To whom it may concern:

Given recent market volatility, it is difficult to manage market risk during the time between when bidders (a) submit bids and (b) receive notification of awards. Accordingly, we respectfully recommend the following:

1. Provide notification of awards during market hours;
2. Provide notification within one hour of bid submittal; and
3. Consider executing different tenors separately to minimize evaluation and notification time

We believe the above measures would result in better execution for the utilities.

Thank you for your consideration.

Seth E. Greengrass
