# **Appendix B Annotation by Tab**

## **Reopening Assumptions**

This tab contains assumptions used as inputs to model the 2021 ABP Reopening, and the Spring 2022 Utility Wind, Utility Solar and Brownfield Procurements. The Tables included show the 2021 ABP Reopening Block Sizes, Capacity Factors, REC Prices, REC Degradation over time, and Delivery Year Job Training expenditures. There is also a table for the Spring 2022 Procurement volumes and assumed REC prices. These are activities that occur prior to the approval of the 2022 Long-Term Plan

### DY 22 & DY 23 Assumptions

This tab contains assumptions used as inputs to model Delivery Years 2022 and 2023 ABP Block Sizes, Capacity Factors, REC Prices, REC Degradation Rate, and REC Price Annual Decrease. It also includes the planned Delivery Year 2022 and 2023 Utility Wind, Utility Solar and Brownfield Procurement volumes and assumed REC prices. These are the outputs of the program and procurement activities contained in the 2022 Long-Term Plan.

## **Future Plan Assumptions**

This tab contains assumptions used as inputs to model Delivery Years 2024 through 2040 ABP Block Sizes, Capacity Factors, REC Prices, REC Degradation Rate, and REC Price Annual Decrease. It also includes the Delivery 2024 through 2040 Utility Wind, Utility Solar and Brownfield Procurement volumes and assumed REC prices. The volume of these future activities and future ABP REC prices will be determined in future Long-Term Plan.

#### **Collections and ACP**

This tab contains tables that show the Total Applicable Reference Year Delivered Volumes provided by each Utility, the RPS Rate Cap cost per MWh determined in law and the resulting Delivery Year RPS Budget. This tab also includes tables showing Net Available ACPs for each Utility as of January 2022, and the annual Delivery Year RPS Utility balance.

#### **RPS Spend Model**

This tab includes tables that consolidate the entire current and projected RPS Budget by Delivery Year, in total and by Utility. Columns **B** through **I** highlighted in yellow are legacy ABP and Non-ABP spend (e.g., from activities that occurred prior to the enactment of P.A. 102-0662). Columns **J** through **R** show projected spending beginning with the 2021 Reopening of ABP, and Spring 2022 Utility Scale and Brownfield procurements through 2040. This data is calculated from the "Total REC Spend Activities" tab.

#### **REC Delivery Model**

This tab includes tables that consolidate the current and projected REC delivery schedule, in total and by Utility. Columns **B** through **I** highlighted in yellow are legacy ABP and Non-ABP RECs currently under contract. Columns **J** through **R** show projected RECs delivered beginning with the 2021 ABP Reopening, and Spring 2022 Utility Scale and Brownfield procurements through 2040. This data is calculated from the "Total REC Delivery Activities" tab.

# **Tables 3-11, 3-12 & Figure 3-3**

- Table 3-11 shows the budget from the RPS Spend Model with columns separated into Legacy Programs, In Progress, Proposed in This Plan, Potential Future Activities, and Set Asides.
- Table 3-12 shows the Delivery Year starting and ending RPS Balance.
- Figure 3-3 combines Tables 3-11 and 3-12 to show Projected RPS Expenses and the corresponding Delivery Year Total Available RPS Funds.

#### **Appendix**

This tab is used for tables contained in Appendix B1. It includes the summary tables from the "Collections" Tab, "RPS Spend Model" Tab, and "REC Delivery Model" Tab.

# \$ Tables and Graphs

This tab contains the RPS Spend Model tables and graphs showing Legacy Programs, In Progress, Proposed in This Plan, Potential Future Activities, and Set Asides (Figure 3-3). The spend data is also broken out by Utility. This data is calculated from the "RPS Spend" Tab.

## **Delivery Tables and Graphs**

This tab contains the delivery schedules for ABP and Non-ABP RECs that are under contract, and ABP, Utility Wind, Utility Solar and Brownfield RECs beginning with the 2021 ABP Reopening and Spring 2022 Procurement. This data is calculated from the "REC Delivery Model" Tab.

#### **Total REC Spend Activities**

This tab contains tables showing the spend created each year by new ABP opening, Utility Wind, Utility Solar and Brownfield Procurements. The separate tables are combined at the bottom of the tab to show the Total Combined Spend. This data comes from the "Summary" tabs of this worksheet.

## **Total REC Delivery Activities**

This tab contains tables showing the REC Delivery Schedule created by each year's new ABP opening, Utility Wind, Utility Solar and Brownfield Procurement. The separate tables are combined at the bottom of the tab to show the Total Combined RECs. This data comes from the "Summary" tabs of this worksheet.

## **Reopening Activities**

This tab contains two tables that model the delivery of RECs from the 2021 ABP Reopening and Spring 2022 Utility Wind, Utility Solar and Brownfield Procurements and their associated spending. These table uses inputs from the "Reopening Assumptions" tab (including REC Degradation Rate and REC Price).

#### **REC Delivery Schedule**

Column B shows the ABP Project type and size, and Utility Wind, Utility Solar and Brownfield.

Column C shows the ABP Reopening and Spring 2022 Procurement kW size.

Column D shows the Capacity Factor.

Column E shows how many RECs are expected to be delivered.

Columns F through Z show how RECs delivered a predetermined number of years by multiplying kW (Column C) x Capacity Factor (Column D) x Number of hours in a year x REC Degradation Rate

## **REC Payment Schedule**

Column B shows the ABP Project type and size, and Utility Wind, Utility Solar and Brownfield.

Column C shows the ABP Reopening and Spring 2022 Procurement kW size.

Column D shows the REC Price.

Columns F through Z show the RECs delivered in the REC Delivery Table multiplied by their REC Price, producing a REC Payment Schedule.

#### **Reopening Summary**

This tab contains summary information of "Reopening Activities" tab. It includes a table and a graph for the REC Delivery and Spend schedules of the ABP Reopening and Spring 2022 Procurement.
