (4) full Quarterly Periods¹¹ after Energization. Exhibit F-3 to this Agreement contains an illustrative example of the payment adjustment to be made following the Community Solar First Year Report; calculations of the quantity of RECs subject to the price adjustment shall be set consistent with the example provided in Exhibit F-3 and the Contract Price shall be set consistent with Section 1.27. For purposes of calculating the Contract Price in this payment adjustment, the Anchor Tenant Contract Price and the Non-Anchor Tenant Contract Price shall remain unchanged. For purposes of calculating the quantity of RECs in this payment adjustment, the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and the End Use Customers, as applicable, shall be based on the values observed on the last day of the last Quarterly Period reported in the Community Solar First Year Report submitted by Seller to the IPA. Notwithstanding the foregoing, Seller may request for the calculations in this Section 2.6(a) to be based on values observed in a day that is not the last day of the last Quarterly Period reported in the Community Solar First Year Report, which request shall be subject to the approval of the IPA.¹² Notwithstanding the payment adjustment described in the foregoing and for avoidance of doubt, if there is no change to the Contract Nameplate Capacity, Contract Capacity Factor and Contract Price, then there shall be no payment adjustments pursuant to this Section 2.6(a);¹³
- (b) notwithstanding the foregoing Section 2.6(a) above, with respect of the period between Energization and the end of the period covered by the Community Solar First Year Report, if the percent of the Actual Nameplate Capacity Subscribed by the Anchor Tenant has decreased and the percent of the Actual Nameplate Capacity Subscribed by End Use Customers has increased, then for purposes of payment, any increase in the percent of the Actual Nameplate Capacity Subscribed by the End Use Customers that are replacing the share previously Subscribed by the Anchor Tenant shall be subject to the Anchor Tenant Contract Price, and the Non-Anchor Tenant Contract Price shall be applicable to any remaining percent increase in excess of the increased share of the Actual Nameplate Capacity Subscribed by the End Use Customers replacing the share previously Subscribed by the Anchor Tenant, and the Contract Price shall be the weighted price obtained by dividing (1) the sum of (a) the multiplicative product of (j) the Anchor Tenant Contract Price and (k) the share of the Actual Nameplate Capacity Subscribed by the Anchor Tenant and by any End Use Customers whose share is subject to the Anchor Tenant Contract Price and (b) the multiplicative product of (x) the Non-Anchor Tenant Contract Price and (y) the share

¹¹ For avoidance of doubt, the Quarterly Periods shall correspond to the Quarterly Periods associated with the Quarterly Payment Cycle assigned to the Designated System.

¹² For avoidance of doubt, all of the parameters used for the calculations in this Section 2.6(a) shall be based on the values observed on a single day if another day is selected that is not on the last day of the last Quarterly Period reported in the Community Solar First Year Report.

¹³ The methodology provided in Exhibit F-3 may lead to minor payment adjustments in certain cases due to rounding even when there is no change to the Contract Nameplate Capacity, Contract Capacity Factor and Contract Price. For avoidance of doubt, there shall be no payment adjustments in these cases.

of the Actual Nameplate Capacity Subscribed by End Use Customers whose share is subject to the Non-Anchor Tenant Contract Price; by (2) the combined share of the Actual Nameplate Capacity Subscribed by the Anchor Tenant and End Use Customers, which result shall be rounded to the nearest penny.¹⁴ For purposes of contract administration, the foregoing adjustment in the case of a decreasing Anchor Tenant Subscription relates to how the Contract Price is calculated only and is not intended to change the Anchor Tenant Contract Price and the Non-Anchor Tenant Contract Price. For avoidance of doubt, the Anchor Tenant Contract Price and the Non-Anchor Tenant Contract Price shall remain unchanged from the date of Energization;

- (c) if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers is less than fifty percent (50%) on the last day of the last Quarterly Period reported in the Community Solar First Year Report submitted by Seller to the IPA (and no alternate day is selected pursuant to the last sentence of Section 2.6(a) where the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers is at least fifty percent (50%)), then Seller shall be afforded one (1) Quarterly Period to cure such deficiency, which period may be extended for good cause upon request by Seller to the IPA, and the payment adjustment described in Sections 2.6(a) and 2.6(b) shall be delayed until after the conclusion of such cure period. For purposes of the deficiency cure process, Seller shall submit updated information for an additional Quarterly Period (or extended cure period approved by the IPA), in an addendum to the Community Solar First Year Report by the tenth (10th) day of the month immediately succeeding such additional Quarterly Period or extended cure period, as applicable.
 - (i) If (A) Seller fails to submit such an addendum to the Community Solar First Year Report or (B) the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers remains less than fifty percent (50%) on the last day of the additional Quarterly Period or extended cure period reported in the addendum to the Community Solar First Year Report, then the Designated System shall be removed from this Agreement. As soon as practicable after such occurrence, the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule B, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon the occurrence of such failure by Seller in (A) or (B) above, Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement for such Designated System calculated at the time of the issuance of the Community Solar First Year Report, and if payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall make a payment adjustment to Buyer based on the Contract Price recorded at Energization and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System.¹⁵ Buyer may draw on

¹⁴ For example, if between Energization and the end of the period covered by the Community Solar First Year Report, the percent of the Actual Nameplate Capacity Subscribed by the Anchor Tenant decreased by 3 percentage points while the percent Subscribed by End Use Customers increased by 5 percentage points, then RECs associated with an increase of 3 percentage points of End Use Customer Subscription share shall be subject to the Anchor Tenant Contract Price and RECs associated with the remaining increase of 2 percentage points will be subject to the Non-Anchor Tenant Contract Price. For purposes of the payment adjustment, the total quantity of RECs subject to the adjustment will be based on the Contract Nameplate Capacity calculated for the period covered by the Community Solar First Year Report multiplied by the result obtained by dividing the number of months remaining in the Delivery Term from (and inclusive of) the month immediately subsequent to the period covered by the Community Solar First Year Report by 180 months.

¹⁵ Specifically, if payments have been made to Seller with respect to a Designated System, and the number of RECs Delivered from such Designated System is less than the Designated System Paid REC Quantity, then with respect to such Designated System, Seller shall return a portion of the amount of payment equal to the multiplicative product of (A) the

Seller's Performance Assurance for purposes of the aforementioned payment adjustment.

- (ii) If the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers is at least fifty percent (50%) on the last day of the additional Quarterly Period (or extended cure period approved by the IPA) reported in the addendum to the Community Solar First Year Report, then for purposes of the administration of this Agreement including the administration of Section 4.2(d) and for purposes of the payment adjustment described in Sections 2.6(a) and 2.6(b), the updated percent of Actual Nameplate Capacity that has been Subscribed by each of the Anchor Tenant and End Use Customers as well as the updated percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers on the last day of the additional Quarterly Period reported in the addendum to the Community Solar First Year Report (or extended cure period approved by the IPA) shall be deemed to have prevailed for the period covered in the Community Solar First Year Report submitted by Seller.
 - (iii) Notwithstanding the foregoing in Section 2.6(c)(ii), Seller may request for the calculations in this Section 2.6(c) to be based on values observed in a day within the additional Quarterly Period or extended cure period that is not the last day of the additional Quarterly Period or last day of the extended cure period reported in the addendum to the Community Solar First Year Report, which request shall be subject to the approval of the IPA.
 - (iv) Unless otherwise required for clarity by the context in which the term appears in Article 1 or hereinafter, (a) the Community Solar First Year Report shall include the addendum thereto; and (b) references to information contained in the Community Solar First Year Report shall incorporate any updates calculated in the cure period contained in the addendum thereto.
- (d) the Standing Order for such Designated System shall be amended by Buyer and Seller as soon as practicable after the receipt of instructions to amend the Standing Order provided by the IPA based on information contained in the Community Solar First Year Report submitted pursuant to Section 6.2 to reflect the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and the End Use Customers based on information in such Community Solar First Year Report, and any RECs that are not Delivered under the Standing Order and not eligible for Delivery under the Standing Order shall be the exclusive property of Seller, to be utilized in Seller's sole discretion. The percentage of the Actual Nameplate Capacity for purposes of the Standing Order shall be set consistent with Section 2.3(b) and such amendment to the Standing Order shall be performed on a prospective basis and not retroactive basis regardless of the calculations performed in Section 2.6(a) or Section 2.6(c);
- (e) at any time following the applicable Trade Date and before the end of the Delivery Term, Seller may request for a change of the Anchor Tenant by written request and submission of acceptable documentation to the IPA, which shall be approved at the IPA's reasonable discretion. For purposes of the administration of Section 4.2(d), the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant set pursuant to Section 2.6(a) or Section 2.6(c) above shall be the base percentage ("Base Anchor Percentage") for evaluations under Section 4.2(d). If the Anchor Tenant change is approved and effective

Contract Price recorded at Energization and (B) the positive difference between (i) the Designated System Paid REC Quantity using the Contract Price recorded at Energization and (ii) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

after the period covered in the Community Solar First Year Report or the addendum thereto, then the base percentage Subscribed by Anchor Tenant as a share of Actual Nameplate Capacity is assumed to be unchanged from the Base Anchor Percentage, and the realized percentage of Actual Nameplate Capacity Subscribed by the new Anchor Tenant shall be used as the metric of performance that is measured against the Base Anchor Percentage in annual Delivery Year evaluations under Section 4.2(d) going forward. If the Anchor Tenant change is approved and effective between the Trade Date and the end of the period covered in the Community Solar First Year Report or the addendum thereto, then such change shall be reflected in or subject to the adjustments in Section 2.4(e), Section 2.6(a), Section 2.6(b) and Section 2.6(c) above. For avoidance of doubt, there is no requirement for Seller to propose an Anchor Tenant in its SFA Part I Application. If no Anchor Tenant is proposed in the SFA Part I Application with respect to the Designated System, then no Anchor Tenant may be added after the Trade Date and the Anchor Tenant's Subscription share of the Designated System shall be deemed zero percent (0%) for the duration of the Delivery Term;

- (f) any adjustments to the Contract Price and/or the quantity of RECs used for purposes of the REC payment calculations as provided in this Section 2.6, including any payment adjustments pursuant to Sections 2.6(a), 2.6(b), and 2.6(c), shall be reflected in the calculation of the Maximum Allowable Payment that is applicable for payment by Buyer in the following Quarterly Period in accordance with Section 5.1¹⁶ and if such payment adjustment is negative, Seller shall make such payment within fifteen (15) Business Days of notice by Buyer;
- (g) if there is a change of the Anchor Tenant or if there are updates to parameters of the Designated System following the Community Solar First Year Report, then the relevant information that are reflected on Schedule B to the Product Order shall be revised in an updated Schedule B issued by the IPA;
- (h) for avoidance of doubt, shares of the Designated System that is Subscribed by any other Subscribers besides the Anchor Tenant and End Use Customers (as established at the date of Energization, and potentially adjusted pursuant to Section 2.6(a) or Section 2.6(c) above) are not eligible for payment and there shall be no REC Delivery obligations with respect to RECs associated with those Subscriptions;
- (i) unless specified otherwise, for the period subsequent to the period covered by the Community Solar First Year Report submitted pursuant to Section 6.2, the final Contract Price shall be determined based on the percent of the Actual Nameplate Capacity Subscribed by the Anchor Tenant and the percent of the Actual Nameplate Capacity Subscribed by End Use Customers pursuant to Section 2.6(a) or Section 2.6(c) (both subject to Section 2.6(b)); and the quantity of RECs due payment shall be determined based on the combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and End Use Customers pursuant to Section 2.6(a) or Section 2.6(c); and
- (j) the Parties acknowledge and agree that the IPA shall have the right to obtain Subscription information from the interconnecting utility.

2.7 MWBE, Energy Sovereignty and Other Commitments.

- (a) A Designated System may receive additional points during project selection under the SFA if (i) the Approved Vendor, Approved Vendor Aggregator, or Designee (as these terms are used in the SFA)

¹⁶ For example, an adjustment based on the Community Solar First Year Report submitted by Seller on September 10, 2032 shall be reflected in the Quarterly Netting Statement issued to Seller on December 1, 2032 and eligible to be included in Seller's invoice due December 10, 2032.

is a registered Minority/Women-Owned Business Enterprise (“MWBE”) registered with a public or non-public third-party MWBE-certifying bodies, including but not limited to the National Minority Supplier Development Council, the Women’s Business Enterprise National Council, and their regional affiliates, or (ii) the Approved Vendor engages one or more MWBE subcontractors, where the combined contract value across all such MWBE subcontractors on the Designated System is 50% or more of the Designated System’s REC contract value. For purposes of calculating the REC contract value of a Distributed Renewable Energy Generation Device in the foregoing, the REC contract value shall be calculated based on a Contract Price inclusive of any Home Repairs Pilot Adder, if applicable, but without any ES Price Adder. For each Designated System which received additional points during the project selection process for commitments related to the use of one or more MWBE subcontractors, Seller agrees to submit invoices from all such MWBE subcontractors, which demonstrate fulfillment of this requirement, contemporaneously with the SFA Part II Application. The IPA will verify compliance with the MWBE commitment through review of the invoices of MWBE subcontractors in connection with its review of the SFA Part II Application of such Designated System. For each such Designated System, in the event that the Seller fails to demonstrate, and the IPA is unable to verify, fulfillment of MWBE subcontractor utilization equal to or greater than 50% of the REC contract value,¹⁷ the Designated System shall be removed from this Agreement and Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to such Designated System. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6. In the event of assignment under Section 13.1, the assignee will assume the responsibilities and obligations of Seller under this Agreement. For each Designated System which received additional points during the project selection process based upon the Seller’s status as a certified MWBE, any assignment pursuant to Section 13.1 may be assigned prior to SFA Part II Application verification of the Designated System only to another SFA-Approved Vendor that is also a certified MWBE. In the event that the assignee is not a certified MWBE, the Designated System shall be removed from this Agreement and Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to such Designated System. (In either case of Designated System removal contemplated in this Section 2.7(a), the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order indicating the removal of the Designated System.) Following SFA Part II Application verification, Seller may make any assignment consistent with Section 13.1.

(b) Further, a Designated System may also receive additional points during project selection under the SFA for other attributes¹⁸ of the Designated System as proposed by Seller in its SFA Part I Application. In the event that the Seller fails to demonstrate, and the IPA is unable to verify, fulfillment of such attributes in connection with IPA’s review of the SFA Part II Application of such Designated System, the Designated System shall be removed from this Agreement and Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement as indicated in Schedule A to the Product Order that is applicable to such Designated System. In the case of a Designated System removal contemplated in this Section 2.7(b), the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order indicating the removal of the Designated System.

(c) A Designated System for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable) to the Product Order must have its ownership transferred to eligible customers for such Designated System to achieve Energy Sovereignty by the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date. In the event that: (i) Seller, prior to the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date, has determined that ownership of the Designated System will not be transferred to eligible customers that will allow such Designated System to achieve Energy Sovereignty by the date that is two (2) years after the Energy Sovereignty Proposed Transfer

¹⁷ For avoidance of doubt, the REC contract value for purposes of this evaluation shall be the value calculated in the SFA Part I Application of the Designated System and shall be unaffected by changes to the Designated System’s attributes (such as changes to Subscriptions, Anchor Tenant or Actual Nameplate Capacity).

¹⁸ For example, Seller may receive additional points for proposing a Designated System with an Anchor Tenant that is a non-profit or public facility in its SFA Part I Application for such Designated System.

Date and provides a written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA of such determination, or (ii) Seller fails to demonstrate, and the IPA is unable to verify, a transfer of ownership to eligible customers¹⁹ that allows such Designated System to achieve Energy Sovereignty by the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date, the Designated System shall be removed from this Agreement. Upon the removal of the Designated System, Buyer shall be entitled to payment by Seller in the amount of the sum of: (i) the Collateral Requirement calculated at the time of the Trade Date with respect to such Designated System and (ii) one hundred percent (100%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System. In the case of a Designated System removal contemplated in this Section 2.7(c), the Designated System shall be deemed to be removed on the first Business Day after the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date. As soon as practicable after the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date, the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule B (if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. For avoidance of doubt, this provision applies to any Designated System for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable), regardless of whether the Designated System is a Distributed Renewable Energy Generation Device or a Community Renewable Energy Generation Project.

ARTICLE 3: PRODUCT ORDERS; TERM OF AGREEMENT; DELIVERY TERM; QUARTERLY PAYMENT CYCLES

3.1 Incorporation of Product Orders.

This Agreement may include multiple Transactions. The date the ICC approves a Transaction shall constitute the “Trade Date” indicated in the Product Order for such Transaction.

The terms of a Transaction are as specified in this Agreement and in a Product Order. For each Transaction, Buyer and Seller shall execute a Product Order substantially in the form of Exhibit A to this Agreement within seven (7) Business Days of Seller’s receipt of the Product Order to confirm the terms of the Transaction.

Each Transaction may include multiple Designated Systems. For a Designated System that is approved by the ICC for inclusion in this Agreement, the IPA shall prepare and complete Schedule A to the Product Order for such Designated System, which includes summary information of such Designated System as proposed by Seller. Once a Designated System is Energized, the IPA shall prepare and complete Schedule B to the Product Order for such Designated System, which includes updated summary information related to the Designated System, and which shall be the basis for determining applicable payments under this Agreement. Schedule C to a Product Order provides a summary of the status of all Designated Systems included in such Product Order. Once a Designated System is removed pursuant to the terms of this Agreement, Schedule D to a Product Order is prepared to memorialize such removal and to provide information related to the predicate event that gave rise to the removal of that Designated System. (Each of Schedule A and Schedule B to the Product Order may contain elections to indicate the applicability of certain requirements set forth in the Applicable Program. For avoidance of doubt, the failure to reflect such elections in the schedules shall not nullify the applicability of the requirements set forth in the Applicable Program.)

3.2 Term of Agreement.

Unless earlier terminated pursuant to the terms of this Agreement, the “Term” of this Agreement shall be

¹⁹ Eligible customers are described in the IPA’s Long-Term Renewable Resources Procurement Plan as approved by the ICC in Docket No. 25-0945.

from the Effective Date until December 31 following the conclusion of the last annual review process pursuant to Section 4.2(c). In the event that a Suspension Period applicable to all Transactions under this Agreement has occurred and is continuing for more than seven hundred thirty (730) consecutive days, then either Party may terminate this Agreement, and if payments have been made to Seller, then with respect to each Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System.²⁰ Subject to Section 7.1(h), Seller's Performance Assurance will be returned to Seller by Buyer upon payment by Seller of such amount.

3.3 Delivery Term of Designated Systems.

Unless a Designated System is removed pursuant to the terms of this Agreement, the "Delivery Term" of a Designated System shall be the period starting on the first day of the month following the date the first REC from such Designated System is Delivered to Buyer and ending on the last day of the one hundred eightieth (180th) month after the start date of the Delivery Term where the first (1st) month is the month following the date the first REC from such Designated System is Delivered to Buyer; provided that such one hundred eighty (180) month period shall be automatically extended day for day for each day of any Suspension Period in respect of such Designated System, up to a maximum extension of seven hundred thirty (730) days.

3.4 Quarterly Payment Cycles.

For purposes of invoicing and payment, each Designated System shall be associated with one of the following payment cycles:

Payment Cycle A: Invoices shall be due on the 10th of and payable on the last day of: January, April, July and October.

Payment Cycle B: Invoices shall be due on the 10th of and payable on the last day of: February, May, August and November.

Payment Cycle C: Invoices shall be due on the 10th of and payable on the last day of: March, June, September and December.

Upon Energization of a Designated System, the IPA shall designate a Quarterly Payment Cycle to such Designated System and shall indicate such Quarterly Payment Cycle in Schedule B to the Product Order applicable to such Designated System. The IPA shall endeavor, on a commercially reasonable efforts basis, to designate for each Designated System a Quarterly Payment Cycle that includes a Quarterly Period that concludes on the month of Energization of the Designated System so that Seller may invoice and be paid for RECs associated with the Designated System in the month following the date of Energization. Notwithstanding, the IPA may in its reasonable discretion designate a Quarterly Payment Cycle that includes a Quarterly Period that concludes on the month following Energization.

3.5 Transfer of Designated Systems to New Product Orders.

(a) In connection with resolving consumer protection concerns, if the IPA determines that it would be beneficial for a Designated System to be removed from a Product Order and be reassigned to another Product Order, the IPA shall implement the reassignment in two steps:

²⁰ Specifically, if payments have been made to Seller with respect to a Designated System, and the number of RECs Delivered from such Designated System is less than the Designated System Paid REC Quantity, then with respect to such Designated System, Seller shall return a portion of the amount of payment equal to the multiplicative product of (A) the Contract Price and (B) the positive difference between (i) the Designated System Paid REC Quantity and (ii) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

- (i) Firstly, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from such Product Order.
- (ii) Secondly, the IPA shall provide to Buyer and Seller a new Product Order substantially in the form of Exhibit A to this Agreement, including a Schedule A (and Schedule B, if applicable) associated with such Designated System.

IPA shall provide the documents indicated in (i) and (ii) above concurrently, and Buyer and Seller shall execute such Schedule D in (i) and such new Product Order in (ii) within seven (7) Business Days of Seller's and Buyer's receipt of the Product Order to confirm the terms of the Transaction and to effectuate the reassignment.²¹

3.6 Removal of Designated Systems by the IPA

If a Designated System was included in this Agreement due to an administrative error (e.g. unintended approval of duplicate systems) by the IPA or Buyer, then upon the occurrence of the determination by the IPA of such administrative error, the IPA shall provide written notice of such error to Buyer and Seller, and the Designated System shall be removed from this Agreement twenty (20) Business Days after such written notice by the IPA to Buyer and Seller. As soon as practicable after the IPA's determination, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. If there are RECs that have been Delivered, but that are unpaid, then Buyer shall return such unpaid RECs to Seller to the extent such RECs are not retired. If payments have been made in error to Seller with respect to the Designated System, Seller shall return the amount of payment equal to the multiplicative product of (A) the Contract Price and (B) the result obtained by subtracting the number of compliant RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity), from the Designated System Paid REC Quantity. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6 to the extent such Advance of Capital is not already accounted for in the prior sentence. Upon the removal of such Designated System from the Agreement, Seller may request for the reduction of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii). Any such request shall be honored by Buyer within ten (10) Business Days.

ARTICLE 4: DELIVERY OBLIGATIONS

4.1 Initial Delivery Obligations.

(a) For each Designated System that has been Energized, the Delivery of at least one (1) REC from such Designated System to Buyer's PJM-EIS GATS account or M-RETS account, as applicable, is expected to occur within ninety (90) days of when such Designated System was Energized if the Actual Nameplate Capacity of such Designated System is greater than 5kW or within one hundred eighty (180) days of when the Designated System was Energized if the Actual Nameplate Capacity of such Designated System is equal to or less than 5kW. Seller shall upload meter readings to PJM-EIS GATS or M-RETS pursuant to Section 2.3(e) as necessary for the issuance and timely Delivery of at least one (1) REC by the deadline set forth in this Section 4.1(a).

²¹ For avoidance of doubt, this Section 3.5 does not provide for the assignment of the new Product Order to another approved vendor. This section simply provides for the "unbatching" and "rebatching" of Designated System(s) so as to facilitate a subsequent assignment to occur under Section 13.1 of this Agreement, which requires that any assignment be for a minimum of one or more Product Orders in their entirety.

(b) With respect to a Designated System, in the event that Seller fails to Deliver at least one (1) REC by the deadline set forth in Section 4.1(a), then the following shall occur:

- (i) If a Designated System is a Community Renewable Energy Generation Project, payments attributable to such Designated System shall be suspended upon the occurrence of such failure by Seller to the extent there are payments that are outstanding for such Designated System.²² Payments that are attributable to such Designated System, if any are outstanding, shall resume and be made in accordance with Section 5.1 and Section 5.2 upon the Delivery of one (1) REC from such Designated System if such Delivery occurs prior to the upcoming REC Annual Report submission deadline of August 1.
- (ii) If the Delivery of one (1) REC has not occurred by the upcoming August 1 REC Annual Report submission deadline, Seller shall include in Seller's REC Annual Report a confirmation that there are no technical issues known to Seller that would impede the generation, issuance and Delivery of RECs from such Designated System and a confirmation that Seller has uploaded meter readings to PJM-EIS GATS or M-RETS, and Seller shall provide information related to such uploads.
- (iii) In the event that, subsequent to the submission of such REC Annual Report pursuant to Section 4.1(b)(ii), Seller fails to Deliver at least one (1) REC by the immediately upcoming October 30 if the Actual Nameplate Capacity of such Designated System is greater than 5kW or by the immediately upcoming January 28 if the Actual Nameplate Capacity of such Designated System is equal to or less than 5kW, the Designated System shall be removed from this Agreement. As soon as practicable after the occurrence of such failure by Seller to Deliver at least one (1) REC by the deadline set forth in this Section 4.1(b)(iii), the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule B, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon the occurrence of such failure by Seller, Buyer shall be entitled to payment by Seller in the amount of the sum of: (i) the Collateral Requirement for such Designated System calculated in accordance with Section 1.20 as of the deadline set forth in this Section 4.1(b)(iii) and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- (iv) In the event that, subsequent to the submission of such REC Annual Report pursuant to Section 4.1(b)(ii), Seller has Delivered at least one (1) REC from the Designated System by the deadline set forth in Section 4.1(b)(iii), then payments that are attributable to such Designated System, if any are outstanding, shall resume and be made in accordance with Section 5.1 and Section 5.2.

