

STATE OF ILLINOIS
REQUEST FOR QUALIFICATIONS

ILLINOIS POWER AGENCY
PROFESSIONAL SERVICES – ADJUSTABLE BLOCK PROGRAM ADMINISTRATION
Reference Number 18-RFQ-01

The Illinois Power Agency (“Agency” or “State”), an independent state agency tasked with developing procurement plans and conducting procurement events to meet the supply requirements of Illinois electric distribution utilities and implementing the state’s renewable energy portfolio standard, is issuing this request for qualifications (“RFQ”) seeking qualified and responsible expert firms (“Offerors”) to serve as the Program Administrator for the renewable energy credit Adjustable Block Program (“ABP”) being developed by the Agency.

The Agency welcomes responses from qualified Offerors able and willing to meet the requirements outlined herein. Evaluation of responses to this RFQ will form the basis for determining recipients for one or more Requests for Proposals (“RFP”) to be issued by the Agency which will include more specific requirements related to the duties of the Program Administrator.

More information about the Adjustable Block Program and the responsibilities of its Program Administrator can be found in Section 1-75(c) of the Illinois Power Agency Act (20 ILCS 3855), Section 16-111.5(b) of the Public Utilities Act (220 ILCS 5), the Agency’s Long-Term Renewable Resources Procurement Plan (“LTRRPP” or “Plan”).¹²

BACKGROUND: Public Act 99-0906 was enacted into law on December 7, 2016 and became effective on June 1, 2017. Among other changes to Illinois law, the Act amends and expands the Illinois Renewable Portfolio Standard (“RPS”) by requiring the development of programs for the procurement of renewable energy credits from new photovoltaic systems in addition to the competitive procurement processes traditionally conducted by the Agency. These programs are proposed by the Agency as part of its Long-Term Renewable Resources Procurement Plan, the approval of which is currently the subject of a docketed proceeding before the Illinois Commerce Commission.

One such program the Agency is required to develop is the Adjustable Block Program. Designed for the *“procurement of renewable energy credits from new photovoltaic projects that are distributed renewable energy generation devices and new photovoltaic community renewable generation projects”*³ through 15-year REC delivery contracts, the Illinois RPS requires that the Adjustable Block Program *“shall be designed to provide a transparent schedule of prices and quantities to enable the photovoltaic market to scale up and for renewable energy credit prices to adjust at a predictable rate over time.”*⁴ As a prior block fills through developers’ proposed photovoltaic projects, a new block opens at a different (and very possibly lower) REC price, requiring active management and administration for successful implementation of the program.

¹ The LTRRPP was filed by the Agency for review and approval by the Illinois Commerce Commission on December 4, 2017 (See Docket No. 17-0838). A copy of the Plan can be found at: https://www.illinois.gov/sites/ipa/Pages/Renewable_Resources.aspx. The ABP is described primarily in Chapters 6 and 7.

² In addition, the Agency will be issuing additional RFQ/RFPs for a Program Administrator (or Administrators), and for an Evaluator, for the Illinois Solar for All Program pursuant to Section 1-56(b) of the Illinois Power Agency Act. (See Chapter 8 of the LTRRPP.)

INTRODUCTION

Public Act 99-0906 authorizes the Agency to “*retain one or more experts or expert consulting firms to develop, administer, implement, operate, and evaluate the Adjustable Block program...*”⁵ This solicitation represents the first step in the process of retaining the Adjustable Block Program Administrator to assist the Agency in implementing, administering, and operating the program. Upon completion of the solicitation evaluation process, Offerors rated as qualified by the Agency will receive a subsequent Request for Proposals. If selected through the RFP process, the selected Offeror will be expected to enter into a binding contract with the Agency to administer the Adjustable Block Program. This RFQ/RFP is exempt from the procedures in the State of Illinois Procurement Code pursuant to Sections 1-25(2) and 1-75(c)(1)(M) of the Illinois Power Agency Act (20 ILCS 3855/1-25(2) and 20 ILCS 2855/1-75(c)(1)(M)) and contains alternative bidding procedures pursuant to Section 20-10(i) of the Illinois Procurement Code (30 ILCS 500/20-10(i)).

BRIEF DESCRIPTION: The Agency seeks a third-party Program Administrator to administer all or a portion of the Adjustable Block Program as identified in the Agency’s LTRRPP.⁶ The Program Administrator will not be responsible for competitive procurements conducted by the Agency through its separate third-party Procurement Administrator, or for the administration of the Agency’s Illinois Solar for All program (described under Section 1-56(b) of the IPA Act), which is the subject of a separate RFQ/RFP process.⁷

Offerors must meet the minimum qualifications listed below:

- A. Direct previous experience developing, implementing, or managing the operation of large-scale programs to develop new distributed renewable energy generation systems and/or new photovoltaic community renewable generation projects.
- B. Expertise in project development and/or financing protocols, familiarity with renewable energy credit (“REC”) purchase and sales contract protocols and administration, and experience with RPS compliance rules and protocols.
- C. Adequate resources to perform and fulfill the required functions and responsibilities.
- D. The absence of a conflict of interest and inappropriate bias for or against potential program participants or the affected electric utilities.

The Agency intends to identify Offerors that can provide administrative functions for the Adjustable Block Program as identified in the Agency’s LTRRPP. The Agency’s preference is to retain a single Program Administrator; however, the Agency reserves the right to determine whether a single administrator or multiple administrators are optimal.

It is expected that the contract resulting from this solicitation and any subsequent RFP with the awarded Offeror shall have a term of up to five (5) years.

Please read the entire solicitation package and submit a Submittal of Qualifications in accordance with the instructions. All forms and signature areas contained in the submittal package must be

⁵ 20 ILCS 3855/1-75(c)(1)(M).

⁶ The final LTRRPP will be updated pursuant to any changes resulting from the Commission’s Final Order approving the Plan in Docket No. 17-0838.

⁷ See Chapter 5 of the LTRRPP for a description of the competitive procurements.
