## Illinois Power Agency Issues Request for Feedback on Indexed REC Procurement Structure

January 20, 2023

To facilitate more successful participation in Indexed REC Procurement events and maximize utility-scale wind and solar project development, the Illinois Power Agency is issuing a [Request for Stakeholder Feedback](#).

This Request for Stakeholder Feedback seeks input on structural barriers that may have limited participation in the Spring and Fall 2022 Indexed REC Procurement events. In addition, the IPA is interested in suggestions for not only changes to the Indexed REC procurement structure, but also for changes to the IPA's Long-Term Renewable Resources Procurement Plan or to Illinois law that could help facilitate the successful development of more utility-scale wind and solar projects.

Please see the Request for Stakeholder Feedback for a list of questions on which the Agency seeks input. **Responses are due on Friday, February 3, 2023 and should be sent to [IPA.Contactus@Illinois.gov](mailto:IPA.Contactus@Illinois.gov).** Responses will be made public and published on the Agency's [website](#).

The IPA will also host a stakeholder workshop on **February 15, 2023 at 1:00 PM CPT** to provide stakeholders an additional opportunity to provide feedback. Information on how to register for the workshop is contained in the Request for Stakeholder Feedback.