4.2 Annual Review of Ongoing REC Delivery Obligations

(a) For each Designated System that has been Energized, all RECs designated to be Delivered pursuant to the Standing Order associated with such Designated System shall be Delivered to Buyer commencing from the date such Standing Order is established through the end of the Delivery Term of such Designated System regardless of whether the total payment made by Buyer to Seller for RECs from such

²² If a Designated System is a Community Renewable Energy Generation Project, Seller may be eligible for one (1) additional payment adjustment pursuant to Section 2.6(a) or Section 2.6(c) after the lump sum payment at Energization; as such, if no RECs are Delivered from the Designated System by the time of the payment adjustment, any additional payments will be suspended.

Designated System is commensurate with the actual number of RECs Delivered from such Designated System.

(b) For each Designated System that has been Energized, a REC delivery schedule is provided in Schedule B to the Product Order applicable to such Designated System that contains the expected number of RECs to be Delivered through the end of the Delivery Term where the number of RECs expected to be Delivered in each Delivery Year is based on the Contract Nameplate Capacity and the Year-1 Contract Capacity Factor with a degradation factor of half of one percent (0.5%) annually, and rounded down to the nearest whole REC in each Delivery Year. The REC quantities expected to be Delivered from such Designated System in a Delivery Year shall be the “Delivery Year Expected REC Quantity” for such Delivery Year. For avoidance of doubt, with respect to a Designated System, the Delivery Year Expected REC Quantities in the delivery schedule are determined at the time of Energization and not when the Delivery Term starts. As such, for purposes of calculating the Delivery Year Expected REC Quantity for each Delivery Year, the Delivery Year in which the date of Energization occurred shall be the first Delivery Year for which a Delivery Year Expected REC Quantity is calculated and the Delivery Year Expected REC Quantity for such first Delivery Year shall be calculated based on the Contract Nameplate Capacity and Year-1 Contract Capacity Factor. If the Delivery Term extends beyond a 15-Delivery Year schedule starting with that first Delivery Year, then each subsequent Delivery Year Expected REC Quantity subsequent to the 15th Delivery Year shall reflect a quantity that provides for a degradation factor of half of one percent (0.5%) from the prior Delivery Year Expected REC Quantity (a sample delivery schedule is provided in Exhibit F-1). For avoidance of doubt, with respect to a Designated System that is a Community Renewable Energy Generation Project, the Designated System Contract Maximum REC Quantity and the Delivery Year Expected REC Quantities shall be adjusted pursuant to Section 2.6(a) and Section 2.6(c) and the updated Schedule B and REC Delivery schedule will be issued by the IPA to Buyer and Seller pursuant to Section 2.6(g). For avoidance of doubt, the adjustments made pursuant to Section 2.6(a) and Section 2.6(c) shall be deemed to have prevailed at the time of Energization for purposes of calculating the Delivery Year Expected REC Quantities. For purposes of re-calculating the delivery schedule, the Delivery Year in which the date of Energization occurred shall be the first Delivery Year for which a Delivery Year Expected REC Quantity is calculated and the Delivery Year Expected REC Quantity for such first Delivery Year shall be calculated using the updated Contract Nameplate Capacity based on the updated percent of the Actual Nameplate Capacity that is being Subscribed by the Anchor Tenant and End Use Customers as established pursuant to Section 2.6(a) and Section 2.6(c).

(c) Once annually on or prior to December 2 following a Delivery Year, the IPA shall review the performance of the REC Deliveries made during such Delivery Year, using information provided in the REC Annual Report submitted pursuant to Section 6.3, and determine the amount of Aggregate Drawdown Payment due as follows:

- (i) for each Designated System that has been Energized and three (3) full Delivery Years have occurred since the start of the Delivery Term of such Designated System, the IPA shall calculate, with respect to a Delivery Year, a Delivery Year REC Performance for such Delivery Year (an example Delivery Year REC Performance calculation is provided in Exhibit F-2);
- (ii) with respect to a Designated System that has been Energized and three (3) full Delivery Years have occurred since the start of the Delivery Term of such Designated System, in the event that the Delivery Year REC Performance is greater than the applicable Delivery Year Expected REC Quantity, the difference in the number of RECs shall be the “Delivery Year Surplus Amount” and each REC included in the Delivery Year Surplus Amount shall be a “Surplus REC”;
- (iii) with respect to a Designated System that has been Energized and three (3) full Delivery Years have occurred since the start of the Delivery Term of such Designated System, in the event that the Delivery Year REC Performance is less than the applicable Delivery

Year Expected REC Quantity, the difference in the number of RECs shall be the “Delivery Year Shortfall Amount”;

(iv) for each Designated System that has a Delivery Year Shortfall Amount, starting with the Designated System with the lowest Contract Price, Surplus RECs from the Surplus REC Account shall be reduced and allocated to meet such Delivery Year Shortfall Amount, REC for REC. If there are insufficient Surplus RECs to meet the Delivery Year Shortfall Amount, then the number of RECs calculated as the difference between the Delivery Year Shortfall Amount and the sum of such Surplus RECs being applied to meet the Delivery Year Shortfall Amount is the “Drawdown REC Quantity”, and the multiplicative product of the Drawdown REC Quantity and the Contract Price of such Designated System is the “Drawdown Payment”; and

(v) at the end of the foregoing process:

(A) An Aggregate Drawdown Payment shall be calculated equal to the sum of the Drawdown Payments pursuant to Section 4.2(c)(iv) and Section 4.2(d) across all Designated Systems under this Agreement for such Delivery Year. If the Aggregate Drawdown Payment is less than \$5,000, the IPA will track such amount and add such amount to the Aggregate Drawdown Payment for the subsequent Delivery Year or Delivery Years until the earlier of: the last Delivery Year or such time when the Aggregate Drawdown Payment is at least \$5,000. If the Aggregate Drawdown Payment is equal to or greater than \$5,000, a list of the Drawdown Payment amounts by Designated System shall be provided by the IPA to Buyer. Based on the list provided by the IPA, Buyer shall inform Seller of the Aggregate Drawdown Payment (including any Drawdown Payment pursuant to Section 4.2(c)(iv) and any Drawdown Payment pursuant to Section 4.2(d)) by written notice. Buyer will draw upon the Performance Assurance in the amount of the Aggregate Drawdown Payment unless payment is received from Seller in the amount of the Aggregate Drawdown Payment within thirty (30) days of the written notice provided for in this subsection (A);

(B) For purposes of calculating the Delivery Year REC Performance in future Delivery Years, for each Designated System that has a Delivery Year Shortfall Amount for which such Delivery Year Shortfall Amount is covered by Surplus REC(s) and/or for which a payment from Seller or from Seller’s Performance Assurance has been applied to the Drawdown REC Quantity, such Designated System is deemed to have Delivered REC quantities equal to the Delivery Year Expected REC Quantity in each such Delivery Year accounted for in the Delivery Year REC Performance calculation that resulted in the Delivery Year Shortfall Amount.²³

(d) If a Designated System is a Community Renewable Energy Generation Project, such Designated System must maintain at least (i) the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and (ii) the percent of Actual Nameplate Capacity that has been Subscribed by End Use Customers as established pursuant to Section 2.6(a) or Section 2.6(c) after the issuance of the Community Solar First Year Report throughout the remainder of the Delivery Term. Subject to the provisions in Section 4.2(e) below, failure to maintain the percent of Actual Nameplate Capacity that has been

²³ As such, the REC Deliveries in each of the Delivery Years accounted for in the Delivery Year REC Performance (i.e., the 3-year rolling average) will be deemed to have the same REC Deliveries in each such Delivery Year (i.e., thereby netting out any specific year underperformance or overperformance) for purposes of calculating the Delivery Year REC Performance in future Delivery Years.

Subscribed by the Anchor Tenant and the percent of Actual Nameplate Capacity that has been Subscribed by End Use Customers (as provided in the Community Solar First Year Report submitted pursuant to Section 6.2) in a Delivery Year shall result in payment to Buyer from Seller of a monetary amount, determined by the IPA, and Buyer may draw on Seller's Performance Assurance for this purpose. For each Delivery Year after the issuance of the Community Solar First Year Report submitted pursuant to Section 6.2, then, using the REC Annual Report submitted under Section 6.3 and at the same time as the calculations made under Section 4.2(c) to the extent applicable²⁴: the Subscription share percentages of the Anchor Tenant and End Use Customers will each be calculated by the IPA as a daily average, then averaged over the Delivery Year. This daily average will be based on Subscription start and end dates comprised of the day that a Subscription start or end request was submitted to the utility, as entered in the REC Annual Report. The amount of the draw on Seller's Performance Assurance will be calculated as the sum of the following: (i) the difference between (a) the Community Solar Anchor Payment allocable to that Delivery Year and (b) the amount that would have been paid for the Anchor Tenant's Subscription share for that Delivery Year given the percent of Actual Nameplate Capacity that has been Subscribed by Anchor Tenant in that Delivery Year, if (a) exceeds (b); and (ii) the difference between (x) the Community Solar Non-Anchor Payment allocable to that Delivery Year and (y) the amount that would have been paid for the End Use Customers' Subscription share for that Delivery Year given the percent of Actual Nameplate Capacity that has been Subscribed by End Use Customers in that Delivery Year, if (x) exceeds (y).²⁵ (Provided, that the draw on Seller's Performance Assurance will simply equal the total payment allocable to that Delivery Year if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers in that Delivery Year is less than fifty percent (50%); but if this deficiency is due to the loss of an Anchor Tenant in the Delivery Year or a reduction in the percent of the Actual Nameplate Capacity being Subscribed by the Anchor Tenant, Seller shall have a specified period determined by the IPA from the end of the Delivery Year to cure the deficiency before such a draw is made.²⁶ If the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers for that Delivery Year is at least fifty percent (50%) at the end of such cure period, the draw on Seller's Performance Assurance will not be the total payment allocable to that Delivery Year, but instead shall be calculated as the sum of the following: (i) the difference between (aa) the Community Solar Anchor Payment allocable to that Delivery Year and (bb) the amount that would have been paid for the Anchor Tenant's Subscription share for that Delivery Year given the percent of Actual Nameplate Capacity that has been Subscribed by Anchor Tenant in that Delivery Year; and (ii) the difference between (xx) the Community Solar Non-Anchor Payment allocable to that Delivery Year and (yy) the amount that would have been paid for the End Use Customers' Subscription share for that Delivery Year given the percent of Actual Nameplate Capacity that has been Subscribed by End Use Customers in that Delivery Year, if (xx) exceeds (yy). For avoidance of doubt, (aa) shall be equal to (a) above, (bb) shall be equal to (b) above, (xx) shall be equal to (x) above, and (yy) shall be equal to (y) above. For purposes of this draw, the draw shall be delayed until after the conclusion of such cure period and the determination of the draw amount shall be communicated

²⁴ For avoidance of doubt, with respect to each Designated System, the calculations in Sections 4.2(c)(i)-(iv) are made only after three (3) full Delivery Years after Energization have occurred, while the calculations in Section 4.2(d) are made after one (1) full Delivery Year has occurred after the issuance of the Community Solar First Year Report if the Designated System is a Community Renewable Energy Generation Project.

²⁵ For avoidance of doubt, the calculations made in this Section 4.2(d) shall not take into account any adjustments made pursuant to Section 2.6(b) or Section 2.6(e). For purposes of calculating (a) the Community Solar Anchor Payment, (b) the Community Solar Non-Anchor Payment, (c) the amounts that would have been paid for the Anchor Tenant's Subscription share, and (d) the amounts that would have been paid for the End Use Customer's Subscription share required pursuant to this Section 4.2(d), the applicable Anchor Tenant Contract Price shall be applied to the share of the Actual Nameplate Capacity being Subscribed by the Anchor Tenant only, and the applicable Non-Anchor Tenant Contract Price shall be applied to the share of the Actual Nameplate Capacity being Subscribed by End Use Customers only.

²⁶ For avoidance of doubt, the cure period shall only be provided to Seller if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers in that Delivery Year is less than fifty percent (50%) of the Non-Anchor Nameplate Capacity due to the loss of an Anchor Tenant or a reduction in the percent of the Actual Nameplate Capacity being Subscribed by the Anchor Tenant in such Delivery Year. The allowance of a cure period is not afforded for any other reason.

by the IPA to Buyer and Seller).²⁷ This amount will be calculated in arrears for only the immediately preceding Delivery Year covered by the REC Annual Report. If the Designated System regains a Subscription percentage at or above their contracted amount in subsequent years, a drawdown under this Section 4.2(d) will not occur in those years; however, overperformance in a Delivery Year will not be banked or applied to past Delivery Years.

Any draw for a Designated System in a Delivery Year calculated pursuant to this Section 4.2(d) shall be a Drawdown Payment, in addition to any Drawdown Payments calculated under Section 4.2(c)(iv) above. Notwithstanding the foregoing, the Drawdown Payment pursuant to Section 4.2(c)(iv), if applicable, shall be calculated and accounted first before the calculation pursuant to Section 4.2(d) is made, and the sum of the Drawdown Payments calculated pursuant to Section 4.2(c)(iv) and Section 4.2(d) shall not exceed the total payment allocable to that Delivery Year based on the Subscription information indicated in the Community Solar First Year Report. Buyer shall include information on any Drawdown Payment amounts due pursuant to this Section 4.2(d) for a Delivery Year by written notice, which to the extent possible may be with the written notice specified in Section 4.2(c)(v)(A) above for that Delivery Year. For avoidance of doubt, no Surplus RECs can be applied to a Drawdown Payment pursuant to Section 4.2(d).

(e) Designated Systems with Subscription levels (including only Subscription shares of the Anchor Tenant and End Use Customers) of at least ninety percent (90%) of the Actual Nameplate Capacity on a kW capacity basis for a Delivery Year will not be subject to a draw on Seller's Performance Assurance for that Delivery Year on the basis of Subscription percentage. This calculation will only occur after the final Contract Price and quantity of RECs due payment are determined per Section 2.6(f) and will be based on that final Contract Price and quantity which is determined by the Community Solar First Year Report submitted pursuant to Section 6.2. Notwithstanding any of the foregoing, if the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers has decreased for a Delivery Year and such decrease is no more than three percentage points (3% points) relative to the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers as provided in the Community Solar First Year Report submitted pursuant to Section 6.2, then no draw shall occur pursuant to this Section 4.2(e) for such Delivery Year as long as the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers for the immediately following Delivery Year is at least equal to the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers as provided in the Community Solar First Year Report submitted pursuant to Section 6.2. In the event, the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers has decreased for a Delivery Year and such decrease is no more than three percentage points (3% points) relative to the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers as provided in the Community Solar First Year Report submitted pursuant to Section 6.2, and the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers for the immediately following Delivery Year is less than the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers as provided in the Community Solar First Year Report submitted pursuant to Section 6.2, then a draw shall be calculated for both Delivery Years consistent with the calculations laid out in Section 4.2(d) above.²⁸

²⁷ For avoidance of doubt, if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers is at least fifty percent (50%) at the end of the cure period, the calculation of the draw amount shall be based on the parameters for (a) and (x) as indicated in the Community Solar First Year Report and (b) and (y) as calculated for the immediately preceding Delivery Year. For further avoidance of doubt, neither (b) nor (y) shall be based on what was observed during the cure period. Further, if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers fails to be at least fifty percent (50%) at the end of the cure period, then the amount of the draw shall simply be equal to the total payment allocable to that Delivery Year.

²⁸ For example, if the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers as provided in the Community Solar First Year Report is 70%, and the combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers for

(f) During the Delivery Term, Seller may determine that a Designated System is not performing at the level expected. In such case, Seller may submit a request to Buyer and the IPA to have the Delivery obligations of such Designated System reduced, and if the request is accepted by Buyer, such request shall be in exchange for the return by Seller to Buyer of any amounts that have been paid by Buyer for RECs from such Designated System that were scheduled to be Delivered, but will no longer be Delivered due to the reduced Delivery obligations based on a revised Contract Nameplate Capacity and/or revised Contract Capacity Factor. Such request shall include pertinent information related to the payment adjustment as well as requested changes to future Delivery Year Expected REC Quantity and Contract Nameplate Capacity and/or Contract Capacity Factor. Any such request shall be deemed approved upon Buyer's receipt of such agreed upon payment adjustment, and information regarding the receipt of and the calculation of the agreed upon payment adjustment shall be communicated to the IPA. Any such changes in the delivery schedule and amendments made to future Delivery Year Expected REC Quantities and the Contract Nameplate Capacity and/or Contract Capacity Factor shall be documented in an amended Schedule B to the Product Order applicable to such Designated System issued by the IPA to Buyer and Seller.

(g) In the event that: (i) Seller, after the date of Energization, has determined that a Designated System will not or no longer will be able to Deliver compliant RECs to Buyer for a reason that is not due to Force Majeure pursuant to Section 10.1, including for an Abandoned Project, and provides a written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA of such determination or (ii) Seller fails to Deliver RECs from a Designated System during the Delivery Term for a period of twelve (12) months for a reason that is not due to Force Majeure pursuant to Section 10.1 and such failure was not remedied in accordance with the corrective action plan detailed pursuant to Section 6.3 to the satisfaction of the IPA in its reasonable discretion, the Designated System shall be removed from this Agreement. As soon as practicable after the occurrence of written notice by Seller in (i) or such failure by Seller to Deliver RECs in (ii), the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule B, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement. Upon such occurrence and removal, Buyer shall be entitled to payment by Seller in the amount of the Collateral Requirement associated with such Designated System calculated as of the date of the last REC Delivery from such Designated System, except as provided below for a Designated System that is an Abandoned Project. Further, if payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System, not to exceed the Designated System Contract Maximum REC Quantity.²⁹ With respect to an Abandoned Project, upon the removal of such Designated System from the Agreement, Seller may request for a refund of 25% of the Collateral Requirement associated with the Designated System in accordance with Section 7.1(f)(ii). Any such request shall be honored by Buyer within ten (10) Business Days.

the fifth Delivery Year during the Delivery Term falls below 70% for the first time to 67%, then no draw shall occur pursuant to Section 4.2(e) for such Delivery Year as long as the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers for the sixth Delivery Year during the Delivery Term is at least equal to 70%. If, for example, the total combined percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and by End Use Customers for the sixth Delivery Year is 68%, then a draw shall occur for each of the fifth and sixth Delivery Years based on Seller achieving only a 67% Subscription rate in the fifth Delivery Year and only 68% Subscription rate in the sixth Delivery Year. For avoidance of doubt, the two draws in this example shall occur pursuant to Section 4.2(c)(v)(A) at the conclusion of the annual review process for the sixth Delivery Year. For further avoidance of doubt, the draw for the sixth Delivery Year in this example shall be final and not subject to a refund or credit regardless of whether a Subscription rate of at least 70% is achieved for the seventh Delivery Year or a subsequent Delivery Year.

²⁹ Specifically, if payments, including any Advance of Capital, have been made to Seller with respect to a Designated System, and the number of RECs Delivered from such Designated System is less than the Designated System Paid REC Quantity, then with respect to such Designated System, Seller shall return a portion of the amount of payment equal to the multiplicative product of (A) the Contract Price and (B) the positive difference between (i) the Designated System Paid REC Quantity using the Contract Price and (ii) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

(h) Surplus RECs are virtually tracked in the Surplus REC Account and shall remain, except as provided in Section 13.1, in such account until a reduction in such Surplus RECs is recorded by the IPA to meet a Delivery Year Shortfall Amount.

(i) Upon the conclusion of the annual review process pursuant to Section 4.2(c) above for the last Delivery Year under this Agreement, if (i) there are Surplus RECs remaining in the Surplus REC Account and (ii) a Drawdown Payment calculated under Section 4.2(c)(iv) above has occurred during the Term of this Agreement, then the IPA shall calculate a monetary refund adjustment due to Seller from Buyer. Buyer shall credit Seller for each Surplus REC that can be applied to a REC associated with a Drawdown Payment referred to in the first sentence of this Section 4.2(i). For purpose of calculating the refund, Surplus RECs from the Surplus REC Account shall be reduced and applied to the RECs that are associated with a Drawdown Payment, starting with the REC with the lowest Contract Price, REC for REC. The monetary refund adjustment shall be paid from Buyer to Seller by December 31 following the conclusion of the last annual review process. For avoidance of doubt, no refund shall be made for any Drawdown Payment calculated pursuant to Section 4.2(d), and no payment shall be made for any Surplus RECs that remain in the Surplus REC Account after the refund adjustment is calculated.

ARTICLE 5: PAYMENT AND INVOICING

5.1 Invoicing.

This Agreement may include multiple Quarterly Payment Cycles, but each Designated System shall be associated with only one (1) Quarterly Payment Cycle.

If there are outstanding amounts eligible for payment by Buyer to Seller during the Term of this Agreement, Seller shall render to Buyer an invoice by electronic mail for the payment obligations of Buyer to Seller on or after the first (1st) day, but no later than the tenth (10th) day of the first month in a Quarterly Period of a Quarterly Payment Cycle. Specifically, with respect of a Quarterly Payment Cycle, invoices are to be submitted no later than the following dates (each an “Invoice Due Date”):

- (a) For Payment Cycle A, the 10th of the month of January, April, July or October;
- (b) For Payment Cycle B, the 10th of the month of February, May, August or November;
- (c) For Payment Cycle C, the 10th of the month of March, June, September or December.

With respect to a Quarterly Payment Cycle, no more than one (1) invoice will be processed for payment per Quarterly Period of the Quarterly Payment Cycle. If Seller fails to render an invoice by the Invoice Due Date, no payment will be processed for that Quarterly Period. For any amounts associated with late invoices, those amounts shall be eligible to be included in the following Quarterly Period’s invoice for subsequent payment. Buyer shall not be obligated to pay any invoice that is delivered more than six (6) months after the end of the Term of this Agreement.

Each invoice, with respect to a Quarterly Payment Cycle, shall include: (a) the invoice amount, (b) the cumulative amount previously invoiced by Seller under such Quarterly Payment Cycle, (c) the Maximum Allowable Payment indicated in the most recent Quarterly Netting Statement for such Quarterly Payment Cycle, (d) the applicable PJM-EIS GATS and/or M-RETS Unit IDs of Designated Systems that have been Energized and (e) any unpaid amounts owed to Buyer by Seller as of the date of the invoice. Such unpaid amounts are to be listed out by the Designated System(s) they pertain to and netted against the invoice amount to be paid by Buyer to Seller. In the event that payments are due to Buyer, Seller may request that Buyer issue an invoice to Seller for documentary purposes.³⁰

³⁰ For example, payments could be due to Buyer from Seller pursuant to Section 5.7(c).

For a Quarterly Payment Cycle, the IPA shall endeavor, on a commercially reasonable efforts basis, to issue to Seller and Buyer such Quarterly Netting Statement specifying the Maximum Allowable Payment under such Quarterly Payment Cycle by the first (1st) Business Day of the month following the date of Energization of a Designated System or following the conclusion of a Quarterly Period if there is a change to the Maximum Allowable Payment that can be made under such Quarterly Payment Cycle since the last issuance of the Quarterly Netting Statement for such Quarterly Payment Cycle.

For purposes of payment, the Quarterly Netting Statement will reflect a one-time full payment of one hundred percent (100%) of the REC Purchase Payment Amount calculated at time of Energization associated with a Designated System, which payment calculation shall also be subject to adjustments in accordance with the terms of this Agreement, including (without limitation) Section 2.6. An example of the Quarterly Netting Statement calculations is provided in Exhibit F-4. If the Quarterly Netting Statement includes a Designated System that is a Community Renewable Energy Generation Project, then the Quarterly Netting Statement shall also include information related to any payment adjustments pursuant to Section 2.6.

Further, with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable), the foregoing shall be subject to Section 5.7 below.

5.2 Payment.

All invoices, timely submitted, under this Agreement shall be payable and due on the last Business Day of the month in which the invoice is rendered or the last Business Day of the following month if the payment is the first payment made under this Agreement; provided that all Seller's invoices must be accompanied by the latest Quarterly Netting Statement applicable to the Quarterly Payment Cycle issued to Seller by the IPA and the invoice amount shall not cause the payment to be made to cumulatively exceed the Maximum Allowable Payment applicable to the Quarterly Payment Cycle as specified in such Quarterly Netting Statement. All payments by Buyer are subject to Section 5.4.

