ILLINOIS POWER AGENCY

September 30, 2026

September 30, 2026 Addendum to Appendix G

On Behalf of the Illinois Power Agency (“IPA”),

This addendum to “Appendix G: MidAmerican Load Forecast and Supply Portfolio” is intended to identify changes made to Appendix G following the August 17, 2026 publication of the Draft 2027 EPP.

Following the publication of the IPA’s Draft 2027 Electricity Procurement Plan (“EPP”), MidAmerican Energy Company informed the IPA of an error impacting data represented in “Appendix G: MidAmerican Load Forecast and Supply Portfolio.” An incorrect identification of seasonal periods resulted in a formula calculation error, resulting in a calculated generation value reported as zero in Tables G-5 and G-6 of Appendix G. The error affected only the “Own Generation” values reported in Tables G-5 and G-6 of Appendix G. The underlying load forecast data was unaffected by this error.