Buyer will make payments in accordance with the applicable invoice instructions by electronic funds transfer, or by other mutually agreed methods, to the account designated in Exhibit B.

Further, with respect to a Designated System that are in the Low-Income Single-Family and Small Multifamily Solar sub-program for which Advance of Capital is applicable as indicated in Schedule A (and Schedule B, if applicable), the foregoing shall be subject to Section 5.6 below; and with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable), the foregoing shall be subject to Section 5.7 below.

5.3 Disputes on Invoices.

If the invoice amount is in dispute and such dispute is unresolved within five (5) Business Days following the Invoice Due Date, then the undisputed amount will be paid on or before the last Business Day of the month in which the invoice is rendered or the last Business Day of the following month if the payment is the first payment made under this Agreement.

Buyer may, in good faith, dispute the correctness of any invoice within six (6) months after receipt of such invoice. Any invoice dispute must be in writing and state the basis for the dispute, which must be made in good faith. Subject to Section 9.5, a Party may withhold payment of the disputed amount until two (2) Business Days following the resolution of the dispute, and any amounts not paid when originally due and subsequently determined to be due and payable will bear interest at the Default Rate from the due date as originally invoiced.

Any undisputed amounts not paid by the applicable due date are delinquent and will accrue interest at the Default Rate. Inadvertent overpayments will be returned upon request or credited by the Party receiving such overpayment against amounts subsequently due from the other Party. Any dispute with respect to an invoice is waived unless the disputing Party notifies the other Party in accordance with this Section 5.3 within six (6) months after the invoice is rendered. If final resolution of the dispute is not completed within sixty (60) days after notification of the dispute, the Parties shall be free to pursue any available legal or equitable remedy.

5.4 Cost Recovery.

Buyer is allowed to recover all costs and other amounts incurred under the Agreement from its customers pursuant to a pass-through tariff that is authorized by Section 16-111.5(l) of the Illinois Public Utilities Act (220 ILCS 5/16-111.5(l)) and approved by the ICC. If Buyer is not allowed to or cannot recover such costs, then, notwithstanding anything to the contrary in the Agreement, the obligations of both Seller and Buyer, including Delivery of and payment for RECs, shall be suspended upon written notice from Buyer to Seller until Buyer provides written notice to Seller that Buyer is able to recover all of its costs under this Agreement through its pass-through tariff, whereupon the respective rights and obligations of the Parties under this Agreement shall resume as of the effective date indicated in such notice (pro-rated, as applicable, based on the duration of such suspension). During any such Suspension Period, Seller shall have no obligations to Buyer with respect to RECs from the Designated System(s) except for RECs that have already been paid. If the Suspension Period continues for more than three hundred sixty-five (365) consecutive days, then Seller may terminate this Agreement and if the Suspension Period continues for more than seven hundred thirty (730) consecutive days, then Buyer may terminate this Agreement. No Settlement Amount or Termination Payment shall be due from or to either Party as a result of any such termination.

As provided by Section 1-75(c)(1)(E-5) of the IPA Act, Seller shall be entitled to full, prompt, and uninterrupted payment under this Agreement, so long as at least one of the following is met: (i) the cost recovery mechanisms referenced in subsection (k) of Section 16-108 and subsection (l) of Section 16-111.5 of the Public Utilities Act remains in full force without limitation; or (ii) Buyer is otherwise authorized and or entitled to full, prompt, and uninterrupted recovery of its costs through any other mechanism.

5.5 Taxes and Fees.

Seller will be responsible for any taxes imposed on the creation, ownership, or transfer of Product under this Agreement up to and including the time and place of its Delivery. Buyer will be responsible for any taxes imposed on the receipt or ownership of Product at or after the time and place of its Delivery. Each Party will be responsible for the payment of any fees incurred by it in connection with any Transactions hereunder.

5.6 Advance of Capital Invoicing and Payment.

This section applies to Designated Systems that are in the Low-Income Single-Family and Small Multifamily Solar sub-program as indicated in Schedule A (and Schedule B, if applicable) to the Product Order.

(a) If a Designated System is under the Low-Income Single-Family and Small Multifamily sub-program where Advance of Capital is applicable, Schedule A to the Product Order for such Designated System shall indicate the Advance of Capital amount requested by Seller in its SFA Part I Application. Such amount requested shall be subject to the approval of the IPA.

(b) If such Advance of Capital is approved by the IPA, the IPA shall provide to Buyer and Seller written notice of such approval and a revised Schedule A to the Product Order for such Designated System indicating the date of approval for the payment of the Advance of Capital by Buyer to Seller, and the amount approved by the IPA for disbursement.

(c) On or after the date of such written notice by the IPA, Seller shall render to Buyer an invoice by electronic mail for the Advance of Capital amount on or after the first (1st) day, but no later than the tenth (10th) day of any month after the date of such written notice. All invoices, timely submitted, under this Section 5.6 shall be payable and due on the last Business Day of the month in which the invoice is rendered or the last Business Day of the following month if the payment is the first payment made under this Agreement; provided that Seller's invoice for the Advance of Capital amount is accompanied by the IPA's written notice approving the payment of such amount.

For avoidance of doubt, the payment of such Advance of Capital amount may occur prior to the Energization of the Designated System; and in such case, the Advance of Capital amount is not included in the Maximum Allowable Payment in any Quarterly Netting Statement and no Quarterly Payment Cycle is assigned to such Designated System until such Designated System is Energized. Notwithstanding the foregoing in Section 5.1 and Section 5.2, any invoice for the Advance of Capital shall be invoiced separately, and there is no requirement for such invoice to be accompanied by a Quarterly Netting Statement. Any invoice for the Advance of Capital amount with respect to a Designated System that is rendered after the date of Energization shall be processed based on the Quarterly Payment Cycle associated with such Designated System in accordance with Section 5.1 and Section 5.2.

(d) Upon Energization, the IPA shall prepare and complete Schedule B to the Product Order for such Designated System in accordance with Section 2.4(e) indicating the Advance of Capital amount previously approved by the IPA and which Quarterly Payment Cycle the Designated System is associated with; such Schedule B to the Product Order shall be included with a Quarterly Netting Statement. The Maximum Allowable Payment with respect to the Quarterly Payment Cycle will be the sum of payments that can be made at that point in time across payments associated with RECs from all Designated Systems under such Quarterly Payment Cycle that have been Energized in accordance with Section 1.74.

In this case, with respect to the portion of the Maximum Allowable Payment associated with such Designated System, the Maximum Allowable Payment will reflect (a) the initial Advance of Capital amount and (b) the remaining balance of the REC Purchase Payment Amount associated with such Designated System upon Energization.

(e) The Advance of Capital, if received by Seller, shall be deemed pre-payment for compliant RECs from the Designated System, and any event that leads to a removal of such Designated System shall require Seller to return such amount to Buyer associated with compliant RECs that are not Delivered by Seller. For avoidance of doubt, if Seller fails to return such Advance of Capital (or portion thereof as applicable), Seller's Performance Assurance will be drawn to apply to such repayment of Advance of Capital in accordance with Section 7.1(h).

5.7 Energy Sovereignty.

This section applies to each Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B, if applicable) to the Product Order. For avoidance of doubt, this section does not apply to a Designated System that is a Community Renewable Energy Generation Project.

(a) Upon Energization, with respect to such Designated System, Seller shall be entitled to payment that reflects a one-time full payment of one hundred percent (100%) of the REC Purchase Payment Amount as indicated in Schedule B to the Product Order. Seller shall render to Buyer an invoice by electronic mail for such amount in accordance with Section 5.1 and Buyer shall pay Seller in accordance with Section 5.2. For avoidance of doubt, the Contract Price used in the REC Purchase Payment Amount shall be calculated in accordance with Section 1.27 and shall include an ES Price Adder for RECs associated with the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date. An example of the Energy Sovereignty Payment calculation is provided in Exhibit F-6-A.

(b) With respect to a Designated System, the ownership must be transferred to an eligible customer such that such Designated System achieves Energy Sovereignty by the Energy Sovereignty Proposed Transfer Date. Such transfer of ownership must be documented and provided by Seller to Buyer and the IPA within thirty (30) days of such transfer. For avoidance of doubt, a transfer of ownership that allows a Designated System to achieve Energy Sovereignty prior to the Energy Sovereignty Proposed Transfer Date shall not entitle Seller to a payment in excess of the Energy Sovereignty Payment.

(c) If Seller fails to transfer the ownership by the Energy Sovereignty Proposed Transfer Date, an automatic 2-year grace period will be granted for such transfer to occur subject to the following payment adjustment provision. If a transfer of ownership of the Designated System that allows a Designated System to achieve Energy Sovereignty occurs within two (2) years after the Energy Sovereignty Proposed Transfer Date, Buyer shall be entitled to payment by Seller in the amount equal to the multiplicative product of (A) ES Price Adder, (B) the Designated System Contract Maximum REC Quantity and (C) the unrounded result obtained by dividing (i) the result obtained by subtracting the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the actual date of ownership transfer (as determined by the IPA) from the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date by (ii) the number of days in the Energy Sovereignty Calculation Period. A transfer of ownership that allows a Designated System to achieve Energy Sovereignty must be documented and provided by Seller to Buyer and the IPA within thirty (30) days of such transfer. The payment adjustment calculation shall be calculated by the IPA, and such calculation shall be provided by the IPA to Buyer and Seller as soon as practicable after the receipt of Seller's documentation to the IPA. Seller's payment to Buyer shall be due within thirty (30) days of receipt of the IPA's notice. For avoidance of doubt, any payment adjustment pursuant to this Section 5.7(c) shall not affect the calculation of the Contract Price and shall not change the Contract Price. An example of the Energy Sovereignty Payment adjustment calculation is provided in Exhibit F-6-B.

(d) If the IPA is unable to verify a transfer of ownership of the Designated System that allows a Designated System to achieve Energy Sovereignty by the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date or if Seller, prior to the date that is two (2) years after the Energy Sovereignty Proposed Transfer Date, has determined that such ownership transfer will not occur within two (2) years after the Energy Sovereignty Proposed Transfer Date pursuant to Section 5.7(c) and provides a written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA of such determination, then the Designated System shall be removed in accordance with Section 2.7(c).

5.8 Stranded Customer REC Adder.

This section applies to a Designated System for which a Stranded Customer REC Adder is applicable as indicated in Schedule A or Schedule B to the Product Order.

(a) If a Designated System has been assigned to Seller from another agreement, and payments have been previously made for RECs from such Designated System, then a one-time true up adjustment for such payment shall be made to Seller from Buyer (the "Stranded Customer REC Adder True-Up Adjustment"). The amount of the Stranded Customer REC Adder True-Up Adjustment shall be equal to the multiplicative product of (i) Stranded Customer REC Adder and (ii) number of RECs associated with prior payments, which shall be no greater than the Designated System Contract Maximum REC Quantity. For such Stranded Customer REC Adder True-Up Adjustment, Seller shall render to Buyer an invoice by electronic mail for the Stranded Customer REC Adder True-Up Adjustment amount on or after the first (1st) day, but no later than the tenth (10th) day of any month after the effective date of the Product Order associated with such Designated System. All invoices, timely submitted, under this Section 5.8(a) shall be payable and due on the last Business Day of the month in which the invoice is rendered or the last Business Day of the following month if the payment is the first payment made under this Agreement; provided that Seller's invoice for the Stranded Customer REC Adder True-Up Adjustment amount is accompanied by the IPA's written notice approving the payment of such amount. For avoidance of doubt, if further payments are to be made for RECs from such Designated System, then invoicing and payment shall follow the

Quarterly Payment Cycle associated with the Designated System in accordance with Sections 5.1 and 5.2.

(b) Stranded Customer REC Adder True-Up Adjustment shall not be applicable to a Designated System for which no previous payments associated with RECs from such Designated System have been made. For such Designated System, invoicing and payment shall follow the regular Quarterly Payment Cycle as indicated in Sections 5.1 and 5.2.

ARTICLE 6: REPORTING REQUIREMENTS

6.1 Bi-Annual System Status Report Applicable to All Designated Systems Greater than 25 kW That Are Not Yet Energized.

For each Designated System that is not yet Energized and where the Proposed Nameplate Capacity is greater than 25 kW, Seller shall provide to Buyer and the IPA a Bi-Annual System Status Report substantially in the form of Exhibit C-1 bi-annually starting six (6) months from the Trade Date of the applicable Product Order that includes the Designated System.

6.2 Community Solar First Year Report Applicable to Community Renewable Energy Generation Projects That Are Energized.

For each Community Renewable Energy Generation Project that is Energized, and after the conclusion of four (4) full Quarterly Periods after Energization, Seller shall provide to Buyer and the IPA a Community Solar First Year Report substantially in the form of Exhibit C-2 on or after the first (1st) day of the month, but no later than the tenth (10th) day of the month immediately succeeding the conclusion of the fourth Quarterly Period after Energization. Such Community Solar First Year Report shall indicate the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and End Use Customers.³¹

6.3 REC Annual Report.

Seller shall submit to Buyer and the IPA a REC Annual Report substantially in the form of Exhibit C-3 by August 1 following the end of each Delivery Year for which this Agreement is effective.³² For avoidance of doubt, the REC Annual Report is required by Seller regardless of whether Seller has Designated Systems that are Energized or not. If items on the REC Annual Report are deficient or require clarification, Buyer or the IPA may issue to Seller a written notice requesting clarification regarding such submission, and Seller must respond to such request by the deadline specified in such written notice, or by the extended deadline if an extension is requested by Seller and granted by the IPA. Additional request for clarifications may be issued to Seller based on the responses provided. It is Seller's responsibility to ensure the accuracy and completeness of information contained in its REC Annual Report. Buyer or the IPA shall endeavor, on a commercially reasonable efforts basis, to notify Seller of any deficiency no later than October 18. In no event will Seller be allowed to provide further clarification on its REC Annual Report after October 30 following such submission deadline of the REC Annual Report. Failure by Seller to submit its REC Annual Report or respond to any request for clarifications that comply with the requirements of Exhibit C-3 by October 30 following such submission deadline is an Event of Default. As part of the REC Annual Report, Seller shall report on any Designated Systems that have not Delivered a first REC, and report on any Designated Systems that have not Delivered RECs for more than twelve (12) months from their previous Delivery, and in such case, detail the corrective actions that will be taken to ensure future Deliveries and the time for such REC Deliveries. All corrective actions shall be approved by the IPA, and failure to remedy

³¹ For example, if a Community Renewable Energy Generation Project is Energized on May 15, 2027 and assigned Payment Cycle C, then the Community Solar First Year Report would be due on June 10, 2028 for the period commencing May 15, 2027 through May 31, 2028.

³² For example, if the effective date of the Agreement falls between June 1 and August 1 of a calendar year, then the first REC Annual Report is to be submitted by August 1 of the following year.

such REC Delivery deficiency may lead to the removal of the Designated System pursuant to Section 4.2(g).

6.4 Prevailing Wage Act Requirements.

This section applies to Designated System(s) that are subject to the requirements of the Prevailing Wage Act as indicated in Schedule A (and Schedule B, if applicable) to the Product Order.

Seller, including its contractors and subcontractors, rendering services under this Agreement with respect to such Designated System(s), must comply with the requirements of the Prevailing Wage Act, including but not limited to, all wage requirements and notice and record keeping duties. The Prevailing Wage Act requires Seller, including its contractors and subcontractors, to pay laborers, mechanics and other workers employed in construction activities related to the Designated System an amount equal to or greater than the current “general prevailing rate of hourly wages,” in the applicable trade classification, as defined in the Prevailing Wage Act. The Parties acknowledge that the IPA has provided to the Parties the Illinois Department of Labor’s website address (<http://labor.illinois.gov/>) as a source of information for the general prevailing rate of hourly wages. The Illinois Department of Labor regularly revises the general prevailing rate of hourly wages available on its website.

If the requirements of the Prevailing Wage Act are applicable to the Designated System, Seller shall provide to the IPA documentation and verification demonstrating that all construction work performed by Seller, including its contractors and subcontractors, relating to construction, maintenance, repair, assembly, or disassembly work in relation to the Designated System has been performed by employees who received an amount equal to or greater than the “general prevailing rate of hourly wages,” in the applicable trade classification, as defined in the Prevailing Wage Act. Such documentation and verification include, but are not limited to, the certified transcripts of payroll required to be filed with the Illinois Department of Labor.

Such documentation and verification must be provided to the IPA with Seller’s SFA Part II Application and must be submitted to the Illinois Department of Labor per the requirements of the Prevailing Wage Act. Seller is responsible for and shall provide such documentation and verification throughout the term of this Agreement to the IPA for any applicable work performed in a Delivery Year subsequent to Seller’s submission of the SFA Part II Application, which shall be provided no later than August 1 following the end of such Delivery Year. Seller’s failure to provide such documentation or verification in a timely manner may be deemed non-compliant with Section 2.2(d) and subject to the provisions in Section 2.2 for such non-compliance.

6.5 Project Labor Agreement Requirements

Project Labor Agreement requirements would apply if a Designated System is a Community Renewable Energy Generation Project where the aggregate Nameplate Capacity, including where such Designated System is colocated with one or more other Community Renewable Energy Generation Project(s), exceeds 3,000 kW regardless of whether the applicability of such requirements are indicated in Schedule A or Schedule B to the Product Order.³³

The Designated System shall be built by General Contractors that have entered into a Project Labor Agreement prior to construction. That Project Labor Agreement shall be filed with the Director of the IPA, who shall determine whether the Project Labor Agreement meets the requirements of the IPA Act and the Project Labor Agreements Act.

The Project Labor Agreement shall provide the names, addresses, and occupations of the owner of the Designated System and the individuals representing the labor organization employees participating in the Project Labor Agreement consistent with the Project Labor Agreements Act.

³³ For avoidance of doubt, all Distributed Renewable Energy Generation Devices are exempt from such Project Labor Agreement requirements.

Each Project Labor Agreement and any amendments thereto shall be filed with the Director of the IPA in accordance with procedures and timeline established by the IPA. Seller shall inform the IPA of the start date of the Designated System's construction as soon as practicable, but no later than the Project Labor Agreement submission deadline established by the IPA pursuant to the aforementioned sentence. Seller shall work constructively with the IPA to file such Project Labor Agreements in accordance with procedures established by the IPA. It is the sole responsibility of Seller to understand the Project Labor Agreements requirement under the Project Labor Agreements Act and to ensure compliance thereof. For avoidance of doubt, compliance with the requirements of the Project Labor Agreements Act shall be the sole responsibility of Seller and not Buyer or the IPA; and Seller shall hold Buyer and the IPA harmless of any non-compliance thereof.

Seller's failure to provide such Project Labor Agreements that remains uncured after notice by the IPA and a cure period of not less than 20 Business Days (or such longer time reasonably required to investigate and correct such material violation) and amendments in a timely manner or Seller's material violation of the terms of such Project Labor Agreements and amendments shall be deemed non-compliant with Section 2.2(e) and subject to the provisions in Section 2.2 for such non-compliance.

6.6 Deadlines.

All reports shall be due on the deadline specified, or the next Business Day if such specified due date is not a Business Day.

ARTICLE 7: CREDIT AND COLLATERAL REQUIREMENTS; PERFORMANCE ASSURANCE

7.1 Performance Assurance.

(a) **Seller's Performance Assurance.** Performance Assurance requirement is applicable with respect to Seller, but not with respect to Buyer. Seller shall be required, within thirty (30) Business Days of the Trade Date of a Product Order, to post Seller's Performance Assurance through either the: (i) posting of a Letter of Credit; or (ii) posting of cash collateral in the amount indicated as the initial Performance Assurance Requirement on such Product Order with Buyer. For avoidance of doubt, Seller's Performance Assurance with respect to a Designated System is required regardless of whether such Designated System is Energized as of the Trade Date or Energized within the thirty (30) Business Day period after the Trade Date. Notwithstanding the foregoing, the amount required to be posted within such 30-Business Day period shall be reduced by any amounts for which the IPA has approved for a portion of REC payments to be withheld as Performance Assurance pursuant to Section 7.1(d) below; any such amounts approved by the IPA to be posted on a deferred basis pursuant to Section 7.1(d) shall be included in the calculation of the initial Performance Assurance Requirement indicated in the Product Order and such deferred amounts shall be noted in the "Additional Notes" section of the Product Order.

(b) **Performance Assurance Requirement.** The amount of Performance Assurance to be posted with respect to any Product Order in effect shall be equal to the sum of the Collateral Requirement across all Designated Systems included in such Product Order. The total amount of Performance Assurance to be posted under this Agreement shall be equal to the sum of the Collateral Requirement across all Designated Systems included in this Agreement ("Performance Assurance Requirement"). The actual amount posted by Seller and held by Buyer is the Performance Assurance Amount, which shall be required to be at least equal to the Performance Assurance Requirement. Notwithstanding the foregoing, if there is an increase in the Collateral Requirement for a Community Renewable Energy Generation Project in the payment adjustment pursuant to Sections 2.6(a)-(b), Seller shall not be required to post additional Performance Assurance Amount at the time of such payment adjustment.

(c) **Option to Withhold Payment to Reduce Letter of Credit Amount.** In the event that Seller has posted Seller's Performance Assurance in the form of a Letter of Credit, Seller may request for Buyer to withhold a portion of the REC payment of a Designated System as Seller's Performance Assurance in exchange for a Letter of Credit amount reduction. Seller's written request must be made by the applicable Invoice Due Date along with an invoice requesting for payment to be applied to Seller's Performance Assurance Requirement.³⁴ With respect to a Designated System for which Seller elects to withhold a portion of the REC payment to reduce the Letter of Credit amount, Buyer shall withhold an amount equal to the Collateral Requirement from the REC payment associated with such Designated System and Buyer shall apply the withheld payment to the Performance Assurance Requirement on the date the REC payment is scheduled to be made. Buyer shall return the Performance Assurance in the amount of the Collateral Requirement upon receipt of a Letter of Credit amendment for the reduced amount from Seller, or cancel the Letter of Credit if the withheld amount of such REC payment is equal to or exceeds the Letter of Credit amount.

(d) **Option to Withhold Payments for Collateral Requirement for SEB.** If Seller is an SEB, Seller may request for Buyer to withhold a portion of the REC payment(s) of a Designated System as Seller's Performance Assurance. If such request is approved, such approval shall be indicated in Schedule A (and Schedule B, if applicable) to the Product Order. With respect to a Designated System for which the IPA has approved for a portion of REC payments to be withheld as Performance Assurance, Buyer shall withhold an amount, including any Advance of Capital if applicable, equal to the Collateral Requirement calculated at the time of the Trade Date as specified in Schedule A to the Product Order with respect to such Designated System and Buyer shall apply the withheld payment(s) to the Performance Assurance Requirement on the date such payments are scheduled to be made. The date of such payment and the amount applied as Seller's Performance Assurance shall be indicated in a revised Schedule A (and Schedule B, if applicable) to the Product Order as soon as practicable after the date of each such payment when the payment has been applied to Seller's Performance Assurance. For avoidance of doubt, if a Designated System is removed prior to the application of REC payments to satisfy the Collateral Requirement of such Designated System, Seller shall remain responsible for any amounts due to Buyer associated with the removal of such Designated System.

(e) **Maintenance of Seller's Performance Assurance Requirement.** In the event Buyer draws on Seller's Performance Assurance pursuant to Section 4.2(c)(v)(A) (or as otherwise provided herein), Seller shall be required, within ninety (90) days of such drawing, to post as Seller's Performance Assurance additional collateral to maintain or restore the Performance Assurance Requirement. Should payment be due to Seller during this ninety (90) day period, Seller may request for a portion or all of the payments to be withheld, and if so requested, Buyer shall withhold such payments, to maintain such Performance Assurance Requirement.

(f) **Return of Seller's Performance Assurance and Reduction in Performance Assurance Amount.** For avoidance of doubt, unless provided elsewhere, Seller's Performance Assurance once posted will be held by Buyer through the annual review process pursuant to Section 4.2(c) of the Designated System with the latest Delivery Term expiry date within a Product Order in accordance with Section 7.1(f)(iv) and Section 7.1(f)(v) below. The Performance Assurance Amount held by Buyer may exceed the Performance Assurance Requirement and shall not be reduced unless:

- (i) Buyer withholds REC payment of a Designated System pursuant to Section 7.1(c) and/or Section 7.1(e) and applies such withheld payment to the Performance Assurance Requirement, in which case the Performance Assurance Amount that is attributable to such Designated System shall be reduced to be commensurate with such Designated System's Collateral Requirement calculated on the day such payment is withheld;

³⁴ The sample invoice prepared by the IPA for Seller's convenience may not account for any election that Seller may make related to the option to withhold payment in exchange for a reduction in the letter of credit amount. Seller is responsible for ensuring the information included in Seller's invoice to Buyer is correct.

- (ii) Buyer refunds a portion of Seller's Performance Assurance Amount in accordance with the terms of this Agreement, including but not limited to Section 2.4(b)(iii), Section 3.6, Section 4.2(g), Section 7.2, Section 10.1, Section 11.1 and Section 13.1. For purposes of making a refund associated with the removal of the Designated System regardless of whether such Designated System has been Energized or not, except in the case of a refund pursuant to Section 4.2(g) as described below, the amount to be refunded shall be equal to Collateral Requirement indicated in the relevant Schedule A to Product Order less any Drawdown Payments associated with such Designated System that have been made during the Delivery Term of such Designated System³⁵ (provided that the requested refund amount shall not cause the Performance Assurance Amount to be less than the Performance Assurance Requirement calculated for Designated Systems that remain under the Agreement; otherwise, the maximum amount that could be refunded shall be equal to the Performance Assurance Amount less the Performance Assurance Requirement calculated for Designated Systems that remain under the Agreement). For purposes of making a refund associated with the removal of the Designated System pursuant to Section 4.2(g), Buyer shall first be entitled to payment in the amount of 75% of the Collateral Requirement as indicated in the relevant Schedule A to Product Order prior to calculating the amount to be refunded to Seller. The amount to be refunded shall be equal to the multiplicative product of (a) the Collateral Requirement indicated in the relevant Schedule A to Product Order and (b) 25%, less any Drawdown Payments associated with such Designated System that have been made during the Delivery Term of such Designated System (provided that the requested refund amount shall not cause the Performance Assurance Amount to be less than the Performance Assurance Requirement calculated for Designated Systems that remain under the Agreement; otherwise, the maximum amount that could be refunded shall be equal to the Performance Assurance Amount less the Performance Assurance Requirement calculated for Designated Systems that remain under the Agreement);
- (iii) Buyer draws on Seller's Performance Assurance pursuant to Section 4.2(c)(v)(A) and Seller is required to post as Seller's Performance Assurance additional collateral, in which case the total amount to be maintained as Seller's Performance Assurance Requirement would be the Performance Assurance Requirement calculated after such drawing for the date on which additional collateral is due based upon the Designated Systems then covered by this Agreement. For avoidance of doubt, if no additional collateral is required to be posted, and the Performance Assurance Requirement to be maintained is less than the Performance Assurance Amount held by Buyer, then the excess amount is not returned to Seller;
- (iv) Upon the completion of the last annual review process pursuant to Section 4.2(c) for all Designated Systems in a Product Order and after the expiry of the Delivery Term of the Designated System with the latest Delivery Term expiry date within a Product Order, Seller may request for the reduction of a portion of the Performance Assurance Amount attributable to all Designated Systems included in such Product Order. With respect to such Product Order in the foregoing, the portion of the Performance Assurance Amount that could be reduced shall be equal to the initial Performance Assurance Requirement indicated in such Product Order (i) less the sum of the Collateral Requirement associated with Designated Systems in such Product Order that were previously removed and (ii) less the sum of the Drawdown Payments associated with Designated Systems included in such Product Order that have been made during the Delivery Term of such Designated Systems (provided that the requested reduced amount shall not cause the Performance Assurance Amount to be less than the Performance Assurance Requirement calculated for

³⁵ For avoidance of doubt, if such Designated System has not been Energized, then this shall simply be the Collateral Requirement indicated in Schedule A to Product Order.

Designated Systems that remain under the Agreement; otherwise, the maximum amount that could be refunded shall be equal to the Performance Assurance Amount less the Performance Assurance Requirement calculated for Designated Systems that remain under the Agreement). Any such request (along with any Letter of Credit amendment if applicable) shall be honored by Buyer within thirty (30) days. Notwithstanding the foregoing, if a Product Order is for Community Renewable Energy Generation Project(s), then with respect to such Product Order, this Section 7.1(f)(iv) shall apply when all (but not fewer than all) Designated Systems in such Product Order have each completed the annual review process pursuant to Section 4.2(c) following the tenth (10th) Delivery Year that falls (fully or partially) within the Designated System's Delivery Term;³⁶ and

- (v) Upon the completion of the last annual review process pursuant to Section 4.2(c) for all Designated Systems included in the last Product Order under this Agreement, Seller may request for the return of any remaining Performance Assurance Amount. Any such request (along with any Letter of Credit amendment if applicable) shall be honored by Buyer within thirty (30) days. Notwithstanding the foregoing, if such last Product Order under this Agreement is for Community Renewable Energy Generation Project(s), then this Section 7.1(f)(v) shall apply when all Designated Systems in such Product Order have completed the annual review process pursuant to Section 4.2(c) related to the 10th Delivery Year within each Designated System's Delivery Term.

(g) For avoidance of doubt, if the Collateral Requirement of a Designated System is forfeited under this Agreement, then the portion of Seller's Performance Assurance Amount attributable to such Designated System equal to such Collateral Requirement shall be removed and cease to be considered as Seller's Performance Assurance, and any Performance Assurance Amount attributable to such Designated System that is in excess of the Collateral Requirement shall be returned to Seller; however, any such return of excess Collateral Requirement to Seller shall not cause the Performance Assurance Amount remaining to be less than the Performance Assurance Requirement associated with all Designated Systems remaining under this Agreement.

(h) Further, unless specified otherwise, where payment is due to Buyer from Seller and such payment is not received by the payment due date, Seller's Performance Assurance will be drawn to apply to such payment or a portion of such payment if the Performance Assurance Amount held by Buyer is insufficient to make such payment in full. Further, if the Performance Assurance Amount held by Buyer is insufficient to make such payment in full, Buyer may net out the remaining outstanding amount against amounts due to Seller from Buyer, if any.

7.2 Treatment of Performance Assurance in Connection with Interconnection Cost Estimates.

Upon Seller's request, 75% of the Collateral Requirement associated with a Designated System will be refundable if, prior to the Energization of that Designated System, an Interconnection Customer (as defined in Section 466.30 of Title 83 of the Illinois Administrative Code) seeking to interconnect the Designated System receives from the interconnecting utility a non-binding estimate of costs to construct the interconnection facilities and any required distribution upgrades for that Designated System in an amount exceeding 30 cents per watt AC of the Designated System's Proposed Nameplate Capacity, based on the most recent non-binding estimate of costs. This includes an updated utility cost estimate occasioned by a potentially required upgrade becoming actually required of the Seller. For avoidance of doubt, in the case that Seller submits such request within thirty (30) Business Days of the Trade Date of the Product Order and has not posted Performance Assurance, Seller shall pay Buyer an amount equal to 25% of the Collateral

³⁶ For avoidance of doubt, each Community Renewable Energy Generation Project shall continue to be subject to the annual review process pursuant to Section 4.2(c) for the period through its Delivery Term regardless of any early return of Performance Assurance Amount pursuant to this Section 7.1(f)(iv).

Requirement associated with such Designated System.

To obtain such refund, Seller's request must be made to Buyer and the IPA within thirty (30) days of having received the subject interconnection cost estimate (or if Seller is disputing such subject interconnection cost estimate, then Seller is (i) to inform Buyer and the IPA within thirty (30) days of having received the subject interconnection cost estimate that it is disputing such interconnection cost estimate and (ii) to make the refund request within fourteen (14) days of having received a final estimate as the result of an interconnection cost dispute) and must be accompanied by a) documentation substantiating the cost estimate and b) a written request substantially in the form of Schedule D to the Product Order to withdraw the Designated System from the Agreement (or, in the case of an Agreement featuring a single Designated System, a request to terminate the Agreement). Upon the recognition by Buyer of such request and substantiation of the interconnection cost estimate applicable to the Designated System, Buyer shall remove the Designated System from this Agreement and refund 75% of the Collateral Requirement as indicated in Schedule A to the Product Order associated with that Designated System.

In all such cases, the remaining 25% of the Collateral Requirement as indicated in Schedule A to the Product Order associated with that Designated System would be permanently forfeited and could not be applied to a new SFA application for the Designated System. Further, if Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

Upon removal of the Designated System, the IPA shall provide to Buyer and Seller a revised Schedule A, Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement.

ARTICLE 8: REPRESENTATIONS AND WARRANTIES

8.1 Mutual Representations and Warranties.

On the Effective Date and on each Trade Date, each Party represents and warrants to the other that:

(a) it is duly organized and validly existing under the laws of the jurisdiction of its incorporation or organization;

(b) it has the power and authority to enter into this Agreement and to perform its obligations hereunder;

(c) its execution and performance do not violate or conflict with applicable law, any provision of its constituent documents, or any contract binding on or affecting it or any of its assets or any order or judgment of any Governmental Authority applicable to it or its assets;

(d) all governmental and other authorizations, approvals, consents, notices and filings that are required to have been obtained or submitted by it with respect to entering into this Agreement have been obtained or submitted and are in full force and effect and all conditions thereof have been complied with;

(e) its obligations hereunder are legal, valid and binding, enforceable in accordance with their respective terms, subject to applicable bankruptcy or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application regardless of whether enforcement is sought in a proceeding in equity or at law;

(f) no Event of Default, or Potential Event of Default, has occurred and is continuing, and none will occur as a result of its entering into or performing this Agreement;

(g) it is not relying upon any representations of the other Party other than those expressly set forth herein, and it is acting for its own account, and not as agent or in any other capacity, fiduciary or otherwise;

(h) it has entered hereinto with a full understanding of the material terms and risks of the same, and it is capable of assuming those risks;

(i) it is not relying on any communication (written or oral) of the other Party as investment advice or as a recommendation to enter into a Transaction, and understands that information and explanations related to the terms and conditions of any Transaction will not be considered investment advice or a recommendation to enter into that Transaction;

(j) it has made its own independent trading and investment decisions to enter into each Transaction and as to whether such Transaction is appropriate or proper for it based upon its own judgment and any advice from such advisors as it has deemed necessary and not in reliance upon any view expressed by the other Party;

(k) it has not received from the other Party any assurance, guarantee or promise as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (either economic, legal, regulatory, tax, financial, accounting or otherwise) hereunder;

(l) to its knowledge there is no pending or threatened litigation, arbitration or administrative proceeding before any Governmental Authority or any arbitrator that is likely to materially adversely affect the ability of either Party to perform its obligations hereunder;

(m) it is a “forward contract merchant” within the meaning of United States Bankruptcy Code §101(26), and this Agreement and all Transactions hereunder constitute “forward contracts” within the meaning of United States Bankruptcy Code §101(25);

(n) it is an “eligible commercial entity”, and an “eligible contract participant” within the meaning of United States Commodity Exchange Act §§1a(17) and 1a(18), respectively, and all Transactions hereunder have been subject to individual negotiation by the Parties; and

(o) all applicable information, documents or statements that have been furnished in writing by or on behalf of it to the other Party in connection with this Agreement are true, accurate and complete in every material respect and do not omit a material fact that would otherwise make the information, document or statement misleading.

8.2 Additional Warranties of Seller.

(a) With respect to each Designated System, Seller represents and warrants to Buyer on the Trade Date through the expiry of the Delivery Term that such Designated System complies with the Applicable Program.

(b) Upon each Delivery, Seller represents and warrants to Buyer as follows:

(i) at the time of Delivery, Seller has the right to convey title to any and all of the RECs Delivered to Buyer in accordance with this Agreement free and clear of any and all liens or other encumbrances or title defects;

(ii) Seller has sold and transferred the RECs once and only once exclusively to Buyer; the RECs and any other Environmental Attributes sold hereunder have not expired and have not been, nor will be retired, claimed or represented as part of electricity output or sale, or used to satisfy any renewable energy or other carbon or renewable

generation attributes obligations under Illinois law or in any other jurisdiction; and that it has made no representation, in writing or otherwise, that any third-party has received, or has obtained any right to, such RECs that are inconsistent with the rights being acquired by Buyer hereunder; and

- (iii) the Product is Regulatorily Continuing and complies with the Applicable Program.

8.3 Limitation of Warranties.

All other representations or warranties, written or oral, express or implied, including any representation or warranty of merchantability or of fitness for any particular purpose or with respect to conformity with any model or samples, are disclaimed. Without limiting the generality of the foregoing, except with respect to the Product stated to be Regulatorily Continuing, and in that case only to the extent set forth herein, neither Party makes any representation or warranty hereunder with respect to any future action or failure to act or approval or failure to approve by any Governmental Authority.

ARTICLE 9: EVENTS OF DEFAULT; REMEDIES

9.1 Events of Default in Respect of Buyer

An “Event of Default” means, with respect to Buyer (as the “Defaulting Party”), the occurrence of any of the following:

- (a) the failure of Buyer to make, when due, any payment required pursuant hereto if such failure is not remedied within twenty (20) Business Days after written notice;
- (b) such Party becomes Bankrupt;

9.2 Events of Default in Respect of Seller

An “Event of Default” means, with respect to Seller (as the “Defaulting Party”), the occurrence of any of the following:

- (a) any representation or warranty made by Seller that is not associated with a particular Designated System that is false or misleading in any material respect when made or repeatedly made unless Seller as the Potentially Defaulting Party demonstrates, within a twenty (20) Business Day period from the time of notice by and to the satisfaction of Buyer as the Potentially Non-Defaulting Party in its reasonable discretion, that such Potential Event of Default has not occurred or that has occurred and is deemed to be remedied;
- (b) such Party becomes Bankrupt;
- (c) failure of Seller to post Seller’s Performance Assurance in accordance with Section 7.1(a) or Section 7.1(e), or the failure of the issuer of the Letter of Credit to maintain during the Term the credit rating required under the Letter of Credit as of the Date of Issuance (as that term is used in the Letter of Credit) provided that Seller does not post alternative Seller’s Performance Assurance in an amount at least equal to the Performance Assurance Requirement within thirty (30) Business Days of notice from Buyer;
- (d) Seller’s failure to perform any other material covenant or obligation set forth herein that is not tied to a particular Designated System if such failure is not remedied within twenty (20) Business Days after written notice;
- (e) failure of Seller to make when due, any payment required, or failure of Seller to comply with the reporting requirements set forth in Section 6.3 unless Seller demonstrates, within twenty (20) Business Days after written notice by Buyer to Seller and to the satisfaction of Buyer in its reasonable discretion, that such failure is remedied or such Event of Default has not occurred; and
- (f) in the event that this Agreement is executed as an assignment to Seller who is a financing party and a transferee of such assignment as a result of a foreclosure on collateral pledged or collaterally assigned, the failure of such Seller to be approved by the IPA as an Approved Vendor, or Seller’s failure to assign this Agreement to an Approved Vendor, in either case within one hundred eighty (180) days of such assignment to Seller, in accordance with Section 13.1.

Extension of Demonstration Periods and Cure Periods

Notwithstanding the foregoing, the IPA may extend any of the time periods in this Section 9.2 at its reasonable discretion by written notice to Buyer and Seller to allow additional time for Seller to demonstrate that the Event of Default has not occurred or that the failure has been remedied, as applicable. It is expected that any extension granted by the IPA pursuant to this Section 9.2 shall be no longer than twenty (20) Business Days.

Notwithstanding any right that Buyer may have to terminate this Agreement pursuant to 11 U.S.C. 556 in the event Seller becomes Bankrupt, Buyer agrees that it will not exercise any contract termination right if, within sixty (60) days of the commencement of Seller's bankruptcy case, Seller assigns this Agreement to another Approved Vendor pursuant to 11 U.S.C. 365.

Events Related to Removal of Designated Systems

For avoidance of doubt, some events described in this Agreement, including but not limited to those in Sections 2.2, 2.4(b)(iii), 2.4(d), 2.4(f), 2.4(g), 2.5(b), 2.5(c), 2.6(c), 2.7(a), 2.7(b), 2.7(c), 3.5, 3.6, 4.1(b)(iii), 4.2(g), 5.7(d), 7.2 and 10.1, provide for the removal of a Designated System from this Agreement but do not lead to a termination of this Agreement; these events do not constitute an Event of Default and the provisions specified in Section 9.3 and Section 9.4 do not apply.

9.3 Declaration of Early Termination Date.

Except as otherwise set forth in this Agreement, if an Event of Default with respect to a Defaulting Party occurs and is continuing, the other Party (the "Non-Defaulting Party") will have the right to (i) designate a day, no earlier than the day such notice is effective and no later than twenty (20) days after such notice is effective, as an early termination date ("Early Termination Date") to liquidate and terminate all Transaction(s) under this Agreement, (ii) withhold any payments due to the Defaulting Party under this Agreement, and (iii) suspend performance. The Non-Defaulting Party will calculate a Settlement Amount with respect to each Designated System and a Termination Payment with respect to this Agreement pursuant to Section 9.4 as of the Early Termination Date, and provide such calculation to the Defaulting Party by the Early Termination Date.

9.4 Net Out of Settlement Amounts.

- (a) In the Event of Default with respect to Buyer as the "Defaulting Party", the following shall occur:
- (i) Buyer shall return Seller's Performance Assurance held by Buyer by the date the Termination Payment is due;
 - (ii) with respect to a Designated System, Seller shall calculate a Settlement Amount for RECs that were Delivered but were not yet paid by Buyer. Specifically, with respect to a Designated System, if the number of RECs Delivered from such Designated System is greater than the Designated System Paid REC Quantity, then with respect to such Designated System, the Settlement Amount shall be equal to the multiplicative product of (A) the Contract Price and (B) the positive difference between (i) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity) and (ii) the Designated System Paid REC Quantity. For avoidance of doubt, if the number of RECs Delivered from such Designated System is equal to or less than the Designated System Paid REC Quantity, then the Settlement Amount for such Designated System shall be zero;
 - (iii) Seller shall calculate the Termination Payment by aggregating all Settlement Amounts into a single liquidated amount by summing the calculated Settlement Amount with respect to a Designated System across all Designated Systems; and
 - (iv) the Termination Payment, if any, is due to Seller as the Non-Defaulting Party within twenty (20) Business Days following notice by Seller to Buyer pursuant to Section 9.3.

- (b) In the Event of Default with respect to Seller as the “Defaulting Party”, the following shall occur:
- (i) With respect to a Designated System, Buyer shall calculate a Settlement Amount as the sum of:
 - (A) Collateral Requirement of such Designated System;
 - (B) the multiplicative product of (1) the Contract Price and (2) the result obtained by subtracting the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity) from the Designated System Paid REC Quantity. For avoidance of doubt, if the number of RECs Delivered from such Designated System is greater than the Designated System Paid REC Quantity, then this calculation shall be zero.³⁷
 - (ii) Buyer shall calculate the Termination Payment by aggregating all Settlement Amounts into a single liquidated amount by summing the calculated Settlement Amount with respect to a Designated System across all Designated Systems.
 - (iii) The Termination Payment, if any, is due to Buyer as the Non-Defaulting Party within twenty (20) Business Days following notice by Buyer to Seller pursuant to Section 9.3. Unless Seller pays the Termination Payment in full during this twenty (20) Business Day period, Seller’s Performance Assurance held by Buyer shall be applied to the Termination Payment, with any excess Performance Assurance Amounts returned to Seller.
- (c) For avoidance of doubt, the Non-Defaulting Party shall not owe any amount as Termination Payment to the Defaulting Party and payment of the Termination Payment shall only be from the Defaulting Party to the Non-Defaulting Party.
- (d) An example of the net out of Settlement Amount calculations with respect to Seller as the “Defaulting Party” is provided in Exhibit F-5-A and Exhibit F-5-B.

9.5 Calculation Disputes.

If the Defaulting Party disputes the Non-Defaulting Party’s calculation of the Settlement Amount or Termination Payment, in whole or in part, the Defaulting Party will, within two (2) Business Days of receipt of Non-Defaulting Party’s calculation, provide to the Non-Defaulting Party a detailed written explanation of the basis for such dispute; provided, however, that the Defaulting Party must first transfer to the Non-Defaulting Party an amount equal to the full Termination Payment. References to Defaulting Party and Non-Defaulting Party in this Section include the Potentially Defaulting Party and Potentially Non-Defaulting Party, as applicable.

9.6 Suspension of Performance.

Notwithstanding any other provision hereof, if an Event of Default or a Potential Event of Default has occurred and is continuing, the Non-Defaulting Party, upon written notice to the Defaulting Party, has the right to suspend performance under any or all Transactions.

³⁷ For a Designated System that has not yet been Energized, but has received Advance of Capital, (B) shall be the Advance of Capital received.

9.7 Not a Penalty.

The Parties acknowledge that (a) the Non-Defaulting Party shall be damaged by the Defaulting Party, (b) it would be impracticable or extremely difficult to determine the actual damages resulting therefrom, (c) the remedies specified herein are fair and reasonable and do not constitute a penalty and (d) the remedies specified in Section 9.4 shall be the Non-Defaulting Party's sole and exclusive remedy in the Event of Default.

ARTICLE 10: FORCE MAJEURE

10.1 Force Majeure.

If either Party is rendered unable, wholly or in part, by Force Majeure to carry out its obligations with respect to this Agreement, that upon such Party's (the "Claiming Party") giving notice and full particulars of such Force Majeure as soon as reasonably possible after the occurrence of the cause relied upon, confirmed in writing, then the obligations of the Claiming Party will, to the extent it is affected by such Force Majeure, be suspended during the continuance of said inability, but for no longer a period than the continuance of said inability, and the Claiming Party will not be in breach hereof or liable to the other Party for, or on account of, any loss, damage, injury or expense resulting from, or arising out of such event of Force Majeure during such Suspension Period. The Party receiving such notice of Force Majeure will have until the end of the tenth (10th) Business Day following such receipt to notify the Claiming Party that it objects to or disputes the existence of Force Majeure. If Seller is the Claiming Party, then such notification must be made to both Buyer and the IPA,³⁸ and a determination of whether to object to or dispute the existence of Force Majeure may be made by Buyer. Any determination to object to or dispute the existence of Force Majeure by Buyer shall be subject to the concurrence of the IPA (who, upon receipt, shall promptly confer to consider the Force Majeure notice).

"Force Majeure" means an event or circumstance which materially adversely affects the ability of a Party to perform its obligations under this Agreement, which event or circumstance was not reasonably anticipated as of the date such Transaction was entered into and which is not within the reasonable control of, or the result of the negligence of, the Claiming Party, and which the Claiming Party is unable to overcome or avoid or cause to be avoided, by the exercise of due diligence. Force Majeure includes acts of God (such as tornadoes, fires, earthquakes and floods), pandemics as declared by the WHO, explosions, war, hostilities, riots and acts or threats of terrorism (any such event, an "External Event") that disrupt the development of the Designated System if such Designated System is not Energized or the operation of the Designated System if such Designated System is Energized. Force Majeure may include delays in the establishment by the Designated System of an operating interconnection with the applicable distribution system as a result of the actions or inactions of the distribution provider, provided Seller can demonstrate to Buyer and to the IPA that such delay is not primarily attributable to Seller's failure to make in a timely manner a formal request for interconnection to such distribution provider or to provide in a timely manner the information or payment required by such distribution provider. Force Majeure may also include the failure or disruption in Deliveries of PJM-EIS GATS or M-RETS, as applicable. In the case of a Party's obligation to make payments hereunder, Force Majeure will only be an event or act of a Governmental Authority that on any day disables the banking system through which a Party makes such payments.

Force Majeure may also include curtailments of the Designated Systems (except economic curtailments as explicitly excluded pursuant to (iv) below) by either the interconnecting utility (including those through a

³⁸ In the case of reductions or eliminations of Delivery obligations, Seller must demonstrate what measures have been taken that do not adequately cure the situation (such as filing and receiving an insurance claim that is inadequate to restore the system to operation). For the suspension of Delivery obligations, the Approved Vendor must demonstrate that reasonable measures are being taken to have a timely restoration of production.

smart inverter) or the regional transmission organization responsible for the operation of the transmission system to which the Designated System(s) is interconnected that result in reduced REC production. In the event that Seller fails to so notify Buyer of such curtailment, Seller shall not be relieved of its Delivery obligations as a result of such curtailment. Upon the occurrence and proper notice of a curtailment, Seller shall estimate the amount of Deliveries prevented by such curtailment based on the most recent twelve (12) months of actual production data from the Designated System(s) and utilizing actual meteorological conditions during the period of curtailment, and shall provide such estimate to Buyer along with all supporting documentation, including any supporting information from the interconnected utility or regional transmission organization that curtailed the applicable Designated System's generation. Force Majeure may not be based on: (i) the loss or failure of Buyer's markets; (ii) Buyer's inability economically to use or resell the Product purchased hereunder; (iii) Seller's ability to sell the Product to another at a price greater than the Purchase Price; (iv) curtailment for economic purposes only of the Designated System(s) if acting as a wholesale market participant, made by the interconnected utility or regional transmission organization responsible for the operation of the distribution or transmission system to which the Designated System(s) is interconnected; (v) insufficiency or unavailability of insulation to operate the Designated System(s) or generate sufficient quantities of Product; (vi) the performance or breakdown of equipment not directly caused by an External Event; or (vii) the loss of tax credits, the denial of deductions or the imposition of additional taxes.

If Force Majeure adversely affects the ability of Seller to Deliver RECs from a Designated System, then there shall be a Suspension Period with respect to that Designated System's obligations to Deliver RECs under this Agreement. During any Suspension Period, Buyer's payment obligations with respect to such Designated System under this Agreement shall be suspended. If the Suspension Period arising from such event lasts for a consecutive period of seven hundred thirty (730) days, then the Designated System shall be removed from this Agreement. As soon as practicable after such occurrence, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement, and if payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System not to exceed the Designated System Contract Maximum REC Quantity.³⁹ Upon such payment, Seller may request for the reduction of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii). Any such request shall be honored by Buyer within ten (10) Business Days.

If Force Majeure adversely affects the operability of the Designated System and Seller has determined that the damage to the Designated System is irreparable, then Seller shall provide a written notice substantially in the form of Schedule D to the Product Order to Buyer and the IPA of such determination and request for the Designated System to be removed from this Agreement. If such written request is granted by the IPA, the IPA shall provide to Buyer and Seller a revised Schedule A (and Schedule B, if applicable), Schedule C and Schedule D to the Product Order for such Designated System indicating the removal of such Designated System from the Agreement and if payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System not to exceed the Designated System Contract Maximum

³⁹ Specifically, if payments have been made to Seller with respect to a Designated System, and the number of RECs Delivered from such Designated System is less than the Designated System Paid REC Quantity, then with respect to such Designated System, Seller shall return a portion of the amount of payment equal to the multiplicative product of (A) the Contract Price and (B) the positive difference between (i) the Designated System Paid REC Quantity and (ii) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

REC Quantity.⁴⁰ Upon such payment, Seller may request for the reduction of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii). Any such request shall be honored by Buyer within ten (10) Business Days.

ARTICLE 11: GOVERNMENT ACTION

11.1 Government Action.

The Parties acknowledge that the Applicable Program, which among other things establishes the conditions for a market for certain Products, may be the subject of Government Action (including court challenge) that could adversely affect the eligibility of a Product to meet the requirements of an Applicable Program or otherwise alter the requirements of the Applicable Program, or make a Product unavailable or dramatically diminished or increased in value. With respect to the Transaction(s), Seller represents that the Product complies with the Applicable Program and such representation is made and is effective as of the Trade Date, and regardless of any Government Action occurring after the Trade Date, Seller must Deliver the Product that complies with the Applicable Program as of each Delivery Date. Government Action that changes in any respect the value of a Product (without rendering the Product out of compliance with the Applicable Program if Regulatorily Continuing), will have no effect on the obligation of the Parties to purchase and sell such Product at the price and on the terms set forth hereunder. To the extent that Government Action (a) renders Delivery illegal under applicable law or (b) renders the Product ineligible to comply with the Applicable Program in such a manner that no modification to the Product or action taken by Seller would allow the Product to comply with the Applicable Program, (i) such Transaction will be terminated, (ii) Seller's Performance Assurance shall be returned in accordance with Section 7.1(f)(ii), (iii) that portion of whatever has been paid for Products not yet Delivered will be refunded by Seller, to the extent it is lawful to do so, and (iv) neither Seller nor Buyer will have any liability to the other after such termination. Notwithstanding the foregoing, no Transaction will be affected, cancelled, or otherwise impaired by Government Action that is specific to a Party under applicable law taken by a Governmental Authority alleging that Party's violation thereof.

11.2 Risk Allocation.

The Product is Regulatorily Continuing.

ARTICLE 12: GOVERNING LAW

12.1 Applicable Program.

The Product is eligible for compliance with the Applicable Program. The Illinois Solar for All Program, as established under 20 Ill. Comp. Stat. 3855/1-56, is the Applicable Program for this Agreement.

12.2 Governing Law.

This Agreement is governed by and construed in accordance with the laws of the State of Illinois. To the full extent permitted under applicable law, if the Parties have agreed on the terms of a Transaction, the

⁴⁰ Specifically, if payments have been made to Seller with respect to a Designated System, and the number of RECs Delivered from such Designated System is less than the Designated System Paid REC Quantity, then with respect to such Designated System, Seller shall return a portion of the amount of payment equal to the multiplicative product of (A) the Contract Price and (B) the positive difference between (i) the Designated System Paid REC Quantity and (ii) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

Parties agree not to contest, or to enter any defense concerning the validity or enforceability of a Transaction on the grounds that the documentation for such Transaction fails to comply with the requirements of a jurisdiction's Statute of Frauds or other applicable law requiring agreements to be written or signed.

ARTICLE 13: ASSIGNMENT

13.1 Assignment of Agreement and Product Orders.

This Agreement shall be binding upon, shall inure to the benefit of, and may be performed by, the successors and assignees of the Parties, except that no assignment or other transfer of this Agreement by either Party shall operate to release the assignor or transferor from any of its obligations under this Agreement unless the other Party (or its successors or assigns), except where otherwise provided for below, expressly releases the assignor or transferor from its obligations thereunder, provided that such release shall not be unreasonably withheld or delayed.

Buyer may not assign Buyer's rights and obligations under this Agreement without the prior written consent of Seller, which consent shall not be unreasonably withheld, conditioned or delayed; provided, however, that Buyer may, without the consent of Seller, (i) transfer or assign this Agreement to an Affiliate of Buyer which is creditworthy on the date of assignment, or (ii) transfer or assign this Agreement to any person or entity succeeding to all or substantially all of the assets of Buyer.

Seller may not assign Seller's rights and obligations under this Agreement without the prior written consent of Buyer, which consent shall not be unreasonably withheld, conditioned or delayed; provided that any such assignment (i) shall be a minimum of one (1) or more Product Orders in their entirety and (ii) may be made no earlier than the later of a) thirty (30) Business Days after the Trade Date of the applicable Product Order(s), or b) the point in time at which the initial Performance Assurance Requirement associated with the Product Orders proposed for assignment has been received by Buyer (excluding collateral assignment, as described below); and provided further, that Seller may, without the consent of Buyer, transfer or assign this Agreement or a Product Order to an entity already registered with the IPA as an Approved Vendor having a valid agreement of the same contract type with Buyer through the SFA. In the case of an assignment made by Seller without the consent of Buyer, Seller must notify the IPA and Buyer of any such assignment and provide Buyer with all pertinent contact and payment information with respect to the assignee.

Seller may also, without the consent of Buyer, collaterally assign this Agreement or collaterally assign or pledge the accounts, revenues or proceeds with respect to this Agreement or applicable Product Order(s), in connection with any financing or other financial arrangements with respect to Designated System(s) under this Agreement (and without relieving itself from liability hereunder). In the case of such collateral assignment or pledge, Seller must notify the IPA and Buyer of any such collateral assignment, including providing Buyer with the identity and contact information of the financing party obtaining collateral rights in connection with this Agreement.

As required by the SFA, Seller's rights and obligations under the Agreement may only be directly assigned or transferred to Approved Vendors. However, if the assignee is a financing party who has become a transferee as a result of a foreclosure on collateral (including this Agreement) pledged or collaterally assigned as described above, the requirement that such assignee be approved by the IPA as an Approved Vendor shall be postponed for up to one hundred eighty (180) days following the effectiveness of such foreclosure and related transfer. Failure of such assignee to become an Approved Vendor or to assign this Agreement to an Approved Vendor within such one hundred eighty (180) day period shall constitute an Event of Default for the Agreement between Buyer and the assignee.

In the event of a direct assignment by Seller permitted by this Agreement, any Performance Assurance posted in the form of cash may constitute the Performance Assurance applicable to the assignee for the transferred Product Order(s) and will continue to be held by Buyer; alternatively, Seller's Performance Assurance with respect to the Designated Systems in the transferred Product Order(s) may be refunded upon request if and when the assignee posts replacement Performance Assurance. In the case of Performance Assurance in the form of a Letter of Credit, Seller's original Performance Assurance shall remain in place with respect to the transferred Product Order(s) until the assignee posts replacement Performance Assurance consistent with Section 7.1 of this Agreement. Further, in the case of Performance Assurance in the form of a Letter of Credit for an assignment of this Agreement by Seller to an Affiliate of Seller, the posting of the replacement Performance Assurance may take the form of a new replacement Letter of Credit or an amendment to the current Letter of Credit. For avoidance of doubt, and notwithstanding any express or deemed release of Seller, in the case of a partial assignment involving the transfer of one or more Product Orders, (i) Seller shall remain responsible for any payment (including a Drawdown Payment) in respect of the Designated Systems in those Product Order(s) that is determined prior to the effectiveness of an assignment to be due, and Seller's Performance Assurance in respect of those Product Orders shall not transfer to assignee unless and until the payment is paid, and (ii) the assignee shall be responsible for any payment (including a Drawdown Payment) in respect of the Designated Systems in those Product Order(s) that is determined on or after the effectiveness of the assignment to be due.

In the event that the assignee is (a) an Approved Vendor and (b) already a counterparty under a separate SFA agreement of the same contract type with Buyer, then any Product Order(s) so transferred will constitute product order(s) under such assignee's existing agreement under the SFA with Buyer, with the portion of the performance assurance requirement applicable to such assignee's assigned Product Orders calculated based on the performance assurance requirement applicable to such assignee's entire portfolio of product orders and the performance assurance amount that has already been posted under such assignee's existing agreement under the SFA with Buyer. For avoidance of doubt, any assignment by Seller, regardless of whether the assignment made by Seller requires the consent of Buyer, must be made to an assignee with an SFA agreement with Buyer of the same contract type.

For avoidance of doubt, in the event of a direct assignment by Seller, Surplus RECs shall remain associated with this Agreement; provided, that if Seller is transferring this Agreement in its entirety (with all remaining Product Orders thereunder), then in such instance the Surplus RECs would also transfer and such assignee would assume such Surplus REC Account with respect to this Agreement.

For purposes of providing notice and acknowledging such assignment notice under this Section 13.1, the Parties shall use the forms appended to this Agreement as Exhibit C-4 and Exhibit C-5, as applicable, which form may be updated from time to time.

Following a direct assignment under this Agreement, the affected Product Order(s), including Schedule A, Schedule B (if applicable) and Schedule C to the Product Order, will be amended to account for the assignment with respect to the assignor, with all required information to be provided by the IPA. In addition, following the direct assignment, new or amended Product Order(s) will be generated with respect to the assignee, with all required information to be provided by the IPA.

This Agreement will bind each Party's successors and permitted assigns. Any attempted assignment in violation of this provision will be void *ab initio*.

ARTICLE 14: LIABILITY

14.1 Limitation of Liability.

The express remedies and measures of damages provided herein satisfy the essential purposes hereof. For breach of any provision for which an express remedy or measure of damage is provided, such remedy or measure shall be the sole and exclusive remedy therefor.

If no remedy or measure of damage is expressly provided, the obligor's liability shall be limited to direct actual damages only as the sole and exclusive remedy. Except as specifically set forth herein, no Party shall be required to pay or be liable for special, consequential, incidental, punitive, exemplary, or indirect damages, lost profit or business interruption damages, by statute, in tort, contract or otherwise. To the extent any damages required to be paid hereunder are deemed liquidated, the Parties acknowledge that the damages are difficult or impossible to determine, or otherwise obtaining an adequate remedy is inconvenient and the damages calculated hereunder constitute a reasonable approximation of the harm or loss.

Notwithstanding any other provisions of this Agreement, in no event shall Seller be liable to Buyer, with respect to a Designated System, in an amount that exceeds the sum of the Collateral Requirement calculated at the time of the Trade Date as specified in Schedule A to the Product Order with respect to such Designated System and one hundred and ten percent (110%) of the total payments Seller has received from Buyer associated with RECs from such Designated System; and with respect to this Agreement, the sum of such calculation across all Designated Systems under this Agreement.

Notwithstanding any other provisions of this Agreement, in no event shall Buyer be liable to Seller, with respect to a Designated System, in an amount that exceeds one hundred and ten percent (110%) of the total payments Seller has received from Buyer associated with RECs from such Designated System; and with respect to this Agreement, the sum of such calculation across all Designated Systems under this Agreement.

ARTICLE 15: MISCELLANEOUS

15.1 Notices.

All notices, requests, statements or payments will be made as specified in Exhibit B. Notices, unless otherwise specified herein, must be in writing and delivered by electronic means. A notice is effective when transmitted, if transmitted before or during business hours on a Business Day, and otherwise will be effective on the next Business Day. A Party may change its addresses by providing notice of same in accordance herewith and updating the information in Exhibit B.

15.2 Dispute Resolution.

Disputes under this Agreement will be resolved in accordance with applicable law, or in accordance with the provisions of this Section 15.2.

Waiver of Jury Trial

Each Party knowingly, voluntarily, intentionally and irrevocably waives the right to a trial by jury in respect of any litigation based on this Agreement, or arising out of, under or in connection with this Agreement and any agreement executed or contemplated to be executed in conjunction with this Agreement, or any course of conduct, course of dealing, statements (whether verbal or written) or actions of any Party hereto. This provision is a material inducement to each of the Parties for entering hereinto. Each Party hereby waives any right to consolidate any action, proceeding or counterclaim arising out of or in connection with this Agreement or any other agreement executed or contemplated to be executed in conjunction with this

Agreement, or any matter arising hereunder or thereunder, in which a jury trial has not or cannot be waived.

Mediation

If any dispute or claim should arise between the Parties that cannot be resolved through negotiation, the Parties shall endeavor to settle the dispute by mediation. Either Party may request in writing that the other Party mediate the dispute; and such notice shall set forth the subject of the dispute and the relief requested (the "Dispute Notice"). The mediation shall be conducted by the IPA unless one or more of the Parties object to mediation with the IPA.

If the one or more of the Parties do not object to mediation with the IPA, the disputing Party shall provide a written request to the IPA for mediation. Such written request shall include a brief summary of the dispute, with confidential information so marked. The IPA shall undertake mediation procedures developed by the IPA for the purposes of implementing this Section 15.2.

If one or more of the Parties object to mediation with the IPA, the mediation shall be conducted by a mediator affiliated with and under the commercial rules of the American Arbitration Association ("AAA"). The AAA's mediation procedures under the commercial rules are available at https://www.adr.org/sites/default/files/CommercialRules_Web.pdf.

Binding Arbitration

(1) Unless otherwise settled by mediation or directly settled by the Parties, any dispute or claim arising out of or related hereto or any breach thereof or any need for interpretation related to any dispute arising out of or related hereto will be settled by binding arbitration administered by the AAA in Illinois. Either Party will have the right to commence an arbitration by written notice to the other Party after the expiration of ninety (90) calendar days from the Dispute Notice mentioned above, or if nonbinding mediation was terminated, ten (10) days after the termination of the mediation. The arbitration will be conducted as follows:

(A) There will be one arbitrator who has not previously been employed by either Party, is qualified by education or experience to decide the matters relating to the questions in dispute, and does not have a direct or indirect interest in either Party or a financial interest in the outcome of the arbitration and who is available within the time frames set forth herein. Such arbitrator will either be selected by mutual agreement by the Parties within thirty (30) days after written notice from the Party requesting arbitration, or failing agreement by such time, the arbitrator will be selected within the following fourteen (14) days by the AAA under the AAA Rules.

(B) Such arbitration will be held at a location within the State of Illinois. Absent agreement, the arbitrator shall set the precise location of the arbitration based on where it is most convenient and cost effective to resolve the dispute, and if it is an international matter, with regard to any special considerations raised by the Parties that may therefore be relevant.

(C) The AAA Rules (including the Optional Rules for Emergency Protection Measures) apply to the extent not inconsistent with the rules herein specified. If the dispute is international in scope as defined in the United Nations Commission on International Trade Law Model Law on International Commercial Arbitration, the AAA's Supplementary Procedures for International Commercial Disputes shall apply.

(D) The hearing will be conducted on a confidential basis and except as required by law, neither the Parties nor the arbitrator may disclose the existence, content or results of any arbitration hereunder without the prior written consent of all the Parties.

(E) At the request of a Party, the arbitrator will have the discretion to order an examination of witnesses to the extent the arbitrator deems such additional discovery relevant and appropriate. Depositions will be limited to a maximum of two depositions for each Party, may be held by video conferencing to reduce travel expenses, and each deposition will be limited to a maximum of three hours. All objections are reserved to the hearing except objections based on privilege and proprietary or confidential information.

(F) The arbitrator will issue a confidential award accompanied by a statement regarding the reasons for the decision.

(G) The arbitrator and the Parties will make every attempt to resolve the arbitration within 90 days of appointment of the arbitrator. Upon the application of a Party and for good cause shown, the arbitrator may extend this time. Under no circumstances will the arbitration take longer than six months from the appointment of the arbitrator. However, failure to conclude the arbitration within the six-month period will not constitute grounds for vacating the award.

(H) Each Party will be responsible for its own filing fees and case service fees in connection with its claim. Other expenses and arbitrator compensation will be borne equally, subject to final apportionment by the arbitrator. Each Party will be responsible for its own expenses and those of its counsel and representatives.

(I) Any offer made or the details of any negotiation regarding the dispute prior to arbitration and the cost to the Parties of their representatives and counsel will not be admissible.

(2) Judgment on the award rendered by the arbitrator may be entered in any court of competent jurisdiction by the Party in whose favor such award is made.

Regardless of any procedures or rules of the AAA: (i) the arbitrator will have no authority to award punitive damages, or any other form of damages waived by the Parties pursuant to the Agreement, or attorneys' fees; and (ii) the Parties may by written agreement alter any time deadline, locations for meetings, or procedure outlined in this section or in the AAA Rules, except that the provisions of subsection (1)(G) above will govern with respect to the time frame for the conclusion of the arbitration.

15.3 Waiver of Immunities.

To the extent either Party possesses any immunity on the grounds of sovereignty or other similar grounds, each Party irrevocably waives, to the fullest extent permitted by applicable law, with respect to itself and its revenues and assets (irrespective of their use or intended use), all immunity on the grounds of sovereignty or other similar grounds from (a) suit, (b) jurisdiction of any court, (c) relief by way of injunction, order for specific performance or for recovery of property, (d) attachment of its assets (whether before or after judgment) and (e) execution or enforcement of any judgment to which it or its revenues or assets might otherwise be entitled in any suit, action or proceedings relating hereto in the courts of any jurisdiction and irrevocably agrees, to the extent permitted by applicable law, that it will not claim any such immunity in any suit, action or proceedings relating hereto.

15.4 Confidentiality.

Each Party shall hold in confidence and not release or disclose any document or information furnished by the other Party in connection with this Agreement. For clarity, this means each Party shall not disclose or release information received from the other Party to any third-party (other than the Party's employees, guarantor, lenders, prospective guarantors, prospective lenders, prospective purchasers, investors, prospective investors, counsel, accountants or advisors who have to know such information and have agreed to keep such terms confidential) without the disclosing Party's written consent; and further, each Party shall restrict access to such information to as few as possible of its employees. The foregoing shall not apply if:

(a) compelled to disclose such document or information by judicial, regulatory or administrative process or other provisions of law; (b) such document or information is generally available to the public; (c) such document or information was available to the receiving Party on a non-confidential basis; or (d) such document or information was available to the receiving Party on a non-confidential basis from a third-party, provided that the receiving Party does not know, and, by reasonable effort, could not know that such third-party is prohibited from transmitting the document or information to the receiving Party by a contractual, legal or fiduciary obligation.

The Parties are entitled to all remedies available at law or in equity to enforce, or seek relief in connection with, this confidentiality obligation. If a Party is required or requested to disclose any confidential information as provided in (a) above, such Party shall provide the other Party with written notice within five (5) Business Days so that the other Party may seek on its own behalf a protective order or any other appropriate remedy. If such protective order or other remedy is not obtained, the disclosing Party will cooperate with the other Party's counsel to enable such Party to obtain a protective order or other reliable assurance that confidential treatment will be accorded the confidential information. The Parties shall maintain the confidentiality of the terms of the Transaction(s) hereunder in compliance with Section 16-111.5(h) of the Illinois Public Utilities Act (220 ILCS 5/16-111.5(h)). All confidentiality obligations set forth herein shall survive following the expiration or termination of this Agreement, provided, however, that with respect to any confidential information that constitutes a "trade secret" under applicable law, these covenants shall apply for the life of the trade secret.

15.5 Day Conventions.

Unless otherwise specifically provided herein or in a Product Order, (i) "day" means a calendar day and includes Saturdays, Sundays and holidays, and (ii) if a payment falls due on a day that is not a Business Day, the payment will be due on the next Business Day thereafter.

15.6 Indemnity.

Each Party will indemnify, defend and hold harmless the other Party from and against any claims or demands made by others arising from or out of any event, circumstance, act or incident first occurring or existing during the period when control and title to Product is vested in the indemnifying Party as provided herein, except to the extent arising from the indemnified Party's own gross negligence or willful misconduct. Each Party will indemnify, defend and hold harmless the other Party against any taxes for which such Party is responsible under Section 5.5.

15.7 General.

(a) This Agreement constitutes the entire agreement between the Parties relating to its subject matter. Any prior agreement or negotiation between the Parties with respect to the subject hereof is superseded. Any Product Order or any collateral, credit support or margin agreement or similar arrangement between the Parties will, upon designation by the Parties, be deemed part hereof and incorporated herein by reference, with this Agreement controlling in the event of a contradiction.

(b) This Agreement will be considered for all purposes as prepared through the joint efforts of the Parties and not be construed against one Party or the other as a result of the preparation, substitution, organizational membership, submission or other event of negotiation, drafting or execution hereof.

(c) No amendment or modification hereto or to any written Product Order is enforceable unless in writing and executed by both Parties.

(d) Headings used herein are for convenience and reference purposes only.

(e) Nothing herein constitutes any Party a partner, agent or legal representative of the other

Party or creates any fiduciary relationship between them.

(f) The waiver by either Party of a default or a breach by the other Party will not operate or be construed to operate as a waiver of any subsequent default or breach. The making or the acceptance of a payment by either Party with knowledge of the existence of a default or breach will not operate as a waiver of any default or breach.

(g) Except as provided in a Product Order or pursuant to Article 11, if any provision hereof is, for any reason, determined to be invalid, illegal, or unenforceable in any respect, the Parties will negotiate in good faith and agree to such amendments, modifications, or supplements of or to this Agreement or such other appropriate actions that will, to the maximum extent practicable in light of such determination, implement and give effect to the intentions of the Parties as reflected herein, and the other provisions hereof will, as so amended, modified, or supplemented, or otherwise affected by such action, remain in full force and effect.

(h) This Agreement may be executed in counterparts, each of which will be deemed an original but all of which taken together will constitute one and the same original instrument. Delivery of an executed counterpart of a signature page to the Agreement by electronic means shall be effective as delivery of a manually executed counterpart of the Agreement. Electronic copies of executed original copies of the Agreement shall be sufficient and admissible evidence of the content and existence of the Agreement to the same extent as the originally executed copy or copies (if executed in counterpart).

(i) Any document generated by the Parties with respect to this Agreement, including this Agreement, may be imaged and stored electronically and introduced as evidence in any proceeding as if original business records. Neither Party will object to the admissibility of such images as evidence in any proceeding on account of having been stored electronically.

(j) Exhibits are provided as samples for convenience of Parties and the actual forms and reports issued under this Agreement may reflect differences that are non-material in nature to facilitate the administration of this Agreement, and if necessary to correct typographical errors, cure inconsistencies in the provisions of this Agreement or clarify the intent of the provisions of this Agreement. Should any Party or the IPA discover a typographical or administrative error in the Product Order or schedules to the Product Order, such Party (if not the IPA) shall inform the IPA and the other Party of such error as soon as practicable; and the IPA, upon confirmation of such error, shall issue to both Buyer and Seller a revised Product Order and/or schedules to the Product Order, as applicable correcting for such error. The revised Product Order shall include the date of update of the Product Order and/or schedule(s) and a description of the error being corrected in the notes section of the Product Order and/or schedule(s) to the Product Order as applicable. For avoidance of doubt, any such revision to the Product Order or schedules to the Product Order pursuant to this Section 15.7(j) are to correct for errors that do not contemplate the removal of Designated System(s). Administrative errors made by the IPA or Buyer that require a removal of Designated System(s) shall be corrected pursuant to Section 3.6.

(k) Obligations contemplated under this Agreement may be performed through the SFA portal or through another process established by the IPA for such purpose. The Parties agree that such processes may be updated from time to time to reflect non-material modifications related to the administration of this Agreement.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their duly authorized representatives as of the Effective Date.

ADDITIONAL NOTES

Schedule D to Exhibit A
Designated System Removal Notice

(As permitted under Section 15.7(j) of the Agreement, the Designated System Removal Notice as issued may contain certain differences that are non-material in nature to facilitate the administration of the Agreement. If there are any conflicts between information in the Designated System Removal Notice and the main body of the Agreement, the terms and conditions set forth in the main body of the Agreement shall govern.)

(To be provided by Seller or Buyer or the IPA (as applicable) for the removal of a Designated System from a Product Order under this Agreement pursuant to but not limited to Section 2.2(a), Section 2.2(b), Section 2.2(c), Section 2.2(d), Section 2.2(e), Section 2.2(f), Section 2.2(g), Section 2.4(b)(iii), Section 2.4(d), Section 2.4(f), Section 2.4(g), Section 2.5(b), Section 2.5(c), Section 2.6(c), Section 2.7(a), Section 2.7(b), Section 2.7(c), Section 3.5, Section 3.6, Section 4.1(b)(iii), Section 4.2(g), Section 5.7(d), Section 7.2 and Section 10.1. This form is to document the removal of a Designated System from a Product Order and does not document the removal or assignment or termination of entire Product Order(s) from this Agreement, including pursuant to Section 11.1 or Section 13.1.)

Notice Date: _____

Reference is made to Solar for All Program (“SFA”) Contract No. _____, including associated Product Orders (together, the “SFA Contract”) between the Buyer _____, and Seller, _____, each a “Party” (and, collectively, the “Parties”), who hereby acknowledge the following:

(Capitalized terms used but not defined herein shall have the meanings used in this Agreement.)

1. This Designated System Removal Notice memorializes the removal, in accordance with the provisions of this Agreement or the Illinois Commerce Commission’s Order approving the IPA’s Long-Term Renewable Resources Procurement Plan developed pursuant to Sections 1-56(b) and 1-75(c) of the IPA Act and Section 16-111.5 of the Public Utilities Act, of one (1) or more Designated Systems listed more fully on Attachment A to this Designated System Removal Notice (the “Removed Designated Systems”) from this Agreement as of the Effective Date for each respective removed Designated System written in Column H of Attachment A to this Designated System Removal Notice.
2. For each removed Designated System, the predicate event that gave rise to the removal of that Designated System under this Agreement is listed on Attachment A to this Designated System Removal Notice under Column D, “Reason for Removal.” (A guide to the alphabetic codes is shown below Attachment A to this Designated System Removal Notice.)
3. Each applicable Product Order(s) is being removed from this Agreement in its entirety if no Designated Systems then remain in such Product Order, as noted in Column B of Attachment A to this Designated System Removal Notice.
4. For each removed Designated System, any required payment by Seller to Buyer under this Agreement in connection with the removal of such Designated System is noted in Column F of Attachment A to this Designated System Removal Notice.
5. For each removed Designated System, if applicable, Seller is requested to indicate in Column G by what means it elects or has elected to make the payment listed in Column F: (i) cash or (ii) forfeiture of previously posted Performance Assurance. Seller is requested to promptly return this notice with those notations to Buyer and sign in the signature block below. In the absence of any such election, or if the election so made is unclear, or a copy of this Designated System Removal Notice (signed by Seller) is not received by Buyer within 7 Business Days of the Notice Date stated above, Seller shall be deemed to have

elected deduction of any associated Performance Assurance Amount.

6. The Collateral Requirement in relation to each of the removed Designated Systems shall be reduced to zero if Seller has paid Buyer for outstanding amounts, if any, including amounts that may be associated with the removal of such Designated System. Following the completion of all payments shown in Column F, all Performance Assurance Amount still held by Buyer (but not forfeited by Seller) in connection with the removed Designated Systems shall be promptly returned to Seller pursuant to Section 7.1(f) (including an allowance for a downward adjustment of a Letter of Credit, if applicable).

7. Following the removal of each removed Designated System, there is no remaining REC Delivery obligation by Seller, or REC purchase obligation by Buyer, in relation to such removed Designated System.

8. Contemporaneous with this Designated System Removal Notice, the SFA Program Administrator is furnishing an updated Schedule A or Schedule B (as applicable) reflecting the removal of each removed Designated System and a Schedule C for each implicated Product Order (in all cases, the schedules are with respect to Exhibit A) of this Agreement.

9. This notice is not, and is not intended to be, an amendment or interpretation of, or an admission with respect to, the Agreement or its provisions. It is solely intended to memorialize actions provided for in the existing provisions of the Agreement.

All removals are subject to the approval by Buyer and IPA.

Date: _____

- C. The Designated System was determined to be noncompliant with the requirements under Section 2.2(c), including after Seller had a period of twenty (20) Business Days after notice as provided in this Agreement to demonstrate that the event had not occurred, and the Designated System was thus removed.
Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.
- D. The Designated System experienced delays resulting from (i) documented delays associated with processing of permit requests or addressing regulatory requirements provided such delays are not primarily caused by Seller's actions, (ii) delays in receiving interconnection approval provided that Seller's interconnection approval request was made to the interconnecting utility within thirty (30) days of such Designated System being electrically complete (ready to start generation), and (iii) delays in receiving the interconnecting utility's estimate of costs to construct the interconnection facilities, and to complete required distribution upgrades, necessary for the interconnection of a Designated System. After either (a) extensions to the Scheduled Energized Date had been granted multiple times and the Designated System was not yet Energized by the date that is seven hundred thirty (730) days from the initial Scheduled Energized Date or (b) the Designated System has been denied interconnection by the interconnecting utility, Seller exercised its right to remove the Designated System by providing written notice to Buyer and the IPA pursuant to Section 2.4(b)(iii).
Resulting payment: Buyer provides to Seller a refund of any extension fees that have been paid plus the Collateral Requirement associated with such Designated System and the IPA granted the request. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- E. The Designated System was not Energized by the Scheduled Energized Date (plus any extension granted under 2.4(b)), so was removed pursuant to Section 2.4(d).
Resulting payment: Seller pays to Buyer the Collateral Requirement associated with the Designated System plus any extension fees associated with such Designated System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- F. The Designated System's Actual Nameplate Capacity is larger than the Proposed Nameplate Capacity and the difference is within the greater of: +5kW or +25% of the Proposed Nameplate Capacity, and Seller exercised its right to remove the Designated System by providing written notice to the IPA pursuant to Section 2.5(b).
Resulting payment: Seller forfeits the Collateral Requirement associated with the Designated System. This forfeited amount may be re-credited to Seller as Performance Assurance if a new SFA application of the Designated System is approved by the ICC for inclusion in this Agreement or an agreement between Buyer and Seller under the SFA within three hundred sixty-five (365) days of the date of the written notice from Seller requesting removal, and the IPA so notifies Buyer. If the previously forfeited amount is not entirely required to meet the Collateral Requirement of such newly approved Designated System as required by the previous sentence, the excess amount will be refunded to Seller. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- G. Seller exercised its right to remove the Designated System for the purpose of re-applying to the SFA under a different Class of Resource, by providing written notice to the IPA pursuant to Section 2.4(g).
Resulting payment: Seller forfeits the Collateral Requirement associated with the Designated System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

- H.** The Designated System's Actual Nameplate Capacity differs from the Proposed Nameplate Capacity by more than the greater of 5kW or 25% of the Proposed Nameplate Capacity, so the Designated System was removed pursuant to Section 2.5(b).
Resulting payment: Seller forfeits the Collateral Requirement associated with the Designated System. This forfeited amount may be re-credited to Seller as Performance Assurance if a new SFA application of the Designated System is approved by the ICC for inclusion in this Agreement or an agreement between Buyer and Seller under the SFA within three hundred sixty-five (365) days of the date of the written notice from the IPA requesting the removal, and the IPA so notifies Buyer. If the previously forfeited amount is not entirely required to meet the Collateral Requirement of such newly approved Designated System as required by the previous sentence, the excess amount will be refunded to Seller. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- I.** The IPA determined in its reasonable discretion that Seller failed to perform a material covenant or obligation tied to the Designated System; or the Designated System is in material non-conformance with requirements of the SFA; or is materially non-conforming with the information previously submitted by Seller to the IPA about that Designated System, and the Seller did not cure the deficiency within twenty (20) Business Days (plus any extensions for good cause granted by the IPA); the IPA then exercised its right to remove the Designated System, pursuant to Section 2.4(f) and so notified Buyer and Seller.
Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System estimated at the time of such non-conformance associated with such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.
- J.** The Designated System was Energized but failed to Deliver at least 1 REC within 90 days after Energization (for an Actual Nameplate Capacity > 5 kW) or within 180 days after Energization (for an Actual Nameplate Capacity ≤ 5 kW), and Seller failed to remedy such deficiency in a timely manner pursuant to Section 4.1(b); the Designated System was thus removed, pursuant to Section 4.1(b).
Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.
- K.** Seller exercised its right to remove the Designated System by making its request to Buyer and the IPA pursuant to Section 7.2 within 30 days following the Designated System's Interconnection Customer (as defined in Section 466.30 of Title 83 of the Illinois Administrative Code) receiving from the interconnecting utility a non-binding estimate of costs to construct the interconnection facilities and any required distribution upgrades for that Designated System in an amount exceeding 30 cents per watt AC of the Designated System's Proposed Nameplate Capacity (or by sending notification to Buyer and the IPA within 30 days of having received the subject interconnection cost estimate that it is disputing such interconnection cost estimate and by making the refund request within 14 days of having received a final estimate as the result of an interconnection cost dispute), and Buyer recognized and substantiated the request as described in Section 7.2.
Resulting payment: Seller forfeits 25% of the Collateral Requirement associated with the Designated System; the remaining 75% of Collateral Requirement is returned by Buyer to Seller. It is possible that this System Removal occurs prior to Seller's posting of Seller's Performance Assurance. In such a case, Seller shall pay Buyer an amount equal to 25% of the Collateral Requirement associated with such Designated System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

- L. A Suspension Period (as defined in Section 10.1) has arisen with respect to a Designated System due to a Force Majeure event, and the Suspension Period lasted at least 730 days; the Designated System was thus removed pursuant to Section 10.1.
Resulting payment: If payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity). Upon the resulting payment by Seller, Seller may request for the refund of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii).
- M. Seller, prior to the prevailing Scheduled Energized Date, has determined that a Designated System will not be constructed and provides written notice to Buyer and the IPA of such determination pursuant to Section 2.4(d) of this Agreement.
Resulting payment: Seller pays to Buyer the Collateral Requirement associated with the Designated System plus any extension fees associated with such Designated System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.
- N. Force Majeure (as defined in Section 10.1) has adversely affected the operability of the Designated System and Seller has determined that the damage to the Designated System is irreparable. Seller provided a written notice of such determination and request for removal of the Designated System to Buyer and the IPA; the IPA granted the request, and the Designated System was removed pursuant to Section 10.1.
Resulting payment: If payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity). Upon the resulting payment by Seller, Seller may request for the refund of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii).
- O. With respect to a Designated System that is a Community Renewable Energy Generation Project, the percent of Non-Anchor Nameplate Capacity Subscribed by End Use Customers was less than fifty percent (50%) for the period reported in the Community Solar First Year Report, and Seller (i) failed to provide an addendum to the Community Solar First Year Report or (ii) the percent of Non-Anchor Nameplate Capacity Subscribed by End Use Customers remained less than fifty percent (50%) for the additional Quarterly Period or extended cure period reported in the addendum to the Community Solar First Year Report. Thus, the Designated System was removed pursuant to Section 2.6(c).
Resulting payment: Seller pays (a) the Collateral Requirement calculated at the time of the issuance of the Community Solar First Year Report and (b) if payments have been made to Seller with respect to the Designated System, Seller shall make a payment adjustment to Buyer equal to the multiplicative product of (i) the Contract Price recorded at Energization and (ii) the positive difference between (A) the Designated System Paid REC Quantity using the Contract Price recorded at Energization and (B) the number of RECs that have been Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).
- P. With respect to a Designated System that received additional points in the SFA project selection process on the basis of MWBE factors described in Section 2.7(a), either (i) Seller failed to demonstrate at the SFA Part II Application stage, and the IPA was unable to verify, fulfillment of MWBE subcontractor utilization equal to or greater than 50% of the REC contract value, or (ii) Seller assigned (under Section 13.1) the Product Order containing the Designated System prior to SFA Part II Application verification to an assignee that is not an SFA Approved Vendor and certified MWBE; in either case the Designated System was removed pursuant to Section 2.7(a).
Resulting payment: Seller pays to Buyer the Collateral Requirement with respect to such Designated

System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

- Q.** With respect to a Designated System that received additional points in the SFA project selection process on the basis of attributes of the Designated System and the IPA is unable to verify the fulfillment of such attributes in the Part II Application process, and the Designated System is removed pursuant to Section 2.7(b).

Resulting payment: Seller pays to Buyer the Collateral Requirement with respect to such Designated System. If Seller has received any Advance of Capital, Seller shall return such Advance of Capital in accordance with Section 5.6.

- R.** With respect to a Designated System for which Energy Sovereignty is applicable and either: the Designated System was removed pursuant to Section 2.7(c) or: the IPA was unable to verify the occurrence of a transfer of ownership required under Section 2.7(c), and the Designated System is removed pursuant to Section 2.7(c).

Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System calculated at the time of the Trade Date and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.

- S.** The Designated System was removed pursuant to Section 4.2(g) due to Seller's request or Seller's failure to Deliver RECs from such Designated System for a period of twelve (12) months for a reason that is not due to Force Majeure and such failure is not remedied.

Resulting payment: Seller pays to Buyer the Collateral Requirement calculated as of the date of the last REC Delivery from such Designated System. If payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity).

- T.** The Designated System was determined to be noncompliant with the requirements under Section 2.2(d), including after Seller had a period of twenty (20) Business Days after notice as provided in this Agreement to demonstrate that the event had not occurred, and the Designated System was thus removed.

Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.

- U.** The Designated System was removed pursuant to Section 3.5 due to consumer protection concerns and reassigned to another Product Order.

Resulting payment: N/A

- V.** The Designated System was removed pursuant to Section 3.6 to correct an administrative error made by the IPA or Buyer for documentation purposes.

Resulting payment: Seller shall return payment, including any Advance of Capital, that have been made in error pursuant to Section 3.6. Seller may request for the refund of a portion of the Performance Assurance Amount attributable to such Designated System in accordance with Section 7.1(f)(ii).

W. The Designated System was determined to be noncompliant with the requirements under Section 2.2(e), including after Seller had a period of twenty (20) Business Days after notice as provided in this Agreement to demonstrate that the event had not occurred, and the Designated System was thus removed.

Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.

X. The Designated System was determined to be noncompliant with the requirements under Section 2.2(f), including after Seller had a period of twenty (20) Business Days after notice as provided in this Agreement to demonstrate that the event had not occurred, and the Designated System was thus removed.

Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.

Y. The Designated System was determined to be noncompliant with the requirements under Section 2.2(g), including after Seller had a period of twenty (20) Business Days after notice as provided in this Agreement to demonstrate that the event had not occurred, and the Designated System was thus removed.

Resulting payment: Seller pays the sum of (i) the Collateral Requirement with respect to such Designated System and (ii) one hundred percent (100%) of the total payments Seller has received from Buyer associated with RECs from such Designated System, including any Advance of Capital.

Z. The number of RECs for which payment is or will be based is determined by Seller to be understated due to an error in the capacity factor, and Seller exercised its right to remove the Designated System by making its request to Buyer and the IPA pursuant to Section 2.5(c).

Resulting payment: Seller shall return one hundred percent (100%) of the total payments, including any Advance of Capital, Seller has received from Buyer associated with RECs from such Designated System. Seller forfeits the Collateral Requirement as indicated in Schedule A to the Product Order associated with the Designated System. This forfeited amount may be re-credited to Seller as Performance Assurance if a new SFA application of the Designated System is approved by the ICC for inclusion in this Agreement or an agreement between Buyer and Seller under the SFA within three hundred sixty-five (365) days of the date of the written notice from Seller requesting removal, and the IPA so notifies Buyer. If the previously forfeited amount is not entirely required to meet the Collateral Requirement of such newly approved Designated System as required by the previous sentence, the excess amount will be refunded to Seller.

AA. The Designated System is an Abandoned Project and was removed pursuant to Section 4.2(g).

Resulting payment: If payments, including any Advance of Capital, have been made to Seller with respect to the Designated System, Seller shall return the amount of payment based on the applicable Contract Price and on the difference between the number of RECs used to calculate payment and the number of RECs Delivered from such Designated System (not to exceed the Designated System Contract Maximum REC Quantity). Seller may request for a refund of 25% of the Collateral Requirement associated with such Designated System in accordance with Section 7.1(f)(ii).

Form of Reports and Notices

Exhibit C-1 Bi-Annual System Status Report

(With respect to each Designated System that is not yet Energized and where the Proposed Nameplate Capacity is greater than 25 kW, Seller must provide the information required in this Bi-Annual System Status Report. Seller shall submit the Bi-Annual System Status Report to Buyer and the IPA every 6 months after the Trade Date indicated in the applicable Product Order that includes the Designated System in accordance with Section 6.1 of the Agreement.)

Agreement Effective Date: _____
 Trade Date: _____
 Date of Bi-Annual System Status Report: _____

Buyer: _____

Seller: _____
 Approved Vendor ID: _____

Sub-program: _____
 Batch ID: _____

	Item	Information
1	Designated System ID	
2	Project Name	
3	Proposed Nameplate Capacity	
4	Contract Capacity Factor (%)	
5	Project Status	[not yet under construction, under construction and X% complete, complete awaiting inspections or interconnection approvals] Details of Project Status:
6	Extension Requested	[Y/N] Date of Request: Reason: [interconnection delay, permitting delay, etc.] Status of Extension: [Granted/Denied/Pending] Length of Extension: Additional Information (Optional):
7	Requests to change REC obligation (may enter multiple)	Type (suspension, reduction, elimination, Force Majeure) Date of Request: Status of Request:

Notes:

1. This will be filled out on the illinoisSFA.com site and Approved Vendors will be prompted to complete the report every 6 months until the SFA Part II Application is complete, for each Designated System.
2. System information will be prefilled.
3. Community Renewable Energy Generation Projects will have additional Subscriber reporting requirements contained in Exhibit C-2.

Exhibit C-2 Community Solar First Year Report

(With respect to each Community Renewable Energy Generation Project that has been Energized, Seller shall submit the Community Solar First Year Report at the conclusion of four (4) full Quarterly Periods after the date of Energization in accordance with Section 6.2 of the Agreement).

Agreement Effective Date: _____

Trade Date: _____

Date of Community Solar First Year Report: _____

[] Payment Cycle A: consists of the following Quarterly Periods: January through March, April through June, July through September and October through December.

[] Payment Cycle B: consists of the following Quarterly Periods: February through April, May through July, August through October and November through January.

[] Payment Cycle C: consists of the following Quarterly Periods: March through May, June through August, September through November and December through February.

Buyer: _____

Seller: _____

Subscriber Information

Unique Subscriber Identifier	Subscription Size (kW)	Qualified Small Subscriber (Y/N)	End Use Customer (Y/N)	Subscription Start Date	Subscription End Date (if applicable)
Anchor Tenant (if applicable):					

Example

Unique Subscriber Identifier	Subscription Size (kW)	Qualified Small Subscriber (Y/N)	End Use Customer (Y/N)	Subscription Start Date	Subscription End Date (if Subscription has ended)
Anchor Tenant: 343323553	55.00	N	N	6/1/2028	
598398998	5.00	Y	Y	7/1/2028	11/1/2028
34005030	12.00	Y	Y	4/1/2028	

Notes:

1. The Community Solar First Year Report submitted is to be included with the REC Annual Report as applicable.
2. This information will be filled out on the illinoisSFA.com site and this exhibit is simply illustrative of the information that will be captured in that online report.
3. The Subscription size shall be rounded to two (2) decimal places.
4. The period covered by the Community Solar First Year Report shall be from Energization through the end of the fourth full Quarterly Period after Energization. For example, if a Project is Energized on February 27, 2027 and the Project is assigned Payment Cycle A by the IPA, then the fourth full Quarterly Period is the period from January 1, 2028 through March 31, 2028 and the period to be covered by the Community Solar First Year Report shall be from February 27, 2027 through March 31, 2028. The Community Solar First Year Report shall be due on April 10, 2028.

Exhibit C-3 REC Annual Report

(Seller shall submit a REC Annual Report to Buyer and the IPA no later than August 1 each year following the conclusion of the immediately preceding Delivery Year ending on May 31 in accordance with Section 6.3 of the Agreement. For avoidance of doubt, the REC Annual Report is required by Seller regardless of whether Seller has Designated Systems that are Energized or not. Further, for avoidance of doubt, the REC Annual Report shall not be required of Seller in the same Delivery Year as the Delivery Year when the Agreement was entered into and became effective.⁴⁵)

(The REC Annual Report must contain information for each Designated System)

Buyer: _____

Seller: _____

Approved Vendor ID: _____

Date of REC Annual Report: _____

Delivery Year: _____

Sub-program: _____

Batch ID: _____

	Item	Information (fill in N/A if not applicable).
1	Designated System ID	
2	Project Name	
3	Project Status	[not yet under construction; under construction and X% complete; complete awaiting inspections or interconnection approvals] Details of Project Status:
4	Proposed Nameplate Capacity	(if not yet Energized)
	Actual Nameplate Capacity	(if Energized)
	Contract Nameplate Capacity	(if Energized)
5	Proposed Capacity Factor (%)	
	Actual Capacity Factor (%)	
	Contract Capacity Factor (%)	
6	PJM-EIS GATS or M-RETS ID	(if Energized)
7	REC Deliveries since last report (or since Energization if first report)	
	Date of first REC Delivery (or N/A if not applicable)	
	Confirmation of uploaded meter readings	[Y/N]
	RECs contracted	
	RECs Delivered	

⁴⁵ For example, if the Agreement’s Effective Date is June 1, 2032, the first REC Annual Report is due by August 1, 2033. If the Agreement’s Effective Date is April 15, 2032, the first REC Annual Report is due by August 1, 2032.

8	Extension Requested	[Y/N] Date of Request: Reason: [interconnection delay, permitting delay, etc.] Status of Extension: [Granted/Denied/Pending] Length of Extension: Additional Information (Optional):

11	Consumer complaints received during the Delivery Year	

Notes:

1. This will be filled out on the illinoisSFA.com website using a customer annual report portal.
2. System information will be prefilled.
3. Production data can be automatically filled by uploading the “my generation” .csv from GATS or equivalent from M-RETS.
4. Community Renewable Energy Generation Projects will have additional ongoing Subscriber reporting requirements in each REC Annual Report, including all the data fields contained in Exhibit C-2.

Exhibit C-4
Form of Acknowledgement of Assignment Notice

ACKNOWLEDGMENT OF ASSIGNMENT

By this Acknowledgment of the Assignment of **Solar for All Program (“SFA”) Contract No.** _____ **for those batches listed in Attachment A (“the Assigned Obligations” for purposes of this form),** as contemplated in Section 13.1 of the SFA Contract, the **Buyer** _____, **Seller/Assignor** _____, and **Transferee/Assignee** _____, each a “Party” (and, collectively, the “Parties”), agree to and acknowledge the following:

Through their execution below, the Parties agree that this Acknowledgment of Assignment may be signed in counterparts, is effective only upon execution by all three Parties, and, unless otherwise specified, shall be effective as of the date of last execution.

SELLER/ASSIGNOR acknowledges that it requested on _____ that the Assigned Obligations be assigned to the Transferee/Assignee; acknowledges that it has consented to assign the Assigned Obligations to Transferee/Assignee; acknowledges that it must provide all pertinent contact information with respect to the Assignee; and acknowledges that upon doing so, it has been expressly released from any rights and obligations related to the Assigned Obligations under this Agreement, as applicable under Section 13.1 of the SFA Contract.

Signed By (name/title): _____

Signature _____ DATE _____

TRANSFEE/ASSIGNEE acknowledges that, with respect to the Assigned Obligations, it has consented to assume all responsibilities of Seller under this Agreement; agrees to be bound by all terms, conditions, and deadlines present in the SFA Contract; represents that it is an Approved Vendor in good standing in the Solar for All Program (or, in the case of foreclosure on collateral, agrees to become an Approved Vendor or assign this contract within 180 days); and agrees to provide all necessary documentation demonstrating that it meets all conditions specific to a Seller under this Agreement to the extent that it has not already done so.

Signed By (name/title): _____

Signature _____ DATE _____

Posted: June 1, 2026

BUYER acknowledges that it received a notification for Assignment of the Assigned Obligations under this Agreement from Seller/Assignor; and recognizes that Transferee/Assignee has submitted necessary documentation demonstrating that it meets all conditions specific to a Seller under this Agreement; and acknowledges that it has received contact and payment information for Transferee/Assignee; and makes no statement with respect to Seller's acknowledgement of release.

Signed By (name/title): _____

Exhibit C-5
Form of Acknowledgement of Assignment and Consent Notice

(This Form shall be used if the transferee is not currently a counterparty to a REC agreement with Buyer under the SFA)

ACKNOWLEDGMENT OF ASSIGNMENT AND CONSENT

By this Acknowledgment of the Assignment of **Solar for All Program (“SFA”) Contract No.** _____ for those batches listed in Attachment A (**“the Assigned Obligations” for purposes of this form**), as contemplated in Section 13.1 of the SFA Contract, the **Buyer** _____, **Seller/Assignor** _____, and **Transferee/Assignee** _____, each a “Party” (and, collectively, the “Parties”), agree to and acknowledge the following:

Through their execution below, the Parties agree that this Acknowledgment of Assignment may be signed in counterparts, is effective only upon execution by all three Parties, and, unless otherwise specified, shall be effective as of the date of last execution.

SELLER/ASSIGNOR acknowledges that it requested on _____ that the Assigned Obligations be assigned to the Transferee/Assignee; acknowledges that it has consented to assign the Assigned Obligations to Transferee/Assignee; acknowledges that it must provide all pertinent contact information with respect to the Assignee; and acknowledges that only upon Buyer’s approval of the Assignment demonstrated through its execution below has it been expressly released from any rights and obligations related to the Assigned Obligations under this Agreement, as applicable under Section 13.1 of the SFA Contract.

Signed By (name/title): _____

Signature _____ DATE _____

TRANSFEE/ASSIGNEE acknowledges that, with respect to the Assigned Obligations, it has consented to assume all responsibilities of Seller under this Agreement; agrees to be bound by all terms, conditions, and deadlines present in the SFA Contract; represents that it is an Approved Vendor in good standing in the Solar for All Program (or, in the case of foreclosure on collateral, agrees to become an Approved Vendor or assign this contract within 180 days); and agrees to provide all necessary documentation demonstrating that it meets all conditions specific to a Seller under this Agreement to the extent that it has not already done so.

Signed By (name/title): _____

Signature _____ DATE _____

Posted: June 1, 2026

BUYER acknowledges that it received a Request for the Approval of the Assigned Obligations under Section 13.1 of the SFA Contract from Seller/Assignor; recognizes that Transferee/Assignee has submitted necessary documentation demonstrating that it meets all conditions specific to a Seller under this Agreement; acknowledges that it has received contact and payment information for Transferee/Assignee; and, through its execution below, hereby offers its written consent to effectuate the Assignment.

If Buyer's consent to release Seller/Assignor from its obligations in respect of the Assigned Obligations under the SFA Contract is required by Section 13.1 of the SFA Contract, Buyer confirms that it (check appropriate response):

does consent to such release

does not consent to such release

Any response with respect to such consent shall be of no force or effect where Buyer's consent to a release is not required by Section 13.1 of the SFA Contract.

EXHIBIT D

Forms of Invoice

Exhibit D-1 Form of Invoice

In accordance with Section 5.1 of the Agreement, with respect to a Quarterly Payment Cycle, no more than one (1) invoice will be processed for payment per Quarterly Period of the Quarterly Payment Cycle. If Seller fails to render an invoice by the Invoice Due Date, no payment will be processed for that Quarterly Period. For any amounts associated with late invoices, those amounts shall be eligible to be included in the following Quarterly Period's invoice for subsequent payment. Buyer shall not be obligated to pay any invoice that is delivered more than six (6) months after the end of the Term of this Agreement.

(The Form of Invoice must contain information for all Designated Systems in the applicable Quarterly Payment Cycle)

Maximum Allowable Payment: \$ _____

In this exhibit, the Maximum Allowable Payment is for one Quarterly Payment Cycle. This amount shall be calculated prior to any withholdings pursuant to Section 7.1(c) or Section 7.1(d) of the Agreement, and therefore does not reflect any such withheld amounts. Following four (4) full Quarterly Periods after Energization for a Community Renewable Energy Generation Project, the Maximum Allowable Payment may include one payment adjustment pursuant to Section 2.6 and as described in Exhibit F-3. Additionally, the Maximum Allowable Payment may also include any Advance of Capital amount, if applicable, associated with Designated Systems in this Quarterly Payment Cycle that has been Energized in accordance with Section 5.6.

IRREVOCABLE STANDBY LETTER OF CREDIT FORM
DATE OF ISSUANCE: _____

[Address]

Re: Credit No. _____

We, _____ (the "Issuing Bank"), hereby establish our Irrevocable Transferable Standby Letter of Credit (the "Letter of Credit") in favor of _____ (you, the "Beneficiary") for the account of _____ (the "Account Party"), for the aggregate amount not exceeding _____ United States Dollars (\$ _____), available to you at sight upon demand at our counters at _____ [designate Issuing Bank's location for presentments] on or before the expiration hereof against presentation to us of one or more of the following statements, dated and signed by an Authorized Officer of the Beneficiary:

1. "An Event of Default (as defined in the Master Renewable Energy Credit Purchase and Sale Agreement dated as of _____ between [Beneficiary Name] ("Beneficiary") and [Account Party's Name] ("Account Party"), as the same may be amended (the "Agreement")) has occurred and is continuing with respect to Account Party under the Agreement and no Event of Default has occurred and is continuing with respect to the Beneficiary of this Letter of Credit. Wherefore, the undersigned does hereby demand payment of _____ United States Dollars (\$ _____) [or the entire undrawn amount of the Letter of Credit]";
2. "An Early Termination Date (as defined in the Master Renewable Energy Credit Purchase and Sale Agreement dated as of _____ between [Beneficiary Name] ("Beneficiary") and [Account Party's Name] ("Account Party"), as the same may be amended (the "Agreement")) has occurred and is continuing with respect to Account Party under the Agreement and no Event of Default has occurred and is continuing with respect to the Beneficiary of this Letter of Credit. Wherefore, the undersigned does hereby demand payment of _____ United States Dollars (\$ _____) [or the entire undrawn amount of the Letter of Credit]";
3. "The expiration date of your Letter of Credit is less than twenty (20) days from the date of this statement, and Account Party under such Letter of Credit is required, but has failed, to provide a replacement letter of credit or other collateral beyond such expiration date in accordance with, and to assure performance of, its obligations under the Master Renewable Energy Credit Purchase and Sale Agreement dated as of _____ between [Beneficiary Name] ("Beneficiary") and [Account Party's Name] ("Account Party"), as the same may be amended (the "Agreement"). No event of default has occurred and is continuing under the Agreement with respect to the Beneficiary. Wherefore, the undersigned does hereby demand payment of _____ United States Dollars (\$ _____) [or the entire undrawn amount of the Letter of Credit]"; or
4. "An event permitting a payment under the Master Renewable Energy Credit Purchase and Sale Agreement dated as of _____ between [Beneficiary Name] ("Beneficiary") and [Account Party's Name] ("Account Party"), as the same may be amended (the "Agreement") has occurred and such payment has not been received by Beneficiary within the time period prescribed in the Agreement. Wherefore, the undersigned does hereby demand payment of _____ United States Dollars (\$ _____) [or the entire undrawn amount of the Letter of Credit]".

This Letter of Credit shall expire on _____. It is a condition of this Letter of Credit that it will be

Posted: June 1, 2026

automatically extended for one year periods (to the immediately following anniversary of its then current expiration date) following its then current expiration date, unless at least sixty (60) days before its then current expiration date, we notify you, by electronic means to _____ Attn: _____ that we do not intend to extend this Letter of Credit; provided that the original notice shall be simultaneously forwarded by overnight courier service to you at the above address; provided further that the failure of the courier service to timely deliver shall not affect the efficacy of the notice.

Partial drawings are permitted hereunder and multiple presentations are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced by the amount of any drawings paid through us referencing this Letter of Credit. Presentation of demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements above, provided that the amounts payable on any such demand shall thus be limited to the amount then available to be drawn under this Letter of Credit.

We hereby agree with you that documents drawn under and in compliance with the terms and conditions of this Letter of Credit shall be duly honored upon presentation as specified. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission or electronic means. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. Presentation of documents to effect a draw by electronic means must be made to the following email address: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission or via electronic means, no mail confirmation is necessary and the facsimile transmission or the electronic communication will constitute the operative drawing documents.

This Letter of Credit shall be governed by the Uniform Customs and Practice for Documentary Credits, 2007 Revision, International Chamber of Commerce Publication No. 600, or any successor publication thereto (the "UCP"), except to the extent that the terms hereof are inconsistent with the provisions of the UCP, including but not limited to Articles 14(b), 16(d) and 36 of the UCP, in which case the terms of this Letter of Credit shall govern. Matters not covered by the UCP shall be governed and construed in accordance with the laws of the State of New York.

With respect to Article 14(b) of the UCP, the Issuing Bank shall have a reasonable amount of time, not to exceed three (3) Business Days, following the date of its receipt of documents from the Beneficiary, to examine the documents and determine whether to take up or refuse the documents and shall inform the Beneficiary accordingly. With respect to Article 16(d) of the UCP, the notice required in sub-article 16C must be given no later than the banks' close of business on the third Business Day following the date of presentation.

Article 36 of the UCP as it applies to this Irrevocable Standby Letter of Credit is hereby modified to provide that in the event of an Act of God, riot, civil commotion, insurrection, war or any other cause beyond our control that interrupts our business (collectively, an "Interruption Event") and causes the place for presentation of this Letter of Credit to be closed for business on the last day for presentation, the expiry date of this Letter of Credit will be automatically extended without amendment to a date thirty (30) calendar days after the place for presentation reopens for business. Article 36 of the UCP as it applies to this Irrevocable Standby Letter of Credit is hereby further modified to provide that any alternate place for presentation that we designate must be located in the United States.

We, the Issuing Bank, hereby certify that as of the Date of Issuance of this Irrevocable Standby Letter of Credit our senior unsecured debt is rated "A-" or better by S&P Global Ratings ("S&P") if rated by S&P, "A3" or better from Moody's Investors Service ("Moody's") if rated by Moody's, and "A-" or better by Fitch Ratings ("Fitch") if rated by Fitch. We hereby certify that our senior unsecured debt is rated by at least two of S&P, Moody's, and Fitch. If affiliated with a foreign bank, we further certify we are a U.S. branch office of such foreign bank and that as of the Date of Issuance of this Letter of Credit, our senior unsecured debt meets the ratings requirement of this paragraph.

As used herein, the term "Business Day" means any day on which Federal Reserve Banks and Branches are open for business, such that payments can be effected on the Fedwire system and the term "Authorized Officer" means President, Treasurer, any Vice President or any Assistant Treasurer.

This Letter of Credit is transferable in whole but not in part, in accordance with the procedures in UCP 600 through the submission of a Letter of Full Transfer utilizing one of the attached forms of Letter of Full Transfer (Schedules 1-3), accompanied by the original Letter of Credit and original amendments, if any, but otherwise may not be amended, changed or modified without the express written consent of the Beneficiary, the Issuing Bank and the Account Party.

Posted: June 1, 2026

This Letter of Credit may not be transferred to any person with which U.S. persons are prohibited from doing business under U.S. Foreign Assets Control Regulations or other applicable U.S. Laws and Regulations.

We will not make any payment under this Letter of Credit (1) to any entity or person who is subject to the sanctions issued by the United States Department of Commerce, or to whom payment is prohibited by the foreign asset control regulations of the United States Department of the Treasury, or (2) which otherwise is in contravention of United States laws and regulations.

[The Issuing Bank may add specific contact or additional information or administrative- only comments at this point. However, such comments shall not create or alter any rights that vary from the above language].

This Letter of Credit shall expire on _____. It is a condition of this Letter of Credit that it will be automatically extended for one year periods (to the immediately following anniversary of its then current expiration date) following its then current expiration date, unless at least sixty (60) days before its then current expiration date, we notify you, by electronic means to _____ Attn: _____ that we do not intend to extend this Letter of Credit; provided that the original notice shall be simultaneously forwarded by overnight courier service to you at the above address; provided further that the failure of the courier service to timely deliver shall not affect the efficacy of the notice.

Posted: June 1, 2026

Partial drawings are permitted hereunder and multiple presentations are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced by the amount of any drawings paid through us referencing this Letter of Credit. Presentation of demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements above, provided that the amounts payable on any such demand shall thus be limited to the amount then available to be drawn under this Letter of Credit.

We hereby agree with you that documents drawn under and in compliance with the terms and conditions of this Letter of Credit shall be duly honored upon presentation as specified. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission or electronic means. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. Presentation of documents to effect a draw by electronic means must be made to the following email address: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission or via electronic means, no mail confirmation is necessary and the facsimile transmission or the electronic communication will constitute the operative drawing documents.

This Letter of Credit is subject to International Standby Practices (ISP98), International Chamber of Commerce (“ICC”) Publication No. 590, or any successor publication thereto. This Standby Letter of Credit shall be deemed to be made under the laws of the State of New York, including Article 5 of the Uniform Commercial Code, and shall, as to matters not governed by the International Standby Practices (ISP98), be governed by and construed in accordance with the laws of the State of New York, excluding any choice of law provisions or conflict of law principles which would require reference to the laws of any other jurisdiction.

Rule 3.14(a) of the ISP as it applies to this Irrevocable Standby Letter of Credit is hereby modified to provide as follows:

If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation reopens for business.

Rule 3.14(b) of the ISP as it applies to this Irrevocable Standby Letter of Credit is hereby further modified to provide that any alternate place for presentation that we designate must be located in the United States.

We, the Issuing Bank, hereby certify that as of the Date of Issuance of this Irrevocable Standby Letter of Credit our senior unsecured debt is rated “A-” or better by S&P Global Ratings (“S&P”) if rated by S&P, “A3” or better from Moody’s Investors Service (“Moody’s”) if rated by Moody’s, and “A-” or better by Fitch Ratings (“Fitch”), if rated by Fitch. We hereby certify that our senior unsecured debt is rated by at least two of S&P, Moody’s, and Fitch. If affiliated with a foreign bank, we further certify we are a U.S. branch office of such foreign bank and that as of the Date of Issuance of this Letter of Credit, our senior unsecured debt meets the ratings requirement of this paragraph.

As used herein, the term “Business Day” means any day on which Federal Reserve Banks and Branches are open for business, such that payments can be effected on the Fedwire system and the term “Authorized Officer” means President, Treasurer, any Vice President or any Assistant Treasurer.

This Letter of Credit, except as expressly stated herein, is transferable in whole but not in part in accordance with the ICC Publication No. 590. Any transfer request must be presented to us utilizing one of the attached forms of Letter of Full Transfer (Schedules 1-3) together with the original Letter of Credit and original amendments, if any. Transfers to designated foreign nationals and/or specially designated nationals are not permitted as being contrary to the U.S. Treasury Department or foreign assets control regulations.

Except for the transfer, this letter of credit otherwise may not be amended, changed or modified without the express written consent of the Beneficiary, the Issuing Bank, and the Account Party.

We will not make any payment under this Letter of Credit (1) to any entity or person who is subject to the sanctions issued by the United States Department of Commerce, or to whom payment is prohibited by the foreign asset control regulations of the United States Department of the Treasury, or (2) which otherwise is in contravention of United States laws and regulations.

Schedule 1 to Exhibit E

LETTER OF FULL TRANSFER

_____, 20____

To:
Bank Address

Ladies/Gentlemen:

RE: Credit Issued By _____

For value received, the undersigned beneficiary hereby irrevocably transfers to:

(Name of Transferee)

(Address)

all rights of the undersigned beneficiary to draw under the above Letter of Credit in its entirety.

By this transfer, all rights of the undersigned beneficiary in such Letter of Credit are transferred to the transferee and the transferee shall have the sole rights as beneficiary thereof, including sole rights relating to any amendments whether increases or extensions or other amendments and whether now existing or hereafter made. All amendments are to be advised direct to the transferee without necessity of any consent of or notice to the undersigned beneficiary.

The original of such Letter of Credit and original amendments, if any, are returned herewith, and we ask you to endorse the Letter of Credit and amendments on the reverse thereof, and forward these direct to the transferee with your customary notice of transfer.

Enclosed is remittance of \$_____ in payment of your transfer commission and in addition thereto we agree to pay to you on demand any expenses which may be incurred by you in connection with this transfer.

Transfer Commission Charges

SIGNATURE AUTHENTICATED

Yours very truly,

The signatory/ies of this concern is/are authorized to withdraw corporate funds.

Schedule 2 to Exhibit E

LETTER OF FULL TRANSFER

Request for a Full Transfer of the below
referenced Standby Letter of Credit

[Name of the Issuing Bank]

Date: _____

Reference: _____

(Issuing Bank’s Letter of Credit Number

To: _____

(Advising Bank’s Reference Number, if applicable)

“Transferring Bank”

We, the undersigned “First Beneficiary”, hereby irrevocably transfer all of our rights to draw under the above referenced Letter of Credit (“Credit”) in its entirety to:

(Print Name and complete address of the Transferee) “Second Beneficiary”

Advise through:

(Print Name/address of the Second Beneficiary’s Bank, if known—
if left blank, the Transferring Bank will select the advising bank)

In accordance with UCP 600 Article 38 or ISP 98, Rule 6 regarding transfer of drawing rights (whichever set of rules the Credit is subject to), all rights of the undersigned First Beneficiary in such Credit are transferred to the Second Beneficiary. The Second Beneficiary shall have the sole rights as beneficiary thereof, including sole rights relating to any amendments whether increases or extensions or other amendments and whether now existing or hereafter made. All amendments are to be advised directly to the Second Beneficiary without necessity of any consent of or notice to the undersigned First Beneficiary.

The original Credit, including amendments to this date, is attached and the undersigned First Beneficiary requests that you endorse an acknowledgment of this transfer on the reverse thereof. The undersigned First Beneficiary requests that you notify the Second Beneficiary of this Credit in such form and manner as you deem appropriate, and the terms and conditions of the Credit as transferred.

Posted: June 1, 2026

Enclosed is remittance of \$[_____] in payment of your transfer commission and in addition thereto we agree to pay to you on demand any expenses which may be incurred by you in connection with this transfer.

Transfer Commission Charges

First Beneficiary represents and warrants to Transferring Bank that (i) our execution, delivery, and performance of this request to Transfer (a) are within our powers and have been duly authorized (b) constitute our legal, valid, binding and enforceable obligation (c) do not contravene any charter provision, by-law, resolution, contract, or other undertaking binding on or affecting us or any of our properties and (d) do not require any notice, filing or other action to, with, or by any governmental authority (ii) we have not presented any demand or request for payment or transfer under the Credit affecting the rights to be transferred, and (iii) the Second Beneficiary's name and address are correct and complete and the transactions underlying the Credit and the requested Transfer do not violate applicable United States or other law, rule or regulation, including without limitation U.S. Foreign Asset Control regulations.

In the event that we fail to remit to you, following your written demand, any funds paid to us despite the Transfer, we agree to reimburse you for your reasonable costs of collecting those funds from us.

The Effective Date shall be the date hereafter on which Transferring Bank effects the requested transfer by acknowledging this request and giving notice thereof to Second Beneficiary.

Schedule 3 to Exhibit E

LETTER OF FULL TRANSFER

_____, 20__

[TRANSFEROR]

Re: Irrevocable Standby Letter of Credit No. _____

We request you to transfer all of our rights as beneficiary under the Letter of Credit referenced above to the Transferee, named below:

Name of Transferee _____

Address _____

By this transfer all our rights as the transferor, including all rights to make drawings under the Letter of Credit, go to the transferee. The transferee shall have sole rights as beneficiary, whether existing now or in the future, including sole rights to agree to any amendments, including increases or extensions or other changes. All amendments will be sent directly to the transferee without the necessity of consent by or notice to us.

We enclose the original letter of credit and any amendments. Please indicate your acceptance of our request for the transfer by endorsing the letter of credit and sending it to the transferee with your customary notice of transfer.

The signature and title at the right conform with those shown in our files as authorized to sign for the beneficiary. Policies governing signature authorization as required for withdrawals from customer accounts shall also be applied to the authorization of signatures on this form. The authorization of the Beneficiary's signature and title on this form also acts to certify that the authorizing financial institution (i) is regulated by a US. federal banking agency; (ii) has implemented anti-money laundering policies and procedures that comply with applicable requirements of law, including a Customer Identification Program (CIP) in accordance with Section 326 of the USA PATRIOT Act; (iii) has approved the Beneficiary under its anti-money laundering compliance program; and (iv) acknowledges that [the Transferor] is relying on the foregoing certifications pursuant to 31 C.F.R. Section 103.121 (b)(6)."

EXHIBIT F

Examples

Exhibit F-1 Delivery Schedule Example *(All Prices and Quantities are Illustrative only)*

Date of Energization	February 1, 2027
Contract Nameplate Capacity	1.000 MW
System Type	Fixed-mount System
Contract Capacity Factor	16.42 %
Year-1 Contract Capacity Factor	17.003210%
Annual Degradation Factor	0.5%

Delivery Year	Delivery Year Expected REC Quantity (RECs)
2026-2027	1,489
2027-2028	1,482
2028-2029	1,474
2029-2030	1,467
2030-2031	1,459
2031-2032	1,452
2032-2033	1,445
2033-2034	1,438
2034-2035	1,430
2035-2036	1,423
2036-2037	1,416
2037-2038	1,409
2038-2039	1,402
2039-2040	1,395
2040-2041	1,388
Subsequent Delivery Years	99.5% of the Delivery Year Expected REC Quantity calculated for the prior Delivery Year, rounded down

Notes:

- For avoidance of doubt, the delivery schedule shall be calculated at the time of Energization and not at the time of the start of the Delivery Term.
- The first Delivery Year shall be the Delivery Year during which Energization occurred. For example, if the Designated System is Energized on February 1, 2027, then the first Delivery Year shall be for the period starting June 1, 2026 through May 31, 2027.
- The Year-1 Contract Capacity Factor shall be equal to the result obtained by dividing the Contract Capacity Factor by 0.9657.
- The Delivery Year Expected REC Quantity for the first (1st) Delivery Year is the multiplicative product of (a) the Contract Nameplate Capacity (MW), (b) the Year-1 Contract Capacity Factor, and

(c) 8,760 hours, which result shall be rounded down to the nearest whole REC. For every subsequent year thereafter within the first fifteen (15) Delivery Years (inclusive of the fifteenth (15th) Delivery Year), the Delivery Year Expected REC Quantity is the multiplicative product of (x) the unrounded value of the Delivery Year Expected REC Quantity calculated for the previous Delivery Year and (y) 0.995, which result shall be rounded down to the nearest whole REC.

For the above example, for a 1 MW AC project with a Year-1 Contract Capacity Factor of 17.003210%, for Delivery Year 2026-2027, the Delivery Year Expected REC Quantity of 1,489 RECs is calculated by multiplying (a) 1 MW AC, (b) 17.003210%, and (c) 8,760 hours, rounded down to the nearest whole REC. For Delivery Year 2027-2028, the Delivery Year Expected REC Quantity 1,482 RECs is obtained by multiplying (x) 1,489.4812 (the unrounded value of the Delivery Year Expected REC Quantity calculated for the previous Delivery Year) and (y) 0.995, rounded down to the nearest whole REC. For Delivery Year 2028-2029, the Delivery Year Expected REC Quantity of 1,474 RECs is obtained by multiplying (x) 1,482.0338 (the unrounded value of the Delivery Year Expected REC Quantity calculated for the previous Delivery Year) and (y) 0.995, rounded down to the nearest whole REC.

- If the Delivery Term for a Designated System extends beyond the Delivery Years for which a Delivery Year Expected REC Quantity is provided above, then each subsequent Delivery Year Expected REC Quantity shall be 99.5% of the prior Delivery Year Expected REC Quantity for such Designated System. For example, if the Delivery Year Expected REC Quantity for Delivery Year 2040-2041 is 1,388 RECs, the Delivery Year Expected REC Quantity for Delivery Year 2041-2042 shall be 1,381 RECs, or 99.5% of 1,388 RECs, rounded down to the nearest whole REC.
- For avoidance of doubt, the sum of the Delivery Year Expected REC Quantity across fifteen (15) years may differ from the Designated System Contract Maximum REC Quantity.

Exhibit F-2 Surplus RECs and Drawdown Payments Example

(All Prices and Quantities are Illustrative only)

Once annually on or prior to December 2 following a Delivery Year (but only once three full Delivery Years have occurred after the start of a Delivery Term), the IPA shall review the performance of the REC Deliveries made during such Delivery Year and determine the amount of payment due.

The calculations made annually are performed on a portfolio basis for all Designated Systems included in this Agreement across all Product Orders.

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the calculations made.

Delivery Year for which calculation is performed: June 1, 2028 through May 31, 2029

Step 1: Calculate the Delivery Year REC Performance

Designated System ID	Delivery Year 2026-2027	Delivery Year 2027-2028	Delivery Year 2028-2029	Delivery Year REC Performance
1000	135	133	128	132 RECs
1001	158	155	152	155 RECs
1002	190	188	186	188 RECs
1003	251	220	246	239 RECs

(1) For Delivery Year 2028-2029, the Delivery Year REC Performance is the 3-year rolling average of actual Deliveries that occurred during the period June 1, 2026 through May 31, 2029.

Step 2: Determine whether a Designated System is underperforming or outperforming

Designated System ID	Contract Price (\$/REC)	Delivery Year Expected REC Quantity	Delivery Year REC Performance	Surplus REC / Delivery Year Shortfall Amount
1000	73.23	135 RECs	132 RECs	-3
1001	65.61	160 RECs	155 RECs	-5
1002	55.55	186 RECs	188 RECs	2
1003	48.07	245 RECs	239 RECs	-6

(1) The Delivery Year REC Performance is calculated from Step 1.

(2) The Delivery Year Expected REC Quantity for a Designated System and a Delivery Year is provided in the Schedule B to the Product Order applicable to such Designated System.

(3) If the Delivery Year REC Performance is less than the Delivery Year Expected REC Quantity, the difference in the number of RECs shall be the “Delivery Year Shortfall Amount”. If the Delivery Year REC Performance is more than the Delivery Year Expected REC Quantity, the difference in the number of RECs shall be the “Surplus RECs”.

Step 3: Calculate total amount of Surplus RECs in the Surplus REC Account

Balance of Surplus RECs in Surplus REC Account (at beginning of period) = 7 RECs

Add number of Surplus RECs from Step 2 above = 2 REC (from Designated System #1002)

Total Surplus RECs that could be applied to Shortfall Amounts = 7+2 = 9 RECs

Step 4: Allocate Surplus RECs from Surplus REC Account to Shortfall Amounts

Designated System ID	Contract Price (\$/REC)	Shortfall Amount	Surplus RECs applied	Drawdown REC Quantity	Drawdown Payment
1000	73.23	-3	0	-3	-\$219.69
1001	65.61	-5	3	-2	-\$131.22
1003	48.07	-6	6	0	0

(1) For each Designated System that has a Delivery Year Shortfall Amount, starting with the Designated System with the lowest Contract Price, Surplus RECs from the Surplus REC Account are reduced and allocated to meet the Delivery Year Shortfall Amount.

Step 5: Calculate the Aggregate Drawdown Payment⁴⁶

Aggregate Drawdown Payment = sum of the Drawdown Payments = \$219.69 + \$131.22 = \$350.91

- (1) Buyer shall be entitled to draw down Seller’s Performance Assurance in the amount of the Aggregate Drawdown Payment pursuant to Section 4.2(c)(v)(A) of the Agreement.
- (2) If Seller’s Performance Assurance Amount is less than the Aggregate Drawdown Payment, then Seller shall pay Buyer the difference within fifteen (15) Business Days of notice by Buyer.
- (3) Seller shall be required, within ninety (90) days of such drawing, to post as Seller’s Performance Assurance additional collateral to maintain or restore the Performance Assurance Requirement.
- (4) For purposes of calculating the Delivery Year REC Performance in future years, each Designated System that has a Delivery Year Shortfall Amount for which such Delivery Year Shortfall Amount is covered by Surplus RECs and/or for which a payment from Seller or from Seller’s Performance Assurance Amount has been applied to the Drawdown REC Quantity, such Designated System is deemed to have Delivered REC quantities equal to the Delivery Year Expected REC Quantity in each such Delivery Year accounted for in the Delivery Year REC Performance calculation that resulted in the Delivery Year Shortfall Amount.⁴⁷

⁴⁶ This example in Step 5 is solely for Drawdown Payments under Section 4.2(c)(iv) and assumes that there are no Drawdown Payments attributable to calculations under Section 4.2(d) for the Delivery Year.

⁴⁷ As such, the REC Deliveries in each of the Delivery Years accounted for in the Delivery Year REC Performance (i.e., the 3-year rolling average) will be deemed to have the same REC Deliveries in each such Delivery Year (i.e., thereby netting out any specific year underperformance or overperformance) for purposes of calculating the Delivery Year REC Performance in future Delivery Years. For example, in the scenario here, for Designated System 1000, once a payment from Seller or from Seller’s Performance Assurance Amount has been applied to the Drawdown REC Quantity, the REC Delivery quantity shall be deemed to be 135 RECs for each of Delivery Year 2027-2028 and Delivery Year 2028-2029, for purposes of calculating the Delivery Year REC Performance for each of 2029-2030 and 2030-2031.

Exhibit F-3 Community Solar First Year Payment Adjustment Example

(All Prices and Quantities are Illustrative only)

In accordance with Section 2.6(a) or Section 2.6(c), if the Designated System is a Community Renewable Energy Generation Project, then the quantity of RECs used for purposes of the first REC payment shall be based on the percent of Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant and End User Customers at the time of Energization of such Designated System, and which shall be subject to one (1) additional adjustment based on the information in the Community Solar First Year Report submitted by Seller to the IPA.

The Designated System has the following characteristics:

(a) Actual Nameplate Capacity:	1,500	kW		
(b) Contract Capacity Factor:	16.42%			
(c) Date of Energization:	5/15/2027			
(d) SFA Price	\$71.29			
(e) ABP Price ⁴⁸	\$52.28			
			Energization (5/15/2027)	First Year Ending (5/31/2028)
(f) Anchor Subscriber Rate			30%	30%
(g) End Use Customer Subscriber Rate ⁴⁹			40%	45%
(h) Total Subscriber Rate ⁵⁰			70%	75%
(j) Contract Price (\$/REC) (weighted average)			\$63.14	\$63.69

⁴⁸ The ABP price is the REC price associated with the analogous nameplate capacity under the Community Driven Community Solar Category of the ABP of such Designated System and if such REC price is not available then the last prevailing REC price associated with the analogous nameplate capacity under the Community Driven Community Solar Category of the ABP. This example assumes that the Anchor Tenant is not a Master-Meter Income-Eligible Residential Building Anchor Tenant.

⁴⁹ The quantity of RECs used for purposes of calculating REC payments shall be zero (0) if the percent of Non-Anchor Nameplate Capacity that has been Subscribed by End Use Customers is less than fifty percent (50%). In this example, given the percent Subscribed by the Anchor Tenant is 30%, the minimum that must be Subscribed by End Use Customers would be 35% (which is 50% of the remaining 70%).

⁵⁰ The term "Subscriber Rate" as used in this Exhibit F-3 shall mean the percent of the Actual Nameplate Capacity that has been Subscribed by the Anchor Tenant or End Use Customer or both (as applicable) at the point in time indicated (i.e., either the date of Energization or the end of the fourth full Quarterly Period after Energization).

Payment Adjustment

The payment adjustment shall be based on information from the Community Solar First Year Report submitted by Seller.

The Community Solar First Year Report is required to be submitted by Seller on or prior to June 10, 2028 and should be submitted concurrently with its invoice submitted on June 10, 2028, if any. This payment adjustment will be reflected in the Quarterly Netting Statement issued by the IPA on September 1, 2028 and can be included in Seller's invoice due September 10, 2028.

Price Elements (based on Subscription Rate)

(a) Contract Price at Energization	\$63.14
(b) Contract Price at end of First Year Period (i.e., May 31, 2028)	\$63.69
(c) Price difference [(b) - (a)]	\$0.55

Quantity Elements (based on Subscriber Rate)

(d) number of months of REC Delivery associated with previous payment (100% of 180 months)	180
(e) number of months not subject to payment adjustment (May 15, 2027 – May 31, 2028 ⁵¹)	12
(f) number of months for which prior payments are subject adjustment [(d)-(e)]	168

For the months obtained in (f), calculate the following:

(g) REC Quantity based on Subscriber Rate at Energization (i.e., 1.5MW x Contract Capacity Factor x 8,760 x 15 x Subscriber Rate of 70%) x (168/180), rounded down	21,144
(h) REC Quantity based on Subscriber Rate at end of First Year Period: 5/31/2028 (i.e., 1.5MW x Contract Capacity Factor x 8,760 x 15 x Subscriber Rate of 75%) x (168/180), rounded down	22,654
(i) Change in REC Quantity associated with period subject to Payment Adjustment [(h)-(g)]	1,510

Payment Adjustment

(j) Apply Price Differential to Previously Paid REC Quantity [(c)*(g)]	\$11,629.20
(k) Pay for incremental Quantity [(b)*(i)]	\$96,171.90
(l) TOTAL PAYMENT ADJUSTMENT [(j) + (k)]	\$107,801.10

⁵¹ For purposes of the payment adjustment calculation, if the date of Energization does not fall on the first of the month, then the date that is the first day of the month following the date of Energization shall be used as the start date of the period for which the initial Contract Price and initial Subscriber Rate recorded on date of Energization shall apply. For example, if the date of Energization is on May 15, 2027, then the number of months not subject to the payment adjustment shall be counted starting from June 1, 2027.

Exhibit F-4 Quarterly Netting Statement Calculations Example

(All Prices and Quantities are Illustrative only)

The IPA shall endeavor, on a commercially reasonable efforts basis, to issue to Seller such Quarterly Netting Statement specifying the Maximum Allowable Payment by the first (1st) Business Day of the month following the conclusion of a Quarterly Period if there is a change to the Maximum Allowable Payment that can be made under such Quarterly Payment Cycle since the last issuance of the Quarterly Netting Statement for such Quarterly Payment Cycle.

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the Quarterly Netting Statement applicable to a Quarterly Payment Cycle at one point in time.

Designated System ID ⁵²	Energization Date	Contract Nameplate Capacity (kW)	Designated System Contract Maximum REC Quantity ⁵³	Contract Price (\$/REC)	REC Purchase Payment Amount
2000	1/15/2028	250	5,393	\$46.85	\$252,662.05
2001	10/10/2028	750	16,181	\$43.42	\$702,579.02
2002	11/15/2028	1,500	32,363	\$43.42	\$1,405,201.46
2003	5/20/2029	175	3,775	\$52.54	\$198,338.50
2004	5/10/2029	10	215	\$85.10	\$18,296.50

Designated System Contract Maximum REC Quantity (calculated per Designated System)
= Contract Nameplate Capacity (MW) x 16.42% x 8,760 hours x 15 years (rounded down)

REC Purchase Payment Amount (calculated per Designated System)
= Contract Price x Designated System Contract Maximum REC Quantity

Quarterly Netting Statement

	Item	Information
1	Date of issuance of Quarterly Netting Statement	June 1, 2029
2	Quarterly Payment Cycle (A, B, or C)	Payment Cycle C
3	List of Designated Systems	2002, 2003, 2004
4	Maximum Allowable Payment ⁵⁴	\$1,621,836.46

Notes:

- The Quarterly Netting Statement in this example is the first Quarterly Netting Statement that includes Designated System 2003. The Maximum Allowable Payment will include a one-time full payment of one hundred percent (100%) of the REC Purchase Payment Amount of such Designated System.

⁵² This example assumes that all Designated Systems are Distributed Renewable Energy Generation Devices. Additionally, all Designated Systems have not received an Advance of Capital.

⁵³ This example assumes that all Designated Systems have a Contract Capacity Factor of 16.42%.

⁵⁴ The Maximum Allowable Payment will be the sum of payments that can be made at a point in time across payments associated with RECs from all Designated Systems that have been Energized and are within the same Quarterly Payment Cycle.

Posted: June 1, 2026

- The Quarterly Netting Statement in this example is the first Quarterly Netting Statement that includes Designated System 2004. The Maximum Allowable Payment will include a one-time full payment of one hundred percent (100%) of the REC Purchase Payment Amount of such Designated System.
- The first Quarterly Netting Statement that included Designated System 2002 was issued on December 1, 2028. Such first Quarterly Netting Statement included a one-time Maximum Allowable Payment of one hundred percent (100%) of the REC Purchase Payment Amount of such Designated System.
- Designated Systems 2000 and 2001 are not applicable to this Quarterly Netting Statement. Such Designated Systems are part of Payment Cycle B. The next Quarterly Netting Statement that includes information on such Designated Systems is expected to be issued on August 1, 2029.

Exhibit F-5-A Net Out of Settlement Amount Calculations Example

(All Prices and Quantities are Illustrative only)

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the Settlement Amount that Buyer shall calculate in the Event of Default with respect to Seller as the “Defaulting Party”, pursuant to Section 9.4.

For purposes of this example, we assume the Settlement Amount is calculated on December 2, 2030.⁵⁵

Designated System ID ⁵⁶	Energization Date	Contract Nameplate Capacity (kW)	Designated System Contract Maximum REC Quantity ⁵⁷	Contract Price (\$/REC)	REC Purchase Payment Amount
1115	7/15/2027	10	215	\$85.10	\$18,296.50
1116	9/10/2029	750	16,181	\$43.42	\$702,579.02
1117	1/15/2030	250	5,393	\$46.85	\$252,662.05

Step 1: Calculate the Settlement Amount for each Designated System in the Agreement:

The table below gives information for each Designated System as of the date that the Settlement Amount was calculated.

Designated System ID	Collateral Requirement	Total Paid	Number of RECs Paid	Number of RECs Delivered	Difference [RECs Paid – RECs Delivered]	Settlement Amount
1115	\$731.86	\$18,296.50	215	25	190	\$16,900.86
1116	\$32,787.02	\$702,579.02	16,181	500	15,681	\$713,656.04
1117	\$12,633.10	\$252,662.05	5,393	950	4,443	\$220,787.65
					Termination Payment	\$951,344.55

With respect to a Designated System, Buyer shall calculate a Settlement Amount as the sum of:

- (A) Collateral Requirement of such Designated System;
- (B) Contract Price x (the Designated System Paid REC Quantity – number of RECs Delivered from such Designated System⁵⁸)⁵⁹

Step 2: Calculate the Termination Payment

Buyer shall calculate the Termination Payment by aggregating all Settlement Amounts into a single liquidated amount by summing the calculated Settlement Amount with respect to a Designated System across all Designated Systems.

$$\text{Termination Payment} = \$951,344.55$$

⁵⁵ This example assumes that no Designated System experienced a Suspension Period.

⁵⁶ This example assumes that all Designated Systems are Distributed Renewable Energy Generation Devices. Additionally, the Designated Systems have not received an Advance of Capital.

⁵⁷ This example assumes that all Designated Systems have a Contract Capacity Factor of 16.42%.

⁵⁸ The number of RECs Delivered shall not exceed the Designated System Contract Maximum REC Quantity.

⁵⁹ For avoidance of doubt, if the number of RECs Delivered from such Designated System is greater than the Designated System Paid REC Quantity, then this calculation shall be zero.

Step 3: Termination Payment is due to Buyer by Seller

The Termination Payment, if any, is due to Buyer as the Non-Defaulting Party within twenty (20) Business Days following notice by Buyer to Seller pursuant to Section 9.3. Unless Seller pays the Termination Payment in full during this twenty (20) Business Day period, Seller's Performance Assurance held by Buyer shall be applied to the Termination Payment, with any excess amounts returned to Seller.

For avoidance of doubt, the Non-Defaulting Party shall not owe any amount as Termination Payment to the Defaulting Party and payment of the Termination Payment shall only be from the Defaulting Party to the Non-Defaulting Party.

Exhibit F-5-B Net Out of Settlement Amount Calculations Example

(All Prices and Quantities are Illustrative only)

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the Settlement Amount that Buyer shall calculate in the Event of Default with respect to Seller as the “Defaulting Party”, pursuant to Section 9.4. The example Settlement Amount calculated below reflects the Advance of Capital that has been received with respect to a Designated System, pursuant to Section 5.6.

For purposes of this example, we assume the Settlement Amount is calculated on December 2, 2030.⁶⁰

Designated System ID ⁶¹	Energization Date	Contract Nameplate Capacity (kW)	Designated System Contract Maximum REC Quantity ⁶²	Contract Price (\$/REC)	REC Purchase Payment Amount
1115	7/15/2027	10	215	\$85.10	\$18,296.50
1116	9/10/2029	750	16,181	\$43.42	\$702,579.02
1117	1/15/2030	250	5,393	\$46.85	\$252,662.05

Designated System ID	Energization Date	Proposed Nameplate Capacity (kW)	Designated System Expected Maximum REC Quantity	Proposed Price (\$/REC)	Expected REC Purchase Payment Amount
1118	-	100	2,157	\$50.00	\$107,850.00

Step 1: Calculate the Settlement Amount for each Designated System in the Agreement:

The table below gives information for each Designated System as of the date that the Settlement Amount was calculated.

Designated System ID	Collateral Requirement	Advance of Capital	Total Paid ⁶³	Number of RECs Paid	Number of RECs Delivered	Difference [RECs Paid – RECs Delivered]	Settlement Amount
1115	\$731.86	\$0.00	\$18,296.50	215	25	190	\$16,900.86
1116	\$32,787.02	\$351,289.51	\$702,579.02	16,181	500	15,681	\$713,656.04
1117	\$12,633.10	\$0.00	\$252,662.05	5,393	950	4,443	\$220,787.65
1118	\$5,392.50	\$53,900.00	\$53,900.00	1,078	0	1,078	\$59,292.50
						Termination Payment	\$1,010,637.05

With respect to Designated Systems that are Energized, Buyer shall calculate a Settlement Amount as the sum of:

- (A) Collateral Requirement of such Designated System;
- (B) Contract Price x (the Designated System Paid REC Quantity – number of RECs Delivered from such Designated System⁶⁴)⁶⁵

⁶⁰ This example assumes that no Designated System experienced a Suspension Period.

⁶¹ This example assumes that all Designated Systems are Distributed Renewable Energy Generation Devices.

⁶² This example assumes that all Designated Systems have a Contract Capacity Factor of 16.42%.

⁶³ Total paid includes the Advance of Capital, if any.

⁶⁴ The number of RECs Delivered shall not exceed the Designated System Contract Maximum REC Quantity.

⁶⁵ For avoidance of doubt, if the number of RECs Delivered from such Designated System is greater than the Designated System Paid REC Quantity, then this calculation shall be zero.

Posted: June 1, 2026

With respect to Designated System that is not yet Energized and has received Advance of Capital, Buyer shall calculate a Settlement Amount as the sum of:

- (A) Collateral Requirement of such Designated System;
- (B) Advance of Capital Received

Step 2: Calculate the Termination Payment

Buyer shall calculate the Termination Payment by aggregating all Settlement Amounts into a single liquidated amount by summing the calculated Settlement Amount with respect to a Designated System across all Designated Systems.

Termination Payment = \$1,010,637.05

Step 3: Termination Payment is due to Buyer by Seller

The Termination Payment, if any, is due to Buyer as the Non-Defaulting Party within twenty (20) Business Days following notice by Buyer to Seller pursuant to Section 9.3. Unless Seller pays the Termination Payment in full during this twenty (20) Business Day period, Seller's Performance Assurance held by Buyer shall be applied to the Termination Payment, with any excess amounts returned to Seller.

For avoidance of doubt, the Non-Defaulting Party shall not owe any amount as Termination Payment to the Defaulting Party and payment of the Termination Payment shall only be from the Defaulting Party to the Non-Defaulting Party.

Exhibit F-6-A Energy Sovereignty Payment Calculation Example

(All Prices and Quantities are Illustrative only)

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the Energy Sovereignty Payment that Seller shall receive with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B), pursuant to Section 5.7(a).

For purposes of this example, we assume the Designated System will be Energized on December 1, 2027.

Step 1: Calculate the contract value, without Energy Sovereignty Payment, for the Designated System:

The table below gives information for the Designated System.

Designated System ID	Energization Date	Proposed Price (\$/REC)	Designated System Contract Maximum REC Quantity	Contract value without Energy Sovereignty Payment
2000	12/1/2027	\$80.00	6,000	\$480,000.00

Step 2: Calculate the Energy Sovereignty Payment for the Designated System:

The table below gives information for the Designated System as of the date of Energization. This information shall be used to calculate the Energy Sovereignty Payment with respect to such Designated System.

Designated System ID	Energization Date	Energy Sovereignty Proposed Transfer Date	End of Energy Sovereignty Calculation Period	Designated System Contract Maximum REC Quantity	% of Designated System Contract Maximum REC Quantity applicable	Energy Sovereignty Price Adder (\$/REC)
2000	12/1/2027	6/14/2030	11/30/2042	6,000	83.096017%	\$10.00

With respect to a Designated System, Buyer shall calculate the Energy Sovereignty Payment as the multiplicative product of:

- (A) Designated System Contract Maximum REC Quantity;
- (B) the unrounded result obtained by dividing the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date⁶⁶ by the number of days in the Energy Sovereignty Calculation Period⁶⁷;
- (C) ES Price Adder of \$10.00/REC

Energy Sovereignty Payment = \$49,857.61

⁶⁶ In this example, the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date is 4,552 days.

⁶⁷ In this example, the number of days in the Energy Sovereignty Calculation Period is 5,478 days.

Step 3: Calculate the adjusted Contract Price for the Designated System:

The table below gives information for the Designated System to calculate the weighted average Contract Price, in accordance with Section 1.27.

Designated System ID	Designated System Contract Maximum REC Quantity	Contract value without Energy Sovereignty Payment	Energy Sovereignty Payment
2000	6,000	\$480,000.00	\$49,857.61

With respect to a Designated System, Buyer shall calculate the weighted average Contract Price as the result of the following, rounded to the nearest penny:

- (A) the sum of the contract value (without Energy Sovereignty Payment) and the Energy Sovereignty Payment; divided by
- (B) Designated System Contract Maximum REC Quantity

$$\text{Contract Price (weighted average)} = \$88.31/\text{REC}$$

For avoidance of doubt, the weighted average Contract Price shall be used to calculate the REC Purchase Payment Amount due to Seller upon Energization with respect to a Designated System that is a Distributed Renewable Energy Generation Device for which Energy Sovereignty is applicable as indicated in Schedule A (and Schedule B).

Step 4: Calculate the REC Purchase Payment Amount for the Designated System:

The table below gives information for the Designated System to calculate the REC Purchase Payment Amount using weighted average Contract Price calculated in accordance with Section 1.27.

Designated System ID	Designated System Contract Maximum REC Quantity	Contract Price (weighted average) (\$/REC)	REC Purchase Payment Amount
2000	6,000	\$88.31	\$529,860.00

With respect to a Designated System, Buyer shall calculate the REC Purchase Payment Amount as the multiplicative product of:

- (A) Contract Price (weighted average);
- (B) Designated System Contract Maximum REC Quantity

$$\text{REC Purchase Payment Amount} = \$529,860.00$$

For avoidance of doubt, the sum of (a) the contract value without the Energy Sovereignty Payment and (b) the Energy Sovereignty Payment may differ from the REC Purchase Payment Amount.

Exhibit F-6-B Energy Sovereignty Payment Adjustment Calculation Example

(All Prices and Quantities are Illustrative only)

The example provided below is for illustrative purposes only and has been simplified to facilitate the understanding of the payment from Seller to Buyer if a transfer of ownership of the Designated System that allows a Designated System to achieve Energy Sovereignty occurs within two (2) years after the Energy Sovereignty Proposed Transfer Date, in accordance with Section 5.7(c).

For purposes of this example, we assume the Energy Sovereignty Proposed Transfer Date was on June 14, 2030 and the date of actual ownership transfer of the Designated System was on December 31, 2031.

Step 1: Determine the Energy Sovereignty Calculation Period for the Designated System:

The table below gives information for the Designated System Contract Maximum REC Quantity of the Designated System.

Designated System ID	Energization Date	End of Energy Sovereignty Calculation Period	Designated System Contract Maximum REC Quantity
2000	12/1/2027	11/30/2042	6,000

Step 2: Calculate the Payment Adjustment for the Designated System:

The table below gives information for the Designated System as of the date that the actual date of ownership transfer occurred.

Designated System ID	Energy Sovereignty Proposed Transfer Date	Actual date of ownership transfer	End of Energy Sovereignty Calculation Period	Designated System Contract Maximum REC Quantity	% of Designated System Contract Maximum REC Quantity applicable	Energy Sovereignty Price Adder (\$/REC)
2000	6/14/2030	12/31/2031	11/30/2042	6,000	10.313983%	\$10.00

With respect to a Designated System, the IPA shall calculate the payment due to Buyer from Seller with respect to such Designated System as the multiplicative product of:

- (A) Designated System Contract Maximum REC Quantity;
- (B) the unrounded result obtained by dividing (i) the result obtained by subtracting the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the actual date of ownership transfer⁶⁸ (as determined by the IPA) from the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date⁶⁹ by (ii) the number of days in the Energy Sovereignty Calculation Period⁷⁰;
- (C) ES Price Adder of \$10.00/REC

Payment adjustment due to Buyer from Seller = \$6,188.39

⁶⁸ In this example, the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the actual date of ownership transfer is 3,987 days.

⁶⁹ In this example, the number of days remaining in the Energy Sovereignty Calculation Period from (and inclusive of) the Energy Sovereignty Proposed Transfer Date is 4,552 days.

⁷⁰ In this example, the number of days in the Energy Sovereignty Calculation Period is 5,478 days.
